Hey there - sorry, left last Thursday for a spring break trip and got home last night. So how about a call this week to talk through some of this? I have a very free week, so anytime works for me. I would like to have my engineer Todd Wetzel on the call too, and he telecommutes on Thursday and I am off this Friday, so I guess it would be today or tomorrow if we can get a time to talk. Appreciate your time, thanks!!
Sheila

No, you didn't miss anything! I'm pretty open this week.

Thanks,

Claudia

I am pretty available the rest of today and all day tomorrow for a call. Jody?

Thanks,

Claudia

Hello - hope you survived the blizzard yesterday, how crazy! So I am attaching a draft high level, conceptual bullet list of what we are currently thinking about for our permit by rule approach. I was just wondering what you were thinking of doing with dehydrators? I am still learning about these and my folks here are not sure what to do and wondering if we could maybe get an understanding of the direction you are heading in? Not sure if you are able to or if we can discuss on phone, thanks so much!

Sheila
