CES SAMPLE EVALUATION FORM

Sample ID #: _____ Date: 7/23/09

CES Sales Representative: MATT B

Requested Turnaround/Completion Date: _____

Customer Name: TUBALCAIN LUBE OIL

Generator Name and Location: 7/21/09 Quantity: _____

Hazardous Waste Codes: _____ Frequency: _____

MSDS Attached: _____ Yes _____ No

Ultimate Objective for Performing Analysis: TRACE OF BROWN SEDIMENT ON BTM OF BOTTLE

Provide a Detailed Description of the Process Generating the Waste, Material, or Product: MOTOR OIL

Provide a Detailed Composition to the best of your knowledge: D- 0.860

Component/Approximate Percentage or PPM: COLOR < 0.5

H2O- / 12 ppm

Internal Analysis to be Performed on Wastewater/Sludge and Oily Water/Sludge:

Wastewater Treatability: _____ Percent Solids: _____ Percent Oil: _____

Specific Gravity: _____ Chlor-d-tect(Oil Phase): <1000 pH: _____

Phenols: _____ Oil and Grease (Water Phase): _____ TOC: _____

Distillation Test: _____ Metals: _____ Flash: _____

GC/MS: _____ Chlor-n-oil(Oil Phase): _____ Centrifuge Test: _____

Other Internal Analysis (List): _____

Off-Site Lab Analysis (List): _____

Note: Must have an approved P.O. for any External Lab Analysis.

Internal Analysis to be Performed on Hydrocarbons or other Organic Chemicals:

Ash: _____ Black Oil Suitability: _____ Viscosity: _____

Specific Gravity: _____ Light End Suitability: _____ Distillation Test: _____

Flash: _____ CES Fuel Suitability: _____ Hydro-scout: _____

Chlor-d-tect: _____ Color: _____ Chlor-n-oil: _____

Water by Distillation: _____ Water Extractability: _____

Other Internal Analysis (List): _____

Off-Site Lab Analysis (List): _____

Note: Must have an approved P.O. for any External Lab Analysis.

Internal Analysis to be Performed on Spent Caustic:

Percent Potassium Hydroxide: _____ Specific Gravity: _____ Sulfides: _____

Percent Sodium Hydroxide: _____ Chlorides: _____ Sodium: _____

Percent Solids by Centrifuge: _____ Oil by Centrifuge: _____ TOC: _____

Other Internal Lab Analysis (List): _____

Off-Site Lab Analysis (List): _____

Note: Must have an approved P.O. for any External Lab Analysis.

Material Safety Data Sheet

("Essentially Similar" to Form OSHA-174)

MANUFACTURER	DATE PREPARED	REVISION DATE	MSDS #	SHERWIN #
SHAC		02/11/02	5309	00605

SECTION 1 - MANUFACTURER IDENTIFICATION

MANUFACTURER: Sherwin Alumina
P.O. Box 9911
Corpus Christi, TX 78469-9911

TELEPHONE NUMBERS:
EMERGENCY 1-800-424-9300 (Chemtrec)
NON-EMERGENCY (361) 777-2311

Product Class: Caustic

MANUFACTURER'S CODE IDENTIFICATION

TRADE NAME: **BAYER LIQUOR**

Bayer Liquor

SECTION 2 - INGREDIENTS

Hazardous Ingredients	Typical Percent	OSHA PEL Gas ppm	OSHA PEL Fume mg/m3	OSHA PEL Dust mg/m3	ACGIH TLV Gas ppm	ACGIH TLV Fume mg/m3	ACGIH TLV Dust mg/m3	CAS Numbers
Sodium hydroxide*	10.0-50.0	N/A	N/A	2.0	N/A	N/A	2.0 C	1310-73-2
Sodium aluminate	0.5-15.0	N/A	N/A	N/A	N/A	N/A	N/A	1302-42-7

"C" indicates ceiling value. * On toxic chemical list (Section 313 of SARA).

SECTION 3 - PHYSICAL DATA

MELTING RANGE: N/A
BOILING POINT: ND
APPEARANCE / ODOR: Liquid with irritating odor.
VAPOR DENSITY: ND

VAPOR PRESSURE: ND
EVAPORATION RATE: ND
SPECIFIC GRAVITY: ND
SOLUBILITY IN WATER: N/D

SECTION 4 - FIRE AND EXPLOSION HAZARD DATA

FLASH POINT: N/A

UEL: N/A LEL: N/A

EXTINGUISHING MEDIA: N/A

UNUSUAL FIRE AND EXPLOSION HAZARDS: None known

SPECIAL FIRE FIGHTING PROCEDURES: None known

SECTION 5 - REACTIVITY DATA

STABILITY: Stable

HAZARDOUS POLYMERIZATION: Will not occur

CONDITIONS TO AVOID: None known

MATERIALS TO AVOID: Strong acids, chlorinated hydrocarbons, organic acids

HAZARDOUS DECOMPOSITION PRODUCTS: None known

ND = NOT DETERMINED N/A = NOT APPLICABLE

SECTION 7 - HEALTH HAZARD DATA

ROUTE(S) OF ENTRY: INHALATION? YES INGESTION? YES SKIN ABSORPTION? NO

HEALTH HAZARDS:

Corrosive. Causes severe burns and tissue destruction to the mucous membranes and skin. Eye contact causes rapid damage. Inhalation of caustic vapors above the TLV may result in severe irritation and lung damage.

CARCINOGENICITY: NPT? No IARC MONOGRAPHS? No OSHA REGULATED? No

SIGNS AND SYMPTOMS OF OVEREXPOSURE:

Irritation or burning sensation to area of contact. Pneumonitis.

MEDICAL CONDITIONS GENERALLY AGGRAVATED BY EXPOSURE:

Pre-existing upper respiratory and lung diseases such as, but not limited to, Bronchitis, Emphysema, and Asthma.

EMERGENCY AND FIRST AID PROCEDURES:

Remove from exposure. Flush affected areas with copious amounts of water for 15 minutes. For ingestion, DO NOT induce vomiting. Dilute with large quantities of milk or water followed with dilute vinegar or fruit juice. Seek medical attention.

SECTION 8 - PRECAUTIONS FOR SAFE HANDLING AND USE

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED:

Dilute with water and, where necessary, neutralize with mild acid.

WASTE DISPOSAL METHOD:

For disposal of this material as a waste, act in accordance with all applicable federal, state, and local waste management regulations.

PRECAUTIONS TO BE TAKEN IN HANDLING AND STORING: See Section 8.

OTHER PRECAUTIONS:

Safety showers and eye wash fountains should be installed in any area where sodium hydroxide is handled.

SECTION 9 - SPECIAL PROTECTION INFORMATION

RESPIRATORY PROTECTION: Use NIOSH/MSHA approved dust/mist respirator where TLVs or PELs are exceeded.

VENTILATION: Where TLVs or PELs are exceeded, use local exhaust ventilation.

PROTECTIVE GLOVES: PVC, neoprene, butyl rubber, natural rubber

EYE PROTECTION: Face shield, safety goggles

OTHER PROTECTIVE EQUIPMENT: Rubber boots, slicker suit or apron where necessary.

WORK/HYGIENE PRACTICES: Use appropriate work practices to maintain exposures below the TLVs or PELs.

ND = NOT DETERMINED N/A = NOT APPLICABLE

SECTION 5 — TRANSPORTATION INFORMATION

PROPER SHIPPING NAME: Waste Sodium Hydroxide, solution ID No.: UN1824

HAZARD CLASS: Corrosive material USEPA HAZARD CODE: None

SECTION 15 — SPECIAL PRECAUTIONS / COMMENTS

This product contains a chemical or chemicals subject to the reporting requirements of Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR 372.

All statements, technical information and recommendations contained herein are based on tests and data that this Company believes to be reliable, but the accuracy or completeness thereof is not guaranteed and no warranty of any kind is made with respect thereto. This information is not intended as a license to operate under or a recommendation to practice or infringe any patent of this company or others covering any process, composition of matter or use. Since the Company shall have no control of the use of the product described herein, the Company assumes no liability for loss or damage incurred from the proper or improper use of such product.

Customer Service	:	1-866-897-4355

Emergency Telephone Number

Chemtrec Domestic (24 hr)	:	1-800-424-9300
Chemtrec International (24 hr)	:	1-703-527-3887

2. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Name	CAS No.	Concentration
Alpha Olefins		< 60.00 %W
C11&HigherOlefins LR	68411-00-7	< 40.00 %W
Paraffins		< 30.00 %W
C9-11 Alcohols	66455-17-2	< 5.00 %W
Benzene	71-43-2	300.00 - 400.00 PPM

3. HAZARDS IDENTIFICATION

Emergency Overview

Appearance and Odour	:	Dark brown. Hydrocarbon.
Health Hazards	:	Vapours may cause drowsiness and dizziness. Harmful: may cause lung damage if swallowed.
Safety Hazards	:	Highly flammable. The vapour is heavier than air, spreads along the ground and distant ignition is possible.

Health Hazards

Inhalation	:	Vapours may cause drowsiness and dizziness.
Skin Contact	:	May cause moderate irritation to skin. Repeated exposure may cause skin dryness or cracking.
Eye Contact	:	Moderately irritating to eyes.
Ingestion	:	Harmful: may cause lung damage if swallowed.
Signs and Symptoms	:	Breathing of high vapour concentrations may cause central nervous system (CNS) depression resulting in dizziness, light-headedness, headache, nausea and loss of coordination. Continued inhalation may result in unconsciousness and death. Other signs and symptoms of central nervous system (CNS)

EPAHO116000024

depression may include headache, nausea, and lack of coordination. If material enters lungs, signs and symptoms may include coughing, choking, wheezing, difficulty in breathing, chest congestion, shortness of breath, and/or fever. The onset of respiratory symptoms may be delayed for several hours after exposure. Skin irritation signs and symptoms may include a burning sensation, redness, swelling, and/or blisters. Defatting dermatitis signs and symptoms may include a burning sensation and/or a dried/cracked appearance.

4. FIRST AID MEASURES

Inhalation	:	Remove to fresh air. If rapid recovery does not occur, transport to nearest medical facility for additional treatment.
Skin Contact	:	Remove contaminated clothing. Flush exposed area with water and follow by washing with soap if available.
Eye Contact	:	Flush eyes with water while holding eyelids open. Rest eyes for 30 minutes. If redness, burning, blurred vision, or swelling persist, transport to the nearest medical facility for additional treatment.
Ingestion	:	If swallowed, do not induce vomiting; transport to nearest medical facility for additional treatment. If vomiting occurs spontaneously, keep head below hips to prevent aspiration.
Advice to Physician	:	Potential for chemical pneumonitis. Consider: gastric lavage with protected airway, administration of activated charcoal. Contact a Poison Control Center or toxicologist for guidance.

5. FIRE FIGHTING MEASURES

Clear fire area of all non-emergency personnel.

Flash point	:	-7 °C / 19 °F (Setaflash Closed Cup)
Explosion / Flammability limits in air	:	1.0 - 8.0 %(V)
Specific Hazards	:	Carbon monoxide may be evolved if incomplete combustion occurs. Will float and can be reignited on surface water. The vapour is heavier than air, spreads along the ground and distant ignition is possible.
Extinguishing Media	:	Foam, water spray or fog. Dry chemical powder, carbon dioxide, sand or earth may be used for small fires only.
Unsuitable Extinguishing Media	:	Do not use water in a jet.
Protective Equipment for Firefighters	:	Wear full protective clothing and self-contained breathing apparatus.
Additional Advice	:	Keep adjacent containers cool by spraying with water.

6. ACCIDENTAL RELEASE MEASURES

Protective measures	:	Avoid contact with spilled or released material. Immediately remove all contaminated clothing. For guidance on selection of personal protective equipment see Chapter 8 of this Material Safety Data Sheet. For guidance on disposal of spilled material

EPAHO116000025

see Chapter 13 of this Material Safety Data Sheet. Shut off leaks, if possible without personal risks. Remove all possible sources of ignition in the surrounding area. Use appropriate containment to avoid environmental contamination. Prevent from spreading or entering drains, ditches or rivers by using sand, earth, or other appropriate barriers. Attempt to disperse the vapour or to direct its flow to a safe location for example by using fog sprays. Take precautionary measures against static discharge. Ensure electrical continuity by bonding and grounding (earthing) all equipment.

Clean Up Methods : For large liquid spills (> 1 drum), transfer by mechanical means such as vacuum truck to a salvage tank for recovery or safe disposal. Do not flush away residues with water. Retain as contaminated waste. Allow residues to evaporate or soak up with an appropriate absorbent material and dispose of safely. Remove contaminated soil and dispose of safely.
For small liquid spills (< 1 drum), transfer by mechanical means to a labelled, sealable container for product recovery or safe disposal. Allow residues to evaporate or soak up with an appropriate absorbent material and dispose of safely. Remove contaminated soil and dispose of safely.

Additional Advice : Observe all relevant local and international regulations. The vapour is heavier than air, spreads along the ground and distant ignition is possible.

7. HANDLING AND STORAGE

General Precautions : Avoid breathing of or contact with material. Only use in well ventilated areas. Wash thoroughly after handling. For guidance on selection of personal protective equipment see Chapter 8 of this Material Safety Data Sheet.

Handling : Avoid contact with the skin. Electrostatic charges may be generated during pumping. Electrostatic discharge may cause fire. Ensure electrical continuity by bonding and grounding (earthing) all equipment. Restrict line velocity during pumping in order to avoid generation of electrostatic discharge (<= 1 m/sec until fill pipe submerged to twice its diameter, then <= 7 m/sec). Avoid splash filling. Do NOT use compressed air for filling, discharging, or handling operations. The vapour is heavier than air, spreads along the ground and distant ignition is possible. Extinguish any naked flames. Do Not smoke. Remove ignition sources. Avoid sparks. Handle and open container with care in a well-ventilated area.

Storage : Bulk storage tanks should be diked (bunded). Keep away from aerosols, flammables, oxidizing agents, corrosives and from products harmful or toxic to man or to the environment. Must be stored in a well-ventilated area, away from sunlight, ignition sources and other sources of heat. Nitrogen blanket recommended.

Product Transfer : Keep containers closed when not in use. Do not use compressed air for filling, discharging or handling.

Recommended Materials : For containers, or container linings use mild steel, stainless

EPAHO116000026

steel.

Unsuitable Materials : Copper. Copper alloys.

Container Advice : Containers, even those that have been emptied, can contain explosive vapours. Do not cut, drill, grind, weld or perform similar operations on or near containers.

Additional Information : Use the information in this data sheet as input to a risk assessment of local circumstances to help determine appropriate controls for safe handling, storage and disposal of this material.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Occupational Exposure Limits

Material	Source	Type	ppm	mg/m3	Notation
Benzene	ACGIH	TWA	0.5 ppm		
	ACGIH	STEL	2.5 ppm		
	ACGIH	SKIN_DES			Can be absorbed through the skin.
	OSHA	TWA	1 ppm		
	OSHA	STEL	5 ppm		
	OSHA	ACTION	0.5 ppm		
	OSHA Z1A	TWA	1 ppm		
	OSHA Z1A	STEL	5 ppm		

Additional Information : Wash hands before eating, drinking, smoking and using the toilet. Launder contaminated clothing before re-use.

Exposure Controls : The level of protection and types of controls necessary will vary depending upon potential exposure conditions. Select controls based on a risk assessment of local circumstances. Appropriate measures include: Adequate explosion-proof ventilation to control airborne concentrations below the exposure guidelines/limits.

Personal Protective Equipment : Personal protective equipment (PPE) should meet recommended national standards. Check with PPE suppliers.

Respiratory Protection : If engineering controls do not maintain airborne concentrations to a level which is adequate to protect worker health, select respiratory protection equipment suitable for the specific conditions of use and meeting relevant legislation. Check with respiratory protective equipment suppliers. Where air-filtering respirators are unsuitable (e.g., airborne concentrations are high, risk of oxygen deficiency, confined space) use appropriate positive pressure breathing apparatus. Where air-filtering respirators are suitable, select an appropriate combination of mask and filter.
Respirator selection, use and maintenance should be in accordance with the requirements of the OSHA Respiratory Protection Standard, 29 CFR 1920.134.
Where respiratory protective equipment is required, use a full-face mask.

EPAHO116000027

Eye Protection	:	Chemical splash goggles (chemical monogoggles).
Protective Clothing	:	Chemical resistant gloves/gauntlets.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance	:	Dark brown.
Odour	:	Hydrocarbon.
Boiling point	:	85.0 - 270.0 °C / 185.0 - 518.0 °F
Flash point	:	-7 °C / 19 °F (Setaflash Closed Cup)
Explosion / Flammability limits in air	:	1.0 - 8.0 %(V)
Vapour pressure	:	1.0 - 2.0 psia at 37.8 °C / 100.0 °F
Density	:	6.28 g/cm3 at 15.6 °C / 60.0 °F
Water solubility	:	0.05 g/l Negligible.
Vapour density (air=1)	:	1.0
State of aggregation	:	Liquid/Solid Liquid.
Stability		Stable.

10. STABILITY AND REACTIVITY

Stability	:	Stable under normal conditions of use.
Conditions to Avoid	:	Avoid heat, sparks, open flames and other ignition sources. Avoid exposure to air.
Materials to Avoid	:	Strong oxidising agents.
Hazardous Decomposition Products	:	Thermal decomposition is highly dependent on conditions. A complex mixture of airborne solids, liquids and gases, including carbon monoxide, carbon dioxide and other organic compounds will be evolved when this material undergoes combustion or thermal or oxidative degradation.
Hazardous Reactions	:	Avoid contact with strong Lewis or mineral acids. Should be reacted with halogens only under controlled conditions. Free radical initiators should be avoided.

11. TOXICOLOGICAL INFORMATION

Acute Oral Toxicity	:	Low toxicity: Low toxicity: LD50 >2000 mg/kg LD50 >2000 mg/kg , rat rat (Olefins) Aspiration into the lungs when swallowed or vomited may cause chemical pneumonitis which can be fatal.
Acute Dermal Toxicity	:	Low toxicity: LD50 >2000 mg/kg , Rabbit (Olefins)
Acute Inhalation Toxicity	:	High concentrations may cause central nervous system depression resulting in headaches, dizziness and nausea; continued inhalation may result in unconsciousness and/or death.
Skin Irritation	:	May cause moderate skin irritation. Prolonged/repeated contact may cause defatting of the skin which can lead to dermatitis.
Eye Irritation	:	May cause moderate eye irritation.

EPAHO116000028

12. ECOLOGICAL INFORMATION

This section will be updated as ecological reviews are completed.

13. DISPOSAL CONSIDERATIONS

Material Disposal	:	Recover or recycle if possible. It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste classification and disposal methods in compliance with applicable regulations.
Container Disposal	:	Drain container thoroughly. After draining, vent in a safe place away from sparks and fire. Residues may cause an explosion hazard. Do not puncture, cut or weld uncleaned drums. Send to drum recoverer or metal reclaimer.
Local Legislation	:	Disposal should be in accordance with applicable regional, national, and local laws and regulations. Local regulations may be more stringent than regional or national requirements and must be complied with.

14. TRANSPORT INFORMATION

US Department of Transportation Classification (49CFR)

Identification number	UN 1993
Proper shipping name	Flammable liquids, n.o.s.
Technical name	(OLEFIN/PARAFFIN MIXTURE)
Class Division	3
Packing group	III
Hazardous subst./material RQ:	BENZENE/33,333.00 LB
Emergency Response Guide No .	128

IMDG

Identification number	UN 1993

Lab Memo: 09-097

Subject: **Huntsman Evalution 0509-42**

A sample of line flush containing water and "oil" from Huntsman, Conroe, has been evaluated for processing at CES. This sample is evaluation 0509-42. The potential volume of this stream is three loads per day. There are no associated waste codes with this stream. Overall, water from this stream requires extremely high volumes of acid for treatment due to amines, which is a major stumbling block for processing. The high amine water is an issue that will not be readily or easily resolved by any type of processing at CES. The "oil" can be blended with light ends or sold "as is" for its BTU value. Since System 1 is not an outlet for the water, I recommend that we not take this stream.

This two phased sample contains water and "oil". The water phase is said to contain some ammonia and water soluble amines. The "oil" contains IPA in trace amounts, acetone, polyols and amines. The "oil" phase is approximately 33% of the sample that I evaluated. The entire sample has a strong odor of ammonia and amines.

The "oil" does not mix with black oil, mixes with light ends, and has a BTU value of 11,222. It is light tan in color with a strong ammonia odor. It may be sold for its BTU value "as is". This stream will not need to be acid/heat treated to recover the "oil", as it will phase separate out over a fairly short amount of time, a matter of minutes in the laboratory. The ammonia odor in the "oil" is not high enough to give it a flash point below 140 deg F.

The water phase contains approximately 150 ppm as ammonia and when treated around 30 ppm as ammonia, using a field test type of analysis. Besides the ammonia, the amines in this water are an issue. This water requires an extremely high volume of sulfuric acid to reduce the pH to 4. This sample will require an approximate 25% volume addition of our current use plant sulfuric acid to reduce the water to a pH of around 4, and 30% by volume addition to a pH of 3, our typical end point. The treated water does form a higher than normal amount of solids, but they do settle out over time, leaving a clear brownish water. The ammonia odor is very strong in the treated water. High ammonia and amines in water will be an issue with the City of Houston "bugs" that are used in their water treatment system.

Metals on the treated water are high in nickel at 5 ppm. This metal must be in a complex state in order for it to not react with the lime. The other metals are at acceptable levels. TOC is on the high side at 26,930 ppm and there are no phenols.

CES Environmental Services, Inc.

4904 Griggs Road
Houston, TX 77021
Tel. (713) 676-1460
Fax. (713) 676-1676

The main issue with this stream is the ammonia and amines. The fact that these amines smell like ammonia indicates that they are methyl and ethyl amines, as the higher alkyamines have a fishy odor. As a result they are very soluble in water, form hydrogen bonds with water, but have lower boiling points than their respective alcohols. They will not economically be distilled away

Primary amines such as these can be oxidized to their respective nitriles with the use of a catalyst (2,2,6,6-Tetramethylpiperidinyloxy, known as TEMPO) and trichloroisocyanuric acid, our bleach substitute, but even this yield is only 80-90% complete, and is beyond the current scope of operation at CES.

Primary amines can also be converted into amides using an acid chloride, but again, this is a rather "reactively violent" reaction, and beyond the scope of operations at CES.

Without an outlet for this high ammonia/amine water, processing this stream is not recommended at CES.

The table below summarizes the analytical testing.

Huntsman	
Evaluation 0509-42	
Flash Point, deg F	>140
Solids, vol%	0
Odor	Very strong ammonia odor
pH	11
Phenols, ppm	0
TOC, mg/L	26,930
Oil, vol%	33
Oil BTU	11,222
Treatability	Very difficult
Metals, ppm	
Ni	5.236
Zn	0.524
Cu	0.427
Cd	0.143
Cr	0.067

Distillation Test: _____ **Metals:** _____ **Flash:** _____
GC/MS: _____ **Chlor-n-oil(Oil Phase):** _____ **Centrifuge Test:** _____
Other Internal Analysis (List): ODOR Testing
Off-Site Lab Analysis (List): _____
Note: Must have an approved P.O. for any External Lab Analysis.

Internal Analysis to be Performed on Hydrocarbons or other Organic Chemicals:

Ash: _____ **Black Oil Suitability:** _____ **Viscosity:** _____
Specific Gravity: _____ **Light End Suitability:** _____ **Distillation Test:** _____
Flash: _____ **CES Fuel Suitability:** _____ **Hydro-scout:** _____
Chlor-d-tect: _____ **Color:** _____ **Chlor-n-oil:** _____
Water by Distillation: _____ **Water Extractability:** _____
Other Internal Analysis (List): _____
Off-Site Lab Analysis (List): _____
Note: Must have an approved P.O. for any External Lab Analysis.

Internal Analysis to be Performed on Spent Caustic:

Percent Potassium Hydroxide: _____ **Specific Gravity:** _____ **Sulfides:** _____
Percent Sodium Hydroxide: _____ **Chlorides:** _____ **Sodium:** _____
Percent Solids by Centrifuge: _____ **Oil by Centrifuge:** _____ **TOC:** _____
Other Internal Lab Analysis (List): _____
Off-Site Lab Analysis (List): _____
Note: Must have an approved P.O. for any External Lab Analysis.

ODOR + PH + OFFSite water blenders.

CES Environmental Services, Inc.

CES SAMPLE EVALUATION FORM

Sample ID #: 0609-21 **Date:** 6/17/09

CES Sales Representative: Joe Camp

Requested Turnaround/Completion Date: today

Customer Name: Longwood Elastomers **Quantity:** 1500 gals

Generator Name and Location: " **Frequency:** once per year

Hazardous Waste Codes: N/A

MSDS Attached: ____ Yes X No

Ultimate Objective for Performing Analysis: treatability, establish pricing

Provide a Detailed Description of the Process Generating the Waste, Material, or Product:
[redacted] elastomer production

Provide a Detailed Composition to the best of your knowledge:
75% oil, 24% water, 1% solids

Component/Approximate Percentage or PPM:

/	Ni / 0.000
/	Zn / 0.034
/	Cu 0.036
/	Cd / 0.001
/	Cr / 0.202
/	/
/	/

Internal Analysis to be Performed on Wastewater/Sludge and Oily Water/Sludge:

Wastewater Treatability: X OK. **Percent Solids:** X ~1% **Percent Oil:** 73%

Specific Gravity: NICE LARGE FLOC SEPARATES OUT QUICKLY **Chlor-d-tect(Oil Phase):** ~300 **pH:** X 7

Phenols: X ~5 **Oil and Grease (Water Phase):** ____ **TOC:** X → 1294

Distillation Test: ____ **Metals:** X **Flash:** X > 140

GC/MS: ____ **Chlor-n-oil(Oil Phase):** ____ **Centrifuge Test:** ____

Other Internal Analysis (List): ____

Off-Site Lab Analysis (List): ____

Note: Must have an approved P.O. for any External Lab Analysis.

Internal Analysis to be Performed on Hydrocarbons or other Organic Chemicals:

Ash: ____ **Black Oil Suitability:** X OK **Viscosity:** ____

Specific Gravity: ____ **Light End Suitability:** ____ **Distillation Test:** ____

Flash: ____ **CES Fuel Suitability:** ____ **Hydro-scout:** X

Chlor-d-tect: X **Color:** ____ **Chlor-n-oil:** 18%

Water by Distillation: ____ **Water Extractability:** ____

Other Internal Analysis (List): ____

Off-Site Lab Analysis (List): ____

Note: Must have an approved P.O. for any External Lab Analysis.

~~**Internal Analysis to be Performed on Spent Caustic:**~~

~~**Percent Potassium Hydroxide:** ____ **Specific Gravity:** ____ **Sulfides:** ____~~

~~**Percent Sodium Hydroxide:** ____ **Chlorides:** ____ **Sodium:** ____~~

~~**Other Internal Lab Analysis (List):** ____~~

~~**Off-Site Lab Analysis (List):** ____~~

~~***Note: Must have an approved P.O. for any External Lab Analysis.***~~

Sx. HAS LOTS OF FLOC - DOES NOT QUICKLY PHASE OUT

CES Environmental Services, Inc.

CES SAMPLE EVALUATION FORM

Sample ID #: 0609-20 **Date:** 6/15/09

CES Sales Representative: Jay

Requested Turnaround/Completion Date: 5d

Customer Name: MEMC **Quantity:** ~50 loads

Generator Name and Location: MEMC, Pasadena **Frequency:** per month over 48 hr time span

Hazardous Waste Codes: no

MSDS Attached: ____ Yes ___x___ No

Ultimate Objective for Performing Analysis: pricing & probe

Provide a Detailed Description of the Process Generating the Waste, Material, or Product:

Washdown of equipment from Si wafer manufacturing equipment

Provide a Detailed Composition to the best of your knowledge:

see analytical from Abermade's lab & probe attached

Component/Approximate Percentage or PPM:

Water	98-99%		@ Ni - 0.000
toluene	~~<0.5%~~ (<2ppm)		In - 0.004
dimethoxyethane	~~<0.5%~~ <25ppm)		Cu 0.066
Fluoride	<300ppm - typical <1000ppm max		Cd - 0.000
			Cr - 0.000

Internal Analysis to be Performed on Wastewater/Sludge and Oily Water/Sludge:

Wastewater Treatability: x **Percent Solids:** ~0 **Percent Oil:** ~0

Specific Gravity: ____ **Chlor-d-tect(Oil Phase):** ____ **pH:** ~8

Phenols: ~0 **Oil and Grease (Water Phase):** ____ **TOC:** ____ . 1161

Distillation Test: ____ **Metals:** ____ **Flash:** ____

GC/MS: ____ **Chlor-n-oil(Oil Phase):** ____ **Centrifuge Test:** ____

Other Internal Analysis (List): ____

Off-Site Lab Analysis (List): ____

Note: Must have an approved P.O. for any External Lab Analysis.

Internal Analysis to be Performed on Hydrocarbons or other Organic Chemicals:

Ash: ____ **Black Oil Suitability:** ____ **Viscosity:** ____

Specific Gravity: ____ **Light End Suitability:** ____ **Distillation Test:** ____

Flash: ____ **CES Fuel Suitability:** ____ **Chlor-d-tect:** ____

SECTION 2: Billing Information - ☐ **Same as Above**

Company: MEMC St. Peters
Address: PO Box 8
City: St Peters **State:** MO **Zip:** 63376-0008
Contact: Accounts Payable **Title:** Unknown
Phone Number: Unknown **Fax Number:** Unknown

SECTION 3: General Description of the Waste

Name of Waste: Process Wastewater
Detailed Description of Process Generating Waste:

Hydroblasting process equipment and piping

Physical State: ☑ Liquid ☐ Sludge ☐ Powder ☐ Solid ☐ Filter Cake ☐ Combination

Color: Water-white to Brown **Odor:** Musty

Specific Gravity (water=1): 1 **Density:** ~8.3 lbs/gal

Does this material contain any total phenolic compounds? ☐ Yes ☑ No

Does this material contain any para substituted phenolic compounds? ☐ Yes ☑ No

Is the Waste subject to the benzene waste operation NESHAP? (40 CFR Part 61, Subpart FF) ☐ Yes ☑ No

Answer "Yes" if your waste contains benzene **AND** if the SIC code from your facility is one of the following:

2812	2813	2816	2819	2821	2822	2823	2824	2833	2834
2835	2836	2841	2842	2843	2844	2851	2861	2865	2869
2873	2874	2876	2879	2891	2892	2893	2896	2899	2911
3312	4953	4959	9511						

Layers: ☑ Single-phase ☐ Multi-phase

Container Type: ☐ Drum ☐ Tote ☑ Truck ☐ Other (explain)

Frequency: ☐ Weekly ☑ Monthly ☐ Yearly ☐ One-Time
Quantity: campaigns: 100 - 200 trucks/ 3 days

Is this a USEPA "Hazardous Waste" per 40CFR 261.3? ☐ Yes ☑ No

If "Yes", then please complete, sign and date the Underlying Hazardous Constituents Form attached hereto

If "Yes", Is it: ☐ D001 (Ignitable) ☐ D002 (Corrosive) ☐ D003 (Reactive)

Characteristic for Toxic Metals: ☐ D004 ☐ D005 ☐ D006 ☐ D007 ☐ D008 ☐ D009 ☐ D010 ☐ D011

Characteristic for Toxic Organics: D012 thru D043 (please list all that apply)

Is this an "F" or "K" Listed waste or mixed with one? ☐ Yes ☑ No

If "Yes", then please list ALL applicable codes: _____

Is this a commercial product or spill cleanup that would carry a "U" or "P" waste code under 40 CFR 261.33(e) or (f)? ☐ Yes ☑ No

If "Yes", then please list ALL applicable codes: _____

Texas State Waste Code Number: 20091142

Proper US DOT Shipping Name: Process Water, Non-hazardous, Non-regulated

Class: _____ **UN/NA:** _____ **PG:** _____ **RQ:** _____

Flash Point		pH		Reactive Sulfides		Reactive Cyanides		Solids	
> 200°F		7 - 10		NA	mg/l	NA	mg/l		%
Oil & Grease		**TOC**		**Zinc**		**Copper**		**Nickel**	
unknown	mg/l	unknown	mg/l	unknown	mg/l	unknown	mg/l	unknown	mg/l

SECTION 4: Physical and Chemical Data

COMPONENTS TABLE	CONCENTRATOIN	UNITS
The waste consists of the following materials	Ranges are acceptable	or %
Water	98 - 99	%
Toluene	0 - 0.5	%
Dimethoxyethane	0 - 0.5	%

SECTION 5: Safety Related Data

If the handling of this waste requires the use of special protective equipment, please explain.

customary plant PPE

SECTION 6: Attached Supporting Documents

List all documents, notes, data and/or analysis attached to this form as part of the waste approval package. HW Analysis run by Abermarle

SECTION 7: Incompatibilities

Please list ALL incompatibilities (if any):

Water-reactive wastes

SECTION 8: Generator's Knowledge Documentation

Laboratory analysis of the hazardous waste characteristics, listed below, **WAS NOT PERFORMED** based upon the following generator knowledge:

TCLP Metals: X
TCLP Volatiles: X
TCLP Semi-Volatiles: X
Reactivity: X
Corrosivity: X
Ignitability: X

SECTION 9: Waste Receipt Classification Under 40 CFR 437 (Prtaining to Pre-Treatment Requirements for Centralized Waste Treatment Facilities)

Is this material a wastewater or wastewater sludge? ☑ YES ☐ NO
If 'Yes', complete this section.

PLEASE CHECK THE APPROPRIATE BOX. IF NO APPROPRIATE CATEGORY, GO TO THE NEXT PAGE.

Metals Subcategory **: *Subpart A***

- ☐ Spent electroplating baths and/or sludges
- ☐ Metal finishing rinse water and sludges
- ☐ Chromate wastes
- ☐ Air pollution control blow down water and sludges
- ☐ Spent anodizing solutions
- ☐ Incineration wastewaters
- ☐ Waste liquid mercury
- ☐ Cyanide-containing wastes greater than 136 mg/l
- ☐ Waste acids and bases with or without metals
- ☐ Cleaning, rinsing, and surface preparation solutions from electroplating or phosphating operations
- ☐ Vibratory deburring wastewater
- ☐ Alkaline and acid solutions used to clean metal parts or equipment

Oils Subcategory **: *Subpart B***

- ☐ Used oils
- ☐ Oil-water emulsions or mixtures
- ☐ Lubricants
- ☐ Coolants
- ☐ Contaminated groundwater clean-up from petroleum sources
- ☐ Used petroleum products
- ☐ Oil spill clean-up
- ☐ Bilge water
- ☐ Rinse/wash waters from petroleum sources

- ☐ Interceptor wastes
- ☐ Off-specification fuels
- ☐ Underground storage remediation waste
- ☐ Tank clean-out from petroleum or oily sources
- ☐ Non-contact used glycols
- ☐ Aqueous and oil mixtures from parts cleaning operations
- ☐ Wastewater from oil bearing paint washes

Organics Subcategory **: *Subpart C***

- ☐ Landfill leachate
- ☐ Contaminated groundwater clean-up from non-petroleum sources
- ☐ Solvent-bearing wastes
- ☐ Off-specification organic product
- ☐ Still bottoms
- ☐ Byproduct waste glycol
- ☐ Wastewater from paint washes
- ☐ Wastewater from adhesives and/or epoxies formulation
- ☒ Wastewater from organic chemical product operations
- ☐ Tank clean-out from organic, non-petroleum sources

(1) If the waste contains oil and grease at or in excess of 100 mg/L, the waste should be classified in the oils subcategory.

(2) If the waste contains oil and grease less than 100 mg/L, and has any of the pollutants listed below in concentrations in excess of the values listed below, the waste should be classified in the metals subcategory.

Cadmium: 0.2 mg/L
Chromium: 8.9 mg/L
Copper: 4.9 mg/L
Nickel: 37.5 mg/L

(3) If the waste contains oil and grease less than 100 mg/L, and does not have concentrations of cadmium, chromium, copper, or nickel above any of the values listed above, the waste should be classified in the organics subcategory.

- ☐ Metals Subcategory
- ☐ Oils Subcategory
- ☒ Organics Subcategory

SECTION 10 Additional Instructions

If you cannot determine the correct subcategory in Section 9 and you did not furnish data for the concentration of Cadmium, Chromium, Copper, Nickel, and Oil and Grease, CES will send offsite to a commercial laboratory a sample to determine these concentrations. This will be prior to acceptance. The generator will be responsible for the cost of the analysis.

SECTION 11: Generator's Certification

The information contained herein is based on ☐ generator knowledge and/or ☐ analytical data.
I hereby certify that the above and attached description is complete and accurate to the best of my knowledge and ability to determine that no deliberate or willful omissions of compostion properties exist and that all known or suspected hazards have been disclosed. I certify that the materials tested are representative of all materials described by this document.

Material Safety Data Sheet

HiTEC 7476 Performance Additive

MSDS No. H7476

HiTEC is a trademark owned by Afton Chemical Corporation or one of its subsidiaries.

1. Product and Company Identification

Product Use Petrochemical industry: Crankcase Additive

Validation Date **7 February 2006**

In Case of Emergency

1-800-403-0044 (US & Canada)
1-804-648-7727 (International)
32-2-507-20-64 (Europe)
81-3-5210-4890 (Japan)

Manufacturer / Supplier

Afton Chemical Corporation
500 Spring St.
Richmond, VA 23219
1-804-788-5800

Afton Chemical Limited
Euro-Tech Centre
London Road, Bracknell, Berkshire
RG12 2UW, England
44 1344-304141

In Japan:
Afton Chemical Japan Corporation
Sumitomo Fudousan Sanbancho Bldg. 5F
6-26 Sanbancho, Chiyoda-ku
Tokyo 102-0075 Japan
Emergency phone: 81-3-5210-4890

In Australia:
Afton Chemical Asia Pacific Company
Level 9, 20 Berry Street
North Sydney, NSW 2060
Australia
Telephone number: 02-9923-1588
Business Hours: 9:00am - 5:00pm

2. Composition and Information on Ingredients

Note: See section 8 for occupational exposure limits and section 11 for LC50/LD50 information.

Substance/Preparation : Preparation

Ingredient Name	CAS No.	Conc. (% w/w)	EU Classification	WHMIS Regulated?
Mineral Oil	Mixture.	60-100	Not controlled under DSD (Europe).	No.

3. Hazards Identification

Notice to Reader

Afton operates a world-wide system for hazard communication. Some hazards shown in Section 3 may apply to non-EU countries and may not result in classification and labeling in the EU. Please see Section 2 and 15 for country specific classification information, and Section 11 for additional details.

The preparation is not classified as dangerous according to Directive 1999/45/EC and its amendments.

Primary Hazards and Critical Effects : NOTICE!

Environmental Hazards : Not classified as dangerous for the environment according to EC criteria.

Hazardous Material Information System (U.S.A.)

Health	0
Reactivity	0

4. First Aid Measures

Inhalation : If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention if symptoms appear.

Ingestion : If affected person is fully conscious, give one glass of water to drink. Never give anything by mouth to an unconscious person. Get medical attention if symptoms appear.

Skin Contact : Wash with soap and water. Get medical attention if irritation develops.

Eye Contact : In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get immediate medical attention.

5. Fire-Fighting Measures

Extinguishing Media : In case of fire, use water spray (fog), foam, dry chemical, or CO2.

Fire-Fighting Procedures : Fire fighters should wear positive pressure self-contained breathing apparatus (SCBA) and full turnout gear.

Flash point : Closed cup: 155°C (311°F).(Pensky-Martens. Minimum)

6. Accidental Release Measures

Personal Precautions : Immediately contact emergency personnel. Keep unnecessary personnel away. Use suitable protective equipment (Section 8). Follow all fire fighting procedures (Section 5).

Environmental Precautions and Clean-up Methods : If emergency personnel are unavailable, contain spilled material. For small spills add absorbent (soil may be used in the absence of other suitable materials) scoop up material and place in a sealed, liquid-proof container for disposal. For large spills dike spilled material or otherwise contain material to ensure runoff does not reach a waterway. Place spilled material in an appropriate container for disposal. Minimize contact of spilled material with soils to prevent runoff to surface waterways

Note: See section 1 for emergency contact information and section 13 for waste disposal.

7. Handling and Storage

Handling : Wash thoroughly after handling.

Storage : Keep container tightly closed. Keep container in a cool, well-ventilated area.

8. Exposure Controls and Personal Protection

Engineering Controls : Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors below their respective threshold limit value.

Personal Protective Equipment

Respiratory System : Use appropriate respiratory protection if there is the potential to exceed the exposure limit(s).

Skin and Body : Disposable outer garments when there is the potential for contact with the material.

Hands : Use chemical resistant, impervious gloves.

Eyes : Safety glasses with side shields. Goggles with a face shield may be necessary depending on quantity of material and conditions of use.

Occupational Exposure Limits

Ingredient Name	OEL United States	OEL Canada	OEL Europe	OEL Australia
Mineral Oil	**ACGIH (United States).** TWA: 5 mg/m³ STEL: 10 mg/m³ **OSHA (United States).** TWA: 5 mg/m³	TWA: 5 mg/m³ STEL: 10 mg/m³	**EH40 (UK) (Europe, 2002).** TWA: 5 mg/m³ 8 hour(s).	**NOHSC (Australia, 2003).** TWA: 5 mg/m³ 8 hour(s).

9. Physical and Chemical Properties

Physical State and Appearance : Liquid. (Viscous liquid.)

Color : Brown. (Dark.)

Odor : Petroleum.

Density : 0.948 g/cm³

Specific Gravity : 0.95 at 15.6°C

Solubility : Insoluble in cold water.

Viscosity : 220 cSt @ 100°C

Flash Point : Closed cup: 155°C (311°F).(Pensky-Martens. Minimum)

10. Stability and Reactivity

Stability : The product is stable.

Materials to avoid : Strong oxidizing and reducing agents.

Conditions to avoid : High temperatures, sparks, and open flames.

11. Toxicological Information

Routes of Entry : Skin, Eyes, Inhalation and Ingestion.

Target Organs : None known.

Acute Effects

Inhalation : Inhalation of oil mist or vapors at elevated temperatures may cause respiratory irritation.

Ingestion : Not determined.

Skin Contact : Non-irritating to the skin.

Eye Contact : Non-irritating to the eyes.

Chronic Effects

Adverse Effects : Not determined.

Carcinogenic Effects : Not classified or listed by IARC, NTP, OSHA, EU and ACGIH.

Toxicity Data

Ingredient Name	Test	Result	Route	Species
HiTEC 7476 Performance Additive	LD50	>5000 mg/kg	Oral	Rat
	LD50	>2000 mg/kg	Dermal	Rabbit

Other Information : Not available.

12. Ecological Information

Environmental Hazards : Not classified as dangerous for the environment according to EC criteria. Based on calculation.

Environmental Fate : This product contains components which may be persistent in the environment.

13. Disposal Consideration

Waste Handling and Disposal : Waste must be disposed of in accordance with federal, state and local environmental control regulations.

14. Transport Information

Regulatory Information	UN number	Proper shipping name	Class	Packing Group	Label	Additional information
DOT Classification	Not regulated.	-	-			
TDG Classification	Not regulated.	-	-			
ADR/RID Class	Not regulated.	-	-			-
IMDG Class	Not regulated.	-	-			-
IATA-DGR Class	Not regulated.	-	-			-
ADG Class	Not regulated.	-	-			-

Notice to Reader

The above transport information is provided to assist in the proper classification of this product and may not be suitable for all shipping conditions.

15. Regulatory Information

EU Regulations

Risk Phrases	: This product is not classified according to the EU regulations.
Safety Phrases	: Not applicable.
US Regulations	: SARA 313 toxic chemical notification and release reporting: No products were found.
	: SARA 311/312 Nuisance Mist/Dust Only
State	: California prop. 65: No products were found.

Canadian Regulations

WHMIS (Classification)	: Not a WHMIS controlled material.

International Inventory Status

United States	: All components on TSCA Inventory
Canada	: All components on DSL
Europe	: All components on EINECS
Japan	: All components on METI
Australia	: All components on NICNAS
Korea	: All components on ECL
China	: All components on IECSC
Philippines	: All components on PICCS

16. Other Information

PREPARATION INFORMATION

Validated by _HS&E Department (Tel: +1 804 788 5800) on 2/7/2006.

Version	: 1
Date of Printing	: 2/7/2006.

Indicates information that has changed from previously issued version.

Notice to Reader

This information and these recommendations are offered in good faith and believed to be correct as of the date hereof. Information and recommendations are supplied upon the condition that the recipients will make their own decision as to safety and suitability for their purposes. No representations or warranties, either expressed or implied, of merchantability, fitness for a particular purpose, or of any other nature, are made with respect to the product or the information and recommendations. Afton makes no representation as to completeness or accuracy. In no event will Afton be responsible for damages of any nature whatsoever resulting from the use or reliance upon the information and recommendations.

CES Environmental Services, Inc.

CES SAMPLE EVALUATION FORM

Sample ID #: OJ09-52 **Date:** 6-1-09
CES Sales Representative: GB
Requested Turnaround/Completion Date: ASAP
Customer Name: Entergy (Lewis Creek) (USE) **Quantity:** 2000gal
Generator Name and Location: Willis, TX **Frequency:** 1X
Hazardous Waste Codes: NA - Reuse
MSDS Attached: _____ Yes ~~No~~
Ultimate Objective for Performing Analysis: Re-use as product

Provide a Detailed Description of the Process Generating the Waste, Material, or Product:
No longer used material - Drained from product tank

Provide a Detailed Composition to the best of your knowledge: (Note: They added 200 gallon NaOH)
2000gal 98% H_2SO_4 mixed w/ 200gal of NaOH

Component/Approximate Percentage or PPM:

~~[illegible]~~	/	/	/
H_2SO_4	85-95	/	/
NaOH/water	5-15	/	/
/	/	/	/

Internal Analysis to be Performed on Wastewater/Sludge and Oily Water/Sludge:

Wastewater Treatability: _____	**Percent Solids:** _____	**Percent Oil:** _____
Specific Gravity: ✓	**Chlor-d-tect(Oil Phase):** _____	**pH:** _____
Phenols: _____	**Oil and Grease (Water Phase):** _____	**TOC:** _____
Distillation Test: _____	**Metals:** _____	**Flash:** _____
GC/MS: _____	**Chlor-n-oil(Oil Phase):** _____	**Centrifuge Test:** _____

Other Internal Analysis (List): Test to see if acceptable for Reuse
Off-Site Lab Analysis (List):
Note: Must have an approved P.O. for any External Lab Analysis.

Internal Analysis to be Performed on Hydrocarbons or other Organic Chemicals:

Ash: _____	**Black Oil Suitability:** _____	**Viscosity:** _____
Specific Gravity: _____	**Light End Suitability:** _____	**Distillation Test:** _____
Flash: _____	**CES Fuel Suitability:** _____	**Hydro-scout:** _____
Chlor-d-tect: _____	**Color:** _____	**Chlor-n-oil:** _____
Water by Distillation: _____	**Water Extractability:** _____	

Other Internal Analysis (List): _____
Off-Site Lab Analysis (List): _____
Note: Must have an approved P.O. for any External Lab Analysis.

Internal Analysis to be Performed on Spent Caustic:

Percent Potassium Hydroxide: _____	**Specific Gravity:** _____	**Sulfides:** _____
Percent Sodium Hydroxide: _____	**Chlorides:** _____	**Sodium:** _____
Percent Solids by Centrifuge: _____	**Oil by Centrifuge:** _____	**TOC:** _____

Other Internal Lab Analysis (List): _____
Off-Site Lab Analysis (List): _____
Note: Must have an approved P.O. for any External Lab Analysis.

CES SAMPLE EVALUATION FORM

Sample ID #: 0509-4[illegible]1 **Date:** 5/22/9

CES Sales Representative: Matt

Requested Turnaround/Completion Date: _____

Customer Name: Citgo - Lemont, IL **Quantity:** 10K gal/month

Generator Name and Location: _____ **Frequency:** _____

Hazardous Waste Codes: _____

MSDS Attached: _____ Yes ___✓___ No

Ultimate Objective for Performing Analysis: Use as caustic to paper mills

Provide a Detailed Description of the Process Generating the Waste, Material, or Product: Oil processing scrubbing

Provide a Detailed Composition to the best of your knowledge: _____

Component/Approximate Percentage or PPM:

Sodium hydroxide 20% water 80% — Clear Looking - FREE OF PARTICULATES — NaOH - 12.2 — S - 0.038 — 56 - 1.145 1.145

Internal Analysis to be Performed on Wastewater/Sludge and Oily Water/Sludge:

Wastewater Treatability: _____ **Percent Solids:** _____ **Percent Oil:** _____

Specific Gravity: _____ **Chlor-d-tect(Oil Phase):** _____ **pH:** RSH-0

Phenols: _____ **Oil and Grease (Water Phase):** _____ **TOC:** _____

Distillation Test: _____ **Metals:** _____ **Flash:** Na_2O_3

GC/MS: _____ **Chlor-n-oil(Oil Phase):** _____ **Centrifuge Test:** Gas Na) = 1.38

Other Internal Analysis (List): _____

Off-Site Lab Analysis (List): _____

Note: Must have an approved P.O. for any External Lab Analysis.

Internal Analysis to be Performed on Hydrocarbons or other Organic Chemicals:

Ash: _____ **Black Oil Suitability:** _____ **Viscosity:** _____

Specific Gravity: _____ **Light End Suitability:** _____ **Distillation Test:** _____

Flash: _____ **CES Fuel Suitability:** _____ **Hydro-scout:** _____

Chlor-d-tect: _____ **Color:** _____ **Chlor-n-oil:** _____

Water by Distillation: _____ **Water Extractability:** _____

Other Internal Analysis (List): _____

Off-Site Lab Analysis (List): _____

Note: Must have an approved P.O. for any External Lab Analysis.

Internal Analysis to be Performed on Spent Caustic:

Percent Potassium Hydroxide: ✓ **Specific Gravity:** ✓ **Sulfides:** ✓

Percent Sodium Hydroxide: ✓ **Chlorides:** ✓ **Sodium:** ✓

Percent Solids by Centrifuge: ✓ **Oil by Centrifuge:** ✓ **TOC:** ✓

Other Internal Lab Analysis (List): _____

Off-Site Lab Analysis (List): _____

Note: Must have an approved P.O. for any External Lab Analysis.

Identification

Name	Ethyl (S)-2-[(S)-4-methyl-2,5-dioxo-1,3-oxazolidin-3-yl]-4-phenylbutyrate
Synonyms	N-[1-(S)-(+)-Ethoxycarbonyl-3-phenylpropyl]-L-alanyl carboxyanhydride
Molecular Structure	Molecular Formula	$C_{16}H_{19}NO_5$
Molecular Weight	305.33
CAS Registry Number	84793-24-8

ACTIVE PHARMACEUTICAL INGREDIENT.

Properties

Melting point	69-73 °C
alpha	36.5 ° (c=1, CHCl3)

MATERIAL SAFETY DATA SHEET

According to EC Directive 2001/58/EC

Product ID: 358
Issue/Revision Date: 02/25/2008 English
Revision Number: 00

1. IDENTIFICATION OF THE SUBSTANCE/PREPARATIION AND THE COMPANY/UNDERTAKING

Identification of the Substance/Preparation:

Product Name: N-[(S)-1-Etoxycarbonyl-3-phenylpropyl]-L-alanyl N-carboxyanhydride (SCA-NCA)
Product Code: 358
Synonyms: SCA-NCA, ECPA-NCA; $C_{16}H_{19}NO_5$
Use of the Substance: Chemical Intermediate

Company/Undertaking Identification:

Manufactured By: ZaCh System Corporation.
914 So. 16th Street,
La Porte, Texas, 77571
USA

Emergency Telephone Number: ++1 281 842 0245 (USA)

2. HAZARDS IDENTIFICATION

Classification: **Xi; R41-43;**

Most Important hazards:
Risk of irritation and damage to eyes.
May cause sensitization by inhalation.
May cause sensitization by skin contact.
Risk of dust explosion.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Material/CAS Number	CAS-No	Percent	EU ELINCS No.	Classification
SCA-NCA (N-[(S)-1-Etoxycarbonyl-3-phenylpropyl]-L-alanyl N-carboxyanhydride 84793-24-8	84793-24-8	>99	430-360-8	Xi; R41-43

For the full text of the R phrases mentioned in this section, see Section 16.

EPAHO116000080

4. FIRST AID MEASURES

General Advice: Immediate medical attention is required. Show this safety data sheet to the doctor in attendance.

Inhalation: Move to fresh air, seek medical attention.

Skin Contact: Wash off immediately with plenty of water for at least 15 minutes. Use a mild soap if available. Remove and wash contaminated clothing before re-use. If skin irritation persists, call a physician.

Eye Contact: Remove contact lens and pour a gentle stream of warm water through the affected eye for at least 15 minutes. If irritation persists, contact a poison control center, emergency room, or physician as further treatment may be necessary.

Ingestion: Clean mouth with water and drink afterwards plenty of water. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician.

5. FIRE FIGHTING MEASURES

Suitable Extinguishing Media: Water. Water spray. Carbon dioxide, Dry chemical.Foam.

Extinguishing media which must not be used for safety reasons. None.

Specific Hazards: During processing, dusts may form explosive mixture in air.

Hazardous Decomposition Products: Carbon oxides. Nitrogen Oxides (NOx).

Special Protective Equipment for Firefighters: In the event of fire, wear self contained breathing apparatus. Avoid contact with skin. Use personal protective equipment.

Specific Methods: Risk of dust explosion. Avoid dust formation. Standard procedure for chemical fires. Water mist may be used to cool closed containers.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions: Avoid dust formation. Risk of dust explosion. Ensure adequate ventilation. Wear personal protective equipment. Avoid contact with skin, eyes and clothing.

Environmental Precautions: Prevent further leakage or spillage if safe to do so. Do not allow material to contaminate ground water system.

Methods for Clean Up: Pick-up and arrange disposal without creating dust. Do not create a powder cloud by using a brush or compressed air.

EPAHO116000081

7. HANDLING AND STORAGE

Handling: Avoid dust formation. Risk of dust explosion. Use only in area provided with appropriate exhaust ventilation. Avoid contact with skin, eyes, and clothing. Wear personal protective equipment.

Storage: Keep at temperatures below 0oC to preserve product quality. Keep in a cool, dry, well-ventilated place. Keep in properly labeled containers. Keep tightly closed. Ensure adequate ventilation.

Incompatible Products: Do not store near acids. Bases. Oxidizing agent.

Specific Use(s): Take notice of the directions of use on the label.

8. EXPOSURE CONTROLS/ PERSONAL PROTECTION

Engineering Measures: Ensure adequate ventilation, especially in confined areas.

Exposure Limit Values:

Note: We are not aware of any national exposure limit.

Personal Protective Equipment:

Respiratory Protection: Ensure adequate ventilation. Respirator must be worn if exposed to dust.

Hand Protection: PVC or other plastic material gloves.

Break Through Time: No data available.

Eyes: Safety glasses with side-shields.

Skin: Boots. Apron. Long sleeved clothing. Remove and wash contaminated clothing and gloves, including the inside, before re-use.

Hygiene Measures: General industrial hygiene practice. When using, do not eat, drink or smoke. Regular cleaning of equipment, work area, and clothing.

Environmental Exposure Controls: Prevent product from entering drains. Regular cleaning of equipment, work area, and clothing.

9. PHYSICAL AND CHEMICAL PROPERTIES

General Information:

Physical State:	**Solid**
Appearance:	**White to light tan**
Odor:	**Mild**

Important Health, Safety and Environmental Information:

Flash Point:	No data available
Autoignition Temperature:	No data available
Vapour Pressure (mm Hg):	No data available
Vapor Density (Air=1):	No data available

EPAHO116000082

Evaporation Rate:	No data available
Water Solubility (%)	No data available
pH:	7

Other Information:

Boiling Point or Range (°C)	No data available
Melting Point or Range (°C):	70-72 °C
Specific Gravity (water=1):	No data available
Bulk Density (kg/m^3):	No data available
% Volatile (by weight):	No data available

10. STABILITY AND REACTIVITY

Stability: Stable at normal storage temperatures. Hazardous polymerization will not occur.

Conditions to Avoid: Do not expose to temperatures above 0°C to preserve product quality.

Materials to Avoid: Strong acids. Strong Bases. Strong oxidizing agents.

Hazardous Decomposition Products: Carbon oxides. Nitrogen Oxides (NOx).

11. TOXICOLOGICAL INFORMATION

ACUTE TOXICITY:

Local effects Irritating to eyes and skin. May cause irritation of respiratory tract. Ingestion may cause irritation to mucous membranes. May cause sensitization by inhalation and skin contact. Skin contact may provoke the following symptoms: redness, itching, blistering, rash.

Dermal Sensitization Data for this Product: No data available

Respiratory Sensitization Data for this Product: No data available

LONG TERM TOXICITY: Repeated or prolonged skin contact may cause allergic reactions with susceptible persons.

Ingredient Target Organ/Chronic effects: None Known

Mutagenicity Toxicity: This has not been tested for this product.

Reproductive Toxicity: This has not been tested for this product.

Specific Affects: Not carcinogenic (NTP, IARC, OSHA, ACGIH).

Key: IARC – International Agency for Research on Cancer. OSHA – Occupational Safety and Health Administration (US). ACGIH – American Conference of Governmental Industrial Hygienists. NTP – National Toxicity Program

EPAHO116000083

12. ECOLOGICAL INFORMATION

ECOTOXICITY: No information available.

ENVIRONMENTAL FATE:

Mobility:	No information available.
Biodegradation:	No information available.
Bioaccumulation:	No information available.

PHYSICAL / CHEMICAL:

Hydrolysis:	No information available.
Photolysis:	No information available.

ADDITIONAL INFORMATION: No information available.

13. DISPOSAL CONSIDERATIONS

Waste from Residues / Unused Products:	Dispose of in accordance with local regulations.
Contaminated Packaging:	Empty containers should be taken for local recycling, recovery or waste disposal.
Further Information:	According to the European Waste Catalogue, Waste Codes are not product specific, but application specific. Waste codes should be assigned by the user based on the application for which the product was used.

14. TRANSPORT INFORMATION

ADR/RID: Not regulated.

ICAO/IATA: Not regulated.

IMDG: Not regulated.

US DOT: Not regulated.

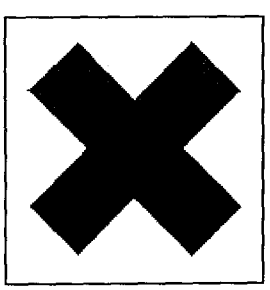
15. REGULATORY INFORMATION

EC LABELING REQUIREMENTS: The product is classified and labeled in accordance with EC directives or respective national laws.

CONTAINS: N-[(S)-1-Etoxycarbonyl-3-phenylpropyl]-L-alanyl N-carboxyanhydride (SCA-NCA) (None)

Indication of Danger:

Xi – Irritant



EPAHO116000084

Risk Phrases:
R41 – Risk of serious damage to eyes.
R42 – May cause sensitization by inhalation.
R43 – May cause sensitization by skin contact.

Safety Phrases:
S24 – Avoid contact with skin.
S25 – Avoid contact with eyes.
S26 – In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
S36 – Wear suitable protective clothing.
S37/39 – Wear suitable gloves and eye/face protection.

EU ELINCS NO.: 430-360-8

16. OTHER INFORMATION

Text of R Phrases Mentioned in Section 3:
Risk Phrases:
R41 – Risk of serious damage to eyes.
R42 – May cause sensitization by inhalation.
R43 – May cause sensitization by skin contact.

Recommended Restrictions: For research use only.

Reason for Revision: Original issue by ZaCh System Corporation.

Prepared By: EHS Group

The information contained in this data sheet is based on present scientific and technical knowledge. The purpose of this information is to draw attention to the health and safety aspects concerning the products supplied by ZaCh System Corporation, and to recommend precautionary measures for the storage and handling of the products. No warranty or guarantee is given in respect of the properties of the products. No liability can be accepted for any failure to observe the precautionary measures described in this data sheet or for any misuse of the products.

The information contained in this Safety Data Sheet is provided in accordance with the requirements of the Chemicals (Hazard Information and Packaging) Regulations. – The provision of the Health and Safety at Work Act and the Control of Substances Hazardous to Health Regulations apply to the use of this product at work.

****End of Safety Data Sheet****

CES SAMPLE EVALUATION FORM

Sample ID #: 0509 - 27 - 28 Date: 5/19/09
CES Sales Representative: Dan Dan
Requested Turnaround/Completion Date: 1-3 days

Customer Name: Crown Cork & Seal Quantity: 1-2 loads month
Generator Name and Location: Conroe, TX Frequency: _____
Hazardous Waste Codes: none
MSDS Attached: _____ Yes X No
Ultimate Objective for Performing Analysis: Waste water / oil recovery

Provide a Detailed Description of the Process Generating the Waste, Material, or Product:
Oily water from making Aluminum Cans

Provide a Detailed Composition to the best of your knowledge:

Component/Approximate Percentage or PPM:

water	50-90 %	TREATS EASILY -	Ni - 0.211
oil	10-50 %		Zn - 0.000
			Cu 0.169
			Cd 0.000
			Cr - 0.000

Internal Analysis to be Performed on Wastewater/Sludge and Oily Water/Sludge:

Wastewater Treatability: X OK Percent Solids: _____ Percent Oil: X 1%
Specific Gravity: _____ Chlor-d-tect(Oil Phase): X — pH: X - 7
Phenols: - 2 Oil and Grease (Water Phase): _____ TOC: X 2460
Distillation Test: _____ Metals: X Flash: _____
GC/MS: _____ Chlor-n-oil(Oil Phase): _____ Centrifuge Test: _____
Other Internal Analysis (List): _____
Off-Site Lab Analysis (List): _____
Note: Must have an approved P.O. for any External Lab Analysis.

Internal Analysis to be Performed on Hydrocarbons or other Organic Chemicals:

Ash: _____ Black Oil Suitability: _____ Viscosity: _____
Specific Gravity: _____ Light End Suitability: _____ Distillation Test: _____
Flash: _____ CES Fuel Suitability: _____ Hydro-scout: _____
Chlor-d-tect: _____ Color: _____ Chlor-n-oil: _____

The Kindt-Collins Company LLC

12651 Elmwood Ave
Cleveland, Ohio 44111

Kinco Brown Sculpture Wax

DATE PREPARED: 3/14/01
LAST REVISION: 3/3/06

1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

MANUFACTURER: Kindt-Collins Company LLC
12651 Elmwood Ave
Cleveland,OH 44111

INFORMATION PHONE: (216) 252-4122
EMERGENCY PHONE: (800) 424-9300
(Chemtrec)

PRODUCT NAME: Kinco Brown Sculpture Wax

PRODUCT NUMBER:

UPC NUMBER:

SYNONYMS:

PREPARED BY Kathy Louney-Bilski

2. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Name	CAS #	Ingredient %	OSHA PEL	ACGIH TLV
WAX BLEND - Microcrystalline wax	63231607	100	2 ppm (mg/m³)	TWA 2 ppm (mg/m

This Product is completely colophony free with no detectable trace elements.

HAZARDOUS IDENTIFICATION

EMERGENCY OVERVIEW:

POTENTIAL HEALTH EFFECTS

EYE CONTACT: Fumes from molten product may cause irritation. Contact with molten product may cause severe thermal burns.

INHALATION: Product dust may cause respiratory tract irritation. Molten wax may cause irritation to the respiratory tract

INGESTION: Low order of acute systematic toxicity

SKIN CONTACT: Contact with molten wax may cause severe thermal burns.

SIGNS AND SYMPTOMS OF EXPOSURE:

4. FIRST AID MEASURES

EYE CONTACT: Ambient wax - flush wax particles with tepid water. Hot wax - seek medical attention

INHALATION: When fume or mist occurs remove to fresh air. If person is not breathing provide oxygen or artificial respiration. Seek medical attention.

INGESTION: Small quantities - permit to pass through system. Large quantities - seek medical attention

SKIN CONTACT: Ambient wax - wash with soap and water. Molten wax - cool wax immediately - do not remove wax from skin. Seek medical attention.

EPAHO116000096

AGGRAVATED MEDICAL CONDITIONS:

SUPPLEMENTAL HEALTH INFORMATION:

5. FIRE FIGHTING MEASURES

FLAMMABLE PROPERTIES

FLASH POINT: >175°C/347°F **FLASH POINT METHOD USED:** COC, ASTM D-92

AUTOIGNITION: Not Determined **LEL:** Not Determined **UEL:** Not Determined

EXTINGUISHING MEDIA:

Use water fog, alcohol-type foam, dry chemical, or CO2. Do not use direct stream of water.

SPECIAL FIRE FIGHTING PROCEDURES:

Firefighters should wear proper protective equipment and self-contained breathing apparatus with full facepiece in positive pressure mode. Move containers from fire area if it can be done without risk. Use water to keep fire-exposed containers cool.

UNUSUAL FIRE AND EXPLOSION HAZARDS:

As with most solid or particulate organic material, extremely high dust concentration in air may result in a potential fire hazard. Good housekeeping practices will prevent any significant accumulations.

COMBUSTION PRODUCTS:

N/A

6. ACCIDENTAL RELEASE MEASURES

STEPS TO BE TAKEN IN CASE MATERIAL IS SPILLED OR RELEASED:

Sweep up material and place in appropriate disposal container. If molten wax-contain spil as much as possible and let molten wax cool. Once solid, place material in appropriate disposal container.

7. HANLDING AND STORAGE

PRECAUTIONS TO BE TAKEN IN HANDLING AND STORAGE:

Follow all MSDS/label precautions even after container is emptied because they may retain product residues.

OTHER PRECAUTIONS:

N/A

8. EXPOSURE CONTROL/PERSONAL PROTECTION

RESPIRATORY PROTECTION:

Normally none required. For mist and fumes ussed approved NIOSH/MSHA organic respirator.

VENTILATION: Provide exhaust ventilation sufficient to keep the airborne concentration of this product below its exposure limits. Exhaust air may need to be cleaned by scrubbers or filters to reduce environmental contamination

PROTECTIVE GLOVES: Ambient wax- cotton gloves /Molten wax- Impervious heat protectivegloves

EYE PROTECTION: Safety glasses with side shields (or goggles) and a face shield.

OTHER PROTECTIVE CLOTHING OR EQUIPMENT: N/A

WORK / HYGENIC PRACTICES:

Use good personal hygiene when handling this product. Wash hands after use, before smoking, or using the restroom facilities.

EPAHO116000097

ENGINEERING CONTROLS: Good ventilation should be sufficient to control airborne levels. Do not let molten product stand unused in melt tanks and injection machines. Stir molten product at all times.

EXPOSURE GUIDELINES:

9. PHYSICAL AND CHEMICAL PROPERTIES

SOLUABILITY IN WATER: Insoluable

APPEARANCE AND ODOR: brown to black solid-little or no odor

BOILING POINT:	660-730° F
VAPOR PRESSURE	NIL
EVAPORATION:	N/A
POUNDS PER GALLON	Not Determined
SPECIFIC GRAVITY:	~.930
MELTING POINT:	161+/-6,°F

FREEZING POINT:	N/A
PERCENT VOLATILE:	N/A
PH:	N/A
MOLECULAR WEIGHT:	N/A
VAPOR DENSITY:	N/A
OTHER PROPERTIES:	

10. STABILITY AND REACTIVITY

STABLE: Stable

INCOMPATIBILITY: Strong oxidizing materials.

HAZARDOUS DECOMPOSITION OR BY PRODUCTS: Carbon dioxide (Carbon monoxide with incomplete combustion)

HAZARDOUS POLYMERIZATION: Will Not Occur

11. TOXICOLOGY INFORMATION

12. ECOLOGICAL INFORMATION

13. DISPOSAL CONSIDERATIONS

Any disposal practice must be in compliance with federal, state, and local regulations. Do not dump into sewers, ground, or any body of water.

14. TRANSPORTATION INFORMATION

DOT CLASS:	Non-Hazardous
HAZARD CLASS:	Non-Hazard
UN NUMBER:	Non-Hazard
PACKING:	Non-Hazard
GUIDE NUMBER:	N/A
PROPER SHIPPING NAME:	Non-Hazardous

EPAHO116000098

15. REGULATORY INFORMATION

EC Classification: No hazardous ingredients as defined by OSHA 29 CFR 1910.1200

SARA Title III

per 40 CFR 372.45(f) toxic chemicals if so listed here in the mixture do not exceed the specified upper bound concentration value listed as Wt%

Section 302 : Extremely Hazardous **(If Section is blank - then it is N/A (not applicable))**

Chemical Name CAS number Wt. %

Section 311-312: Hazardous Catergorization **(If Section is blank - then it is N/A (not applicable))**

Chemical Name CAS number Wt. %

Section 313: Toxic Chemical **(If Section is blank - then it is N/A (not applicable))**

Chemical Name CAS number Wt. %

WHIMIS **(If Section is blank - then it is N/A (not applicable))**

Chemical name CAS number Wt. %

Proposition 65 **(If Section is blank - then it is N/A (not applicable))**

Chemical name CAS number Wt. %

16. OTHER INFORMATON

CES SAMPLE EVALUATION FORM

Sample ID # 1208-22 **Date:** 12/4/08

CES Sales Representative: Joy Baker
Requested Turnaround / Completion Date: 12/4/08

Customer Name: Phoenix Pollution Control
Generator Name and Location: RAW for RWT
Ultimate Objective for Performing Analysis: Waste Water treatability

Provide a Detailed Description of the Process Generating the Waste, Material, or Product:

Provide a detailed Composition to the best of your knowledge:
Component / Approximate Percentage or PPM:

_____ / _____		_____ / _____	
_____ / _____		_____ / _____	
_____ / _____		_____ / _____	
_____ / _____		_____ / _____	

Internal Analysis to be Performed on Wastewater/Sludge and Oily Water/sludge:

Wastewater Treatability X	Percent Solids 1	Percent Oil ____
Specific Gravity ____	Chlor-d-tect (oil phase) ____	pH 6
Phenols 0	Oil and Grease (water phase) ____	TOC 0
Distillation Test ____	Metals ____	Flash ____
GC/MS ____	Chlor-n-oil (oil phase) ____	Centrifuge Test ____

Other Internal Analysis (List) _____
Off-site Lab Analysis (List) _____
Note: Must have an approved P.O. for any external lab analysis

Internal Analysis to be Performed on Hydrocarbons or other Organic Chemicals:

Ash ____	Black Oil Suitability ____	Viscosity ____
Specific Gravity ____	Light End Suitability ____	Distillation Test ____
Flash ____	CES Fuel Suitability ____	Hydro-scout ____
Chlor-d-tect ____	Color ____	Chlor-n-oil ____
Water by Distillation ____	Water Extractability ____	

Other Internal Analysis (List) _____
Off-site Lab Analysis (List) _____
Note: Must have an approved P.O. for any external lab analysis

Internal Analysis to be Performed on Spent Caustic:

Percent Potassium Hydroxide ____	Specific Gravity ____	Sulfides ____
Percent Sodium Hydroxide ____	Chlorides ____	Sodium ____
Percent Solids by Centrifuge ____	Oil by Centrifuge ____	TOC ____

Other Internal Lab Analysis (List) _____
Off-site Lab Analysis (List) _____
Note: Must have an approved P.O. for any external lab analysis

B/L No. 77154

IF OR WHEN THIS INSTRUMENT CONSTITUTES A BILL OF LADING, the Carrier, on shipping date shown below, has received, subject to the classifications and tariffs in effect on such date, the property described below, in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed, as to each carrier of all or any of said property over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions of the Uniform Domestic Straight Bill of Lading set forth (1) in Uniform Freight Classification in effect on the date hereof, if this is a rail or a rail-water shipment, or (2) in the applicable motor carrier classification or tariff if this is a motor shipment.
Shipper hereby certifies that he is familiar with all the terms and conditions of the said bill of lading, including those on the back thereof, set forth in the classification or tariff which governs the transportation of this shipment, and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

X	BILL OF LADING
☐	PRODUCT DELIVERY RECEIPT

(This instrument is not a bill of lading when the property described below is moved in a vehicle (other than that of a common carrier) furnished and/or operated by the shipper or owner of the property, but is merely a receipt for said property on behalf of shipper or owner.)

TOC TESTING (backup)

This is a backup method for testing TOC. **THE HIGHEST TOC THAT CAN BE READ IS 2,000 PPM, SAMPLES REQUIRE DILUTION.**

Use the HACH digester for COD at 150 Degrees F.

Use the HACH 0-15,000 ppm range COD vials.

A calculation spread sheet has been generated. Use the calculation spread sheet for testing samples.

A blank and a 2,000 ppm standard are made from DI water and a TOC standard. **ADD TWO MILLILITERS OF WATER TO A VIAL FOR THE BLANK AND 2 MILLILITERS OF TOC STANDARD FOR THE 2,000 PPM STANDARD.**

FOR EACH SAMPLE TO BE TESTED, ADD 2 MILLILITERS *OF THE DILUTED SAMPLE* TO BE TESTED TO THE COD VIAL.

Turn the heater digester unit on (this will read 150 Deg C when the final required temperature is reached.

Set the absorbance of the spectrometer at a wavelength of 600 nm.

- Turn the Instrument on.
- Press options
- Press wavelength
- Enter in 600
- Press options again, then the instrument is ready.

1. Record the Date, the sample name and the dilution of the sample on the testing log sheet.
2. Prepare the ZERO standard and the 2,000 ppm standard. Add 2 milliliters of water for the zero std. and 2 milliliters of the 2,000 ppm standard for this standard. BE CAREFUL, THE VIALS CONTAIN ACID. When removing the cap from the vial be careful, when replacing the cap make sure the cap is secured back on the vial tight.
3. Prepare the sample (dilution required, add 2 milliliters of the sample to be tested to each vial). BE CAREFUL, THE VIALS CONTAIN ACID. When removing the cap from the vial be careful, when replacing the cap make sure the cap is secured back on the vial tight.
4. Gently agitate the vial contents by gently shaking the vial. BE CAREFUL
5. Place the vial's into the heater block digester. LET THE VIAL WITH THE STANDARDS AND/OR SAMPLES DIGEST FOR AT LEAST 15 MINUTES AT 150 DEG C.
6. After the digestion period if finished remove the vial's and place them in a small beaker and let them cool. When the vials have cooled it is time to read them.
