RE: U.S. EPA Export Report for 2015 for Environmental Waste Minimization, Inc., 14 Brick Kiln Court, Northampton, PA; US EPA ID#: PAR000501577

To Whom It May Concern:

Compliance Plus Services, Inc. ("CPS") is pleased to submit the U.S. EPA Export Report for 2015 on behalf of our client Environmental Waste Minimization, Inc. ("EWMI") of Northampton, PA. EWMI is a primary exporter of waste to Stablex Canada, Inc. of Blainville, Quebec.

The export report includes the following information:

- A "List of Exported Materials by Manifest Number and Line Item": The list includes the date of the shipment, manifest number, manifest line item number, all applicable EPA hazardous waste codes (when required), the waste description, including UN/NA Numbers, Proper DOT Shipping Name, and Hazard Class, and a designation of RCRA or Not RCRA Regulated, Name of Primary Exporter and Consignee. Please note that the Report includes information from every line item on the manifests where material was shipped to Stablex Canada in 2015, including those items which appear on the manifest as DOT regulated materials but are not characterized as EPA hazardous waste pursuant to 40 CFR 261. There was some confusion in the 2014 Export Report as to why certain line items were lacking EPA Waste Codes. Hopefully, this table will aid the Agency in discerning which items on the Report are not hazardous wastes, and therefore do not require EPA waste codes.

- An Export Report Worksheet for 2015, which shows the volumes of each type of waste shipped, is provided for review. This Table highlights RCRA Regulated and Not RCRA Regulated materials. Totals and UN for all waste exported and for RCRA exported waste only, are included.

- A List of Transporters used for the export shipments.
