Attachments: Deliberative Process / Ex. 5

Hi Alyssa,

Attached is the revised draft letter; it includes Helena's comments as well. I attempted to clean it up a bit more, so let me know if something needs to be clarified further. Ex. 5 - Deliberative/Attorney-Client Ex. 5 - Deliberative/Attorney-Client Ex. 5 - Deliberative/Attorney-Client Feel free to call if you have questions. Thanks.

Here are my comments. They are minor and thus this can be sent to CRFLO.

Thanks,

Helena

Hi Helena,

Attached is the revised draft dismissal letter for complaint 11R-98-R9. I tried to clean it up a bit more, including the footnotes. Alyssa's comments did not indicate whether she was ok with my new language, so I left much of my revised/new language in red print. After you look at it, it can go back to CRFLO for review again. Ex. 5 - Deliberative/Attorney-Client Ex. 5 - Deliberative/Attorney-Client Thanks.

Thanks Karen.

Regarding the remainder of the report, below are my recommendations moving forward:

Ex. 5 - Deliberative/Attorney-Client

Ex. 5 - Deliberative/Attorney-Client / Ex. 7(e)

Again I am sharing this because I want us to all be working from the same place.

Thanks,

Helena

Balaji,

I have misplaced the Feb 27, 2013 ADEQ comments to CPC re: the AQ modeling protocol. Apologies. Can you resend that, please? (and/or our transition from Lotus Notes to Outlook has me not finding the email - in other words - user (that's me) error).

Thanks,

- Shirley

p.s. I'll forward to Cleve.

HI Shirley,

1. Significant permit revision application for incorporation of CD requirements was received on September 27, 2010. This permit Revision (Permit No. 53230) was issued on January 13, 2011.
2. CalPortland had submitted modeling protocol for K6 significant permit revision application (LTF No. 53088) on October 18, 2012. ADEQ sent comments on modeling protocol on February 27, 2013.
3. Last source test was performed on September 17, 2012.

Thanks

Subject: (ADEQ) CalPortland: Current operations status

Hi Vivek,

I left a quick voice mail mentioning I'd send you this email. I am interested in what the projected status is of the CalPortland units under the Consent Decree, as well as the current permit process.

Background: I have the CD info based on this -
http://www.epa.gov/compliance/resources/cases/civil/caa/calportland.html
Here I have the ECHO info -
http://www.epa-echo.gov/cgi-bin/get1cReport.cgi?tool=echo&IDNumber=04019Z0310
And we have provided comments to ADEQ on the AQ Modeling Protocol.

Here's what I have: I recall Balaji mentioning that, while you all have been in the process for pulling together AQ modeling protocol comments, CPC's application has been in the system for quite some time. So please confirm if the following is correct -

- Application for permit revision with the CD received Sept. 27, 2010 (for Title V Permit No. 47259).
- AQ Modeling Protocol submitted (letter dated Oct. 18, 2012) for Kiln #6, including proposal to retire existing equipment - Kilns 1-3 coal feed systems and Kilns 1-4 (among other revisions and modifications).
- Last source testing in February 2012 (based on ECHO info).

Thanks in advance,

- Shirley
