Maybe I will follow up with Deb Robinson, who sent the information on possible funding out.

Sounds good. He's out this week, but I think he is back on Monday. I can try to grab him as well. It might be useful for the HQ folks to follow up directly with the HQ Center for the Prevention and Resolution of Conflict as well. I know we sent a message to John Goodin about facilitators and funding, but I'm not sure how much the HQ programs are tapped in to the services offered by CPRC.

Thanks Kim
I can send a note to Ted and try to find out what they offer and what is necessary to qualify.

Hi Helen – here is the exchange on the use of EPA's facilitation services and/or funding. I'm not sure if they can provide a facilitator or would simply fund an outside person, which of course would take you right back to Dan's concern. But perhaps we first need to find out what they can offer and if we would qualify.

Good news so far. I also talked to Ted briefly in the hallway. He thought this case sounded like a really good candidate, but we'll have to do a pitch to the HQ office and it will of course depend on the budget.

Thanks, Ted. We'll be briefing Dan Opalski on current status in the coming days. I'll have a
