NEWS

Air Pollution
Ontario Proposes to Ease Review of Ventilation Systems Installation
Ontario is proposing to simplify environmental approvals for the installation of heating, air conditioning and ventilation systems with low emissions of air pollutants and noise....

Chemicals
Canada to Declare Triclosan Toxic, Require Plans to Cut Releases
Canada plans to declare the preservative and antimicrobial chemical triclosan as toxic and require industries using it to manufacture antibacterial soaps, skin cleansers, toothpastes and other consumer products to develop plans to limit...

Climate Change
Massachusetts Accuses Judge of Power Abuse in Exxon Case
A federal judge in Texas was accused by Massachusetts of abusing his discretion to help Exxon Mobil Corp. in a fight over whether the company misled investors about the financial impact of climate change....

Climate Change
New Zealand to Save $31 Billion by Tapping Paris Carbon Markets
New Zealand is seeking to offset its global warming emissions by investing almost $5 billion in green projects overseas, saving six times that figure to meet its Paris climate commitments....

Climate Change
Ontario Considers Forest Incentives as Carbon Offsets
Ontario is considering incentives for new forests on private and government land as carbon offsets to help the province meet its climate change targets....

Coal Mining
China May Waste $490 Billion on Unneeded Coal Plants: Study
China risks wasting $490 billion by building more coal power plants than it needs as slower power demand growth and less polluting energy sources squeeze coal generation out of the power mix, according to a study from an environmental think...

Coal Mining
Interior Official to Trump: Go See Devastation in Coal Country
President-elect Donald Trump should go witness first-hand the effects of coal mining in Appalachia before embarking on his plans to ramp up coal production and scrub environmental regulations, a high-ranking Interior Department official...

Drinking Water
Flint Pushes for Drinking Water Aid in Lame-Duck Session
Advocates of aid for Flint, Mich., are putting renewed pressure on Congress to pass a federal funding package in the current lame-duck session....

Hazmat Transport
Canada to Adopt Global Hazmat Standards, Align With U.S.
Canada is proposing updating its rules transporting dangerous goods to bring them in line with international standards and better align them with U.S. requirements....

Hydraulic Fracturing
Shale Fracking Rebound Starts With Costlier Grains of Sand
The oil field service companies that supply everything from sand to sophisticated robot rigs are seeking a new lease on life as America's fracking fortunes begin to turn....

Oil & Gas
Federal Easement Could Ease N.D. Pipeline Standoff, Governor Says
Demonstrators protesting the Dakota Access Pipeline near Cannon Ball, N.D., awoke to newly fallen snow early Nov. 28, more than a week after North Dakota's governor called on the federal government to end the standoff. ...

Ozone Depletion
Canada to Phase Out Bulk HFC Use, Differing From U.S. Plan
Canada is taking a different path than the U.S. for eliminating hydrofluorocarbons, a potent greenhouse gas, by planning to phase out bulk uses. ...

Recycling
Quebec Funds Project to Recycle Refrigerators, Reduce Emissions
Quebec will use C$5 million ($3.7 million) from funds generated by the province's cap-and-trade program for greenhouse gas emissions to help finance a new private-sector project to recycle refrigerators. ...

Water Pollution
Canadian Mine License Raises Concerns for Alaskan Waters
The issuance of a Canadian water license for a mine whose output could harm Alaskan waters was done without state consultation with a stakeholder working group, Guy Archibald of the Southeast Alaska Conservation Council (SEACC) told Bloomberg...

Water Pollution
China's Hebei Province Lags in Industrial Water Pollution Control
Industrial areas outside of Beijing remain a primary source of water pollution in the capital region, China said in a new report....

Water Pollution

Supreme Court Seeking DOJ's Input on Gold King Mine Suit

The Supreme Court is seeking the federal government's view of New Mexico's suit against Colorado in connection with the August 2015 release of 3 million gallons of mining waste and sediment into the Animas River watershed New...
