Good morning all-

Personal Matters / Ex. 6 but this morning I reviewed the settlement agreement and couldn't find any typos or issues. If no one else finds anything, I can begin the finalization process for Vicki's signature.

Thanks,

Ok.

Please send the scanned version so we can review (typos etc..). If we don't find anything then I will send you a email saying we are good to go and OCR will prepare it for signature.

Ms. Wooden-Aguilar –

I actually accepted the changes, removed the header, printed it out and had the Director sign it so I should be all set on my end. My supervisor had a meeting with the Director earlier today and we figured that we might as well have her sign it.

I can scan it and send you a PDF via email and then send the original via US mail. If you see any issues with the PDF (e.g., typos or formatting issues), let me know and we make the necessary adjustments.

Does that sound like a plan?

Hi Chris-

Wow! Good news.

How about the this:

To take the burden off of IEPA and so you can see a clean version, OCR will take the version we sent you last, accept the edits (clean it up), and send it to you for your signature. Can we send it to you tomorrow COB or is that too late?

Ms. Wooden-Aguilar –

Yes, I did receive word yesterday (my day off) that upper management will accept the latest changes. Do you have a preference for how we execute it (i.e., who signs first, etc.)?

Let us know.

Chris-

We are looking forward to speaking with you and Ken later this afternoon about the updated draft settlement agreement. There has been a slight change to language in commitment (a) on page 2. I also pushed back the deadline for the first compliance report submission. I have attached an updated draft to this email which reflects those changes.

Please let me know if you have any questions. Thank you.

Hi Chris-

Thank you again for your email below. OCR has been working hard trying to prepare for an upcoming meeting with external stakeholders with our Deputy Administrator. The meeting is today so I have slammed with preparations.

OCR also continues to review your latest email message below and intends to reach out to you soon regarding scheduling a call.

Be well.

Brittany –

Thanks for the updated version. I did have a chance to speak with my superior regarding the latest round of proposed changes. The Illinois EPA finds the changes to paragraph A.1.a acceptable and does not object to the addition of "and EJ" in paragraph A.1.a. However, the Illinois EPA is not amendable to the proposed changes to the last sentence of paragraph A.1.b. As I have previously expressed, the Illinois EPA needs some flexibility in determining the appropriate use of resources as public hearings, public availability sessions and public meetings are all very resource intensive.

If you have any questions or need further clarification, please do not hesitate to contact me.
