On a separate note: What is the best approach to reach/respond to Kevin?

Lisa, since you know him best, do you think one of us should call him and say we're addressing this but in fact this is not a definitive statement regarding the Primacy package? Or, would you like to just send him the revised website and say that the edit was implemented in error/the package is still in process?

Thoughts?

-Molly

Molly ran into Giselle and confirmed that she's looking into it. Yes, it is very important to fix this. Thanks for getting on it right away.

I think there was confusion around updating the website for TN primacy. I will talk to Giselle about editing that sentence.

Any of you know how this got added to the website? We might want to fix this.

The information below was brought to my attention and I am hoping to get an answer as to what this mean.

Thank you for your time and assistance. I hope everyone is well.

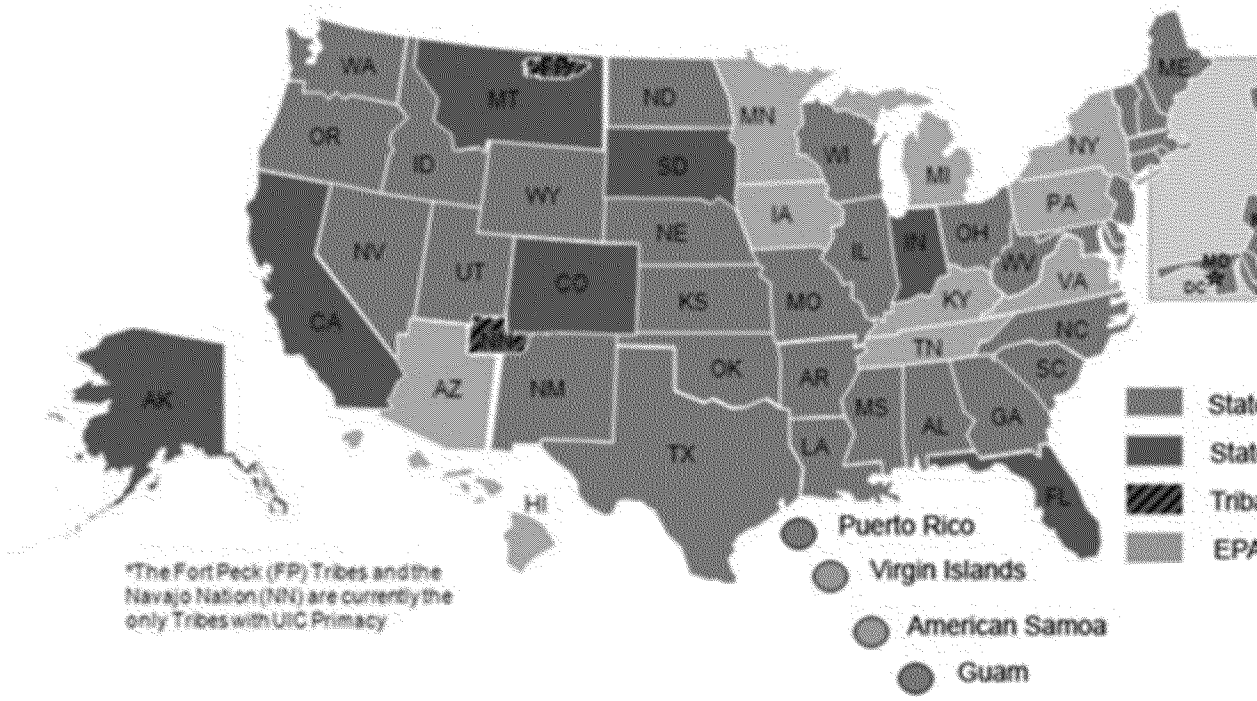
Who currently has primacy?

EPA has approved primacy programs for all well classes I, II, III, IV and V in 34 sta
responsibility with 7 states (i.e., EPA has authority over some classes and the sta
directly implements the Class VI Program nationally, except for the State of Nort



Currently, two tribes have Class II primacy.
