Epp	United States Navy	02/23/2017	Closed	I am requesting the results of the Naval Education and Training Command (NETC) Inspector General Hotline submission 20160052 I submitted on February 20, 2016. The case was reviewed and determined that the issues in this case are more appropriate for resolution as a command matter, it was referred to NETC N7. An inspection / investigation was conducted during the week of October 24th 2016. DON-NAVY-2017-005517	(b) (6) [redacted]	none	03/28/2017	Closed	all records about myself I am making a records request for all information (Documents, photos, emails, texts, videos, data and other records including other requests) associated with: 1) Myself (b) (6) [redacted]) SS: (b)(6) I am not aware of any direct investigations or issues. However, there may be peripheral cases or files where there is. There are multiple matters. Some are related to severe violations of personal privacy and human dignity to facilitate the exploitation of commercial projects. I have been informed of government investigations from groups from the NSA however this from within the constraints where there is blocks, censorship and a net over my communications which are being monitored, suppressed and controlled by those involved exploiting. The name of the operation communicated to me was Operation Tambal. I have not heard back from the NSA confirming or denying anything. While the validity of the NSA operation probably valid, it appeared to be another fabricated email. Other branches of the government have become involved and I very much believe this is the case with a number of branches from the military or research oriented groups like the Minerva Initiative who was conducting research on social contagions on sites such as facebook. While the commercial projects related to the anti nuclear movement from the 70s and 80s. There has been exploitation of other things as well. Ultimately, begetting legal conflicts and entanglements. There has been use of my accounts to facilitate various ediscovery mechanisms and I believe some interesting advances in terms of machine learning etc (back to minerva). I do not know the specifics so cannot cite a specific case or investigation. But in including my name if matters are not accessible via that way, perhaps a discovery of your system should turn that up. I would like these records in digital format please. Thank you for your help.

DON-NAVY-2017-002306	(b) (6) [redacted]		01/04/2017	Closed	I was an honorably discharged sailor who's last duty station was NavTelSysic Cheltenham Maryland. A roommate at the base was charged with a crime of stealing money from me along with other altercations with the law which I cooperated with and helped with an ongoing investigation. I requested information after the case was tried and was told that he was found guilty. The bank returned funds from forged checks and was told by NIS that he went to Leavenworth due to not only the crime against me but other matters including drug sales. He worked as a radioman RM2 at the Pentagon during the beginning of the first Gulf War and continued for a year or so til he was arrested. I lived with him after the crime as requested by NIS and cooperated with any information requested by NIS. Thank you for any assistance. I cannot remember his name as it was a harrowing time of duty.

Sec'y of the Navy (M&RA) (ASN) Amended Order (attached) in my case dated 21 December 2016. To the extent that the order acts on a BCNR recommendation I also request the aforementioned materials independently under 10 U.S.C. 1556. Finally, I ask that Code 13 pursuant to statute and regulation refer this request to any other entity of the Department of the Navy that is likely to have responsive records, e.g., the office of the ASN. Additionally, I request copies of any documents or other materials relating to implementation within the DON or DOD of the relief granted by ASN Parker on 21 Dec 2016 and as detailed by the attached letter. My intention in this part of the request under the FOIA and PA is not to seek access to materials that are predecisional or deliberative but to track the progress inside the executive branch with implementation of this ASN decision. I would be glad to be in touch with a FOIA POC to further explain and/or narrow the request. Naturally with this request I ask that all responsive documents be provided from any and all entities within the DON or DOD that has responsive material (rather than just Code 13 or OJAG), and I also request periodic or interim releases of responsive material as it is generated, rather than waiting until everything is available - between the date of the request and the forwarding of a nomination package via OSD to the White House and the Senate.

DON-NAVY-2017-002364	Robert Powell	N/A	01/03/2017	Research Records	This is a request under the Freedom of Information Request for which I am willing to pay up to $50, otherwise contact me if the cost is greater. I am requesting all communications, log books, radar data, FLIR video, and and all other recorded information regarding the events surrounding any Anomalous Aerial Vehicles, Unidentified Airborne Contacts, or other terminology used to describe unknown aircraft, on the date of Nov. 14, 2004. The information to be queried would be related to the E-2C Hawkeye VAW-117, and the F-18 squadron VFA-41. To help in your search, I can provide you the following information: Approximately 80 miles southwest of San Diego on 11-14-2004, an unknown aircraft was detected on radar by the USS Princeton. Aircraft from the USS Nimitz (the VFA-41) were vectored to the area of contact. Radar contact was made by the Princeton and the VFA-41. The object observed by the F-18s from the VFA-41 was a white oval shape with no obvious means of propulsion. A FLIR video was taken of the object. I am confident the information exists and am asking for official copies to be provided me through the FOIA system. Any information that provides sensitive information on the operation of radar systems may be redacted but I am requesting copies of the radar data either in photographic or digital form as well as videos and all other information related to this event as previously described. If there is any other information that you need please let me know. I may be contacted by email or at my home address: Robert Powell (b) (6) [redacted] I appreciate your help. Thanks, Robert Powell

DON-NAVY-2017-002422	(b) (6)	USMCR (Ret.)	01/07/2017	Closed	As indicated in the IG Navy letter of 9 December 2016, IG Navy has indicated it has a case file for the murder attempt on 21 August 1985 that I barely survived. In accordance with 5 USC 552(a), the Freedom of Information Act, I request the following documents from IG Navy; a copy of its case file, the name of any appointed investigating officer to conduct in an inquiry into this murder attempt, and any and all evidence collected. I content, same letter is patently false; there has been no inquiry into this murder by IGMC or IG Navy due to the determined and criminal interference by (b) (6) . This is an additional crime; see 18 USC 3. I have attached the supporting documents to this email. (b) (6) also interfered with the investigation into the murder of (b) (6) (b) (6) at MCRD Parris Island in 2005, and that is why we now have a rash of murders at MCRD Parris Island.

DON-NAVY-2017-002531	(b) (6)		01/10/2017	Closed	This maybe odd but I am requesting any information you have on myself, (b) (6) SS# (b)(6). I tried enlisting a few times and was raised hunting, h king, camping, and in Royal Rangers. I just have this reoccurring set of memories that are shortly triggered by random stuff like 1-2 times a month that briefly have me believe that I did actually serve. Though, I have no memories with the same feelings that I would associate with real memories it gets me a little confused. And, based on how my life has been, and is, it also makes sense that I did serve and or I am crazy in thinking I am yet not really knowing for sure sometimes. I am talking to a therapist but I would like a defiant response. I did take the tests and stuff at a armed service recruitment office, have been to a navy office, and marine. And, if I actually was I really do need help if you can send me links to resources. Homeless, no money, and all the works.

DON-NAVY-2017-002639	John F. Carroll	Willow Valley Farms, LLC	01/15/2017	Closed	To whom it may concern: My name is John F. Carroll. My partner and I live in Nebraska. We live along the Elkhorn River and are the caretakers of approximately 200 San Clemente Island Goats. Our goats are a few generations away from the goats that were removed from San Clemente Island in the 80s and early 90s. The San Clemente Island Goat Association was started in approximately 2005 to preserve the remaining goats and their unique genetics. There are now approximately 700 or so SCI goats left in the world. The woman that started the foundation, our friend (b)(6), is in the end stage of fighting ovarian cancer. We are in the process of taking over stewardship of the association. It is our understanding that the Navy was an integral part in saving the goats from extermination. It is our hope that the Navy may have archival information and photographs pertaining to the goats. It is our understanding that the goats predated the takeover over of the island by the Navy. We are seeking any available information, documents, photographs, film etc… of the goats while they were on the island through their removal and transport to the mainland. One of our main goals is to identify the variety of colors/patterns that the goats possessed on the island before removal. We would appreciate any assistance in helping us gather up this valuable information. It is our hope to build an online museum to help educate people on the incredible history of this amazing breed of goat. We would appreciate any assistance or guidance in obtaining available San Clemente Island goat materials the Navy may have archived or stored. Please let us know who we need to contact to investigate whether any SCI goat materials exist or are available. Thank you!

DON-NAVY-2017-002715	(b) (6)		01/18/2017	Closed	I enlisted in the Navy back in March 2004. I was interviewed by an agent while attending Hospital Corps "A" School in Great Lakes, IL. In 2006, while assigned to 1st Medical Battalion, Camp Pendleton, I was informed by my OIC that my security clearance was denied. I was never informed the reason why my clearance was denied nor given the opportunity to correct it. Every security manager at every duty station I was assigned to has tried to request information as to why it was denied. No concrete information was ever received. I was advised by the security manager at my last command (Naval Hospital Camp Pendleton) to resubmit a new application since it had already been 10 years. I submitted a new application for security clearance. An investigation was opened in Apr 2015. I was interviewed by an OPM agent in Sept 2015 and I disclosed all information to her. It was then closed in Oct 2015. It has been pending adjudication since then. Requesting detailed information and/or status of recent security clearance application. Thank you in advance!

DON-NAVY-2017-002730	(b) (6) [redacted]	Willow Valley Farms, LLC	01/15/2017	Closed	To whom it may concern: My name is (b) (6) [redacted]. My partner and I live in Nebraska. We live along the Elkhorn River and are the caretakers of approximately 200 San Clemente Island Goats. Our goats are a few generations away from the goats that were removed from San Clemente Island in the 80s and early 90s. The San Clemente Island Goat Association was started in approximately 2005 to preserve the remaining goats and their unique genetics. There are now approximately 700 or so SCI goats left in the world. The woman that started the foundation, our friend (b) (6) [redacted], is in the end stage of fighting ovarian cancer. We are in the process of taking over stewardship of the association. It is our understanding that the Navy was an integral part in saving the goats from extermination. It is our hope that the Navy may have archival information and photographs pertaining to the goats. It is our understanding that the goats predated the takeover over of the island by the Navy. We are seeking any available information, documents, photographs, film etc… of the goats while they were on the island through their removal and transport to the mainland. One of our main goals is to identify the variety of colors/patterns that the goats possessed on the island before removal. We would appreciate any assistance in helping us gather up this valuable information. It is our hope to build an online museum to help educate people on the incredible history of this amazing breed of goat. We would appreciate any assistance or guidance in obtaining available San Clemente Island goat materials the Navy may have archived or stored. Please either send us the information or information on how to obtain the above information. If none exist, please let us know who we need to contact to investigate whether any SCI goat materials exist or are available. Thank you!

DON-NAVY-2017-003428	michael S. Dennis	Texas Tech University	02/10/2017	Evaluation of Records	Authors: M.a. Henderson and D.W. Knutson Sr. Indian Head Technical Report 328: Joint Final Report of the Operational Test Firings of the 8-Inch Gunfighter Long Range Bombardment Ammunition. Place of origin: Naval Ordnance Station, Indian Head, MD. I know there is a copy in the technical l brary at Indian Head because I spoke to an author who had used their copy. It seemed like a PAO request really, but the library got back to me and represented the Navy's FOIA office as the installations PAO office. If feasible I would also like to acquire a general index of this series of technical reports. (a list of the names of the reports, barring those whose disclosure is prohibited.) The naval gun stuff, at least based on what I have pulled from the public DTIC system indicates that all the documents relevant to my work should be declassified by now, based on a declassification standard of downgrading a step at 3 year intervals with declassification occurring after 12. This will aid in future research should I pursue the topic in a dissertation.

This should include any recommendations and any endorsements from the relevant oversight authorities, and any photos, recording or video exhibits attached to the investigation. As a representative of the news media, I am only required to pay for the direct cost of duplication after the first 100 pages. Through this request, I am gathering information to explain the causes of CPO Owens' death and the Osprey hard landing. This information is sought on behalf of Military.com for dissemination to the general public. Release of the information is in the public interest because it concerns a high-profile raid covered heavily by news media that resulted in the loss of a service member and aircraft. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I reserve the right to appeal your decision to withhold information or deny a waiver of fees. As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone, rather than by mail, if you have questions regarding this request. I look forward to your reply within 20 business days, as the statute requires. Thank you, Hope (b) (6) [redacted]

(b)(6) has clearly stated his position within the CIA and offered assistance in my professional aspirations to work for the Central Intelligence Agency. It has come to my attention that many of the details of his previous military experience and job experience have been falsified. (b)(6) is currently involved in a relationship with my (b)(6) which further complicates the issue at hand. I believe this individual has used his exaggerated military experience and background for individual gain and recognition while impersonating a federal government employee/agent. A family member has spoken with (b)(6) BUD/S 131, SEAL Team ONE, SEAL Team TWO who has verified that anyone named (b)(6) was not listed in the SEAL Database and has never completed SEAL training. DON-NAVY-2017-003682	Peter Greengrass		02/17/2017	Closed	I'm hoping you can help me track down a Aircraft Accident Report for a McDonnell F-4B Phantom II Bureau Number 151495. This was assigned to VF-41 and i believe suffered a class B or C mishap on (or near to) 9th January 1974. If the date is correct it would have probably occurred aboard USS Franklin D Roosevelt during operations in the Western Mediterranean. This mishap eventually resulted in it being stricken (1S0 - Category 1 Damage) on 30th June 1976 (it was awaiting a decision to strike from 16th January 1974) at NARF North Island. I have also seen a reference to this aircraft actually crashing on a flight test at North Island on 30th June 1976 following rework (presumably following the above mishap) Having looked at the Aircraft History Card for this aircraft I believe this is probably incorrect but can't rule it out, so if a report for circa. late 1973-early 1974 can not be located, a search in the June 76 area would be appreciated. A summary of the report will suffice that contains a full description of the mishap, total flight hours since acceptance, photos (if applicable) and if possible, the names of the flight crew and the maintenance officers statement. Thanks You Peter Greengrass.

DON-NAVY-2017-003990	Sara E. Appel	Midwestern Higher Education Compact	02/28/2017	Assignment Determination	We would like to regain/gain access to the Military Guide FTP Stakeholder Site for at least three public postsecondary institutions in the Multi-State Collaborative on M litary Credit (MCMC) member states in order to help them build a transfer site similar to Minnesota State's Veterans Education Transfer System (VETS) and to update Minnesota State's VETS (https://www.mnscu.edu/military/transfer.html). Access to this valuable data was terminated in 2012 and even though Minnesota State (formerly Minnesota State Colleges and Universities) made a request to regain access there was never any correspondence back. This data can help MCMC member public postsecondary institutions increase education completion rates by creating models for the consistent, transparent, and effective awarding of credit for military training and experience that can be scaled regionally and nationally, thereby lowering the cost of education and reducing the time to completion. Attached are letters of correspondence, samples XML data fields for courses and occupations and information on MCMC.

DON-NAVY-2017-004085	Andrew Skow		03/03/2017	Assignment Determination	The purpose of this letter is request copies of all unclassified material relating to the conversion of a single-seat F-5E into a dual-seat F-5F. It is my understanding the conversion process involved removing the single-seat forward fuselage from a Swiss F-5E and replacing it with a dual-seat forward fuselage from a Navy F-5F. It is my further understanding that the Navy performed this conversion on three aircraft and that the project was (unofficially) named "Franken Tiger". The material that I am requesting would (possibly) be in the form of a Time Compliance Technical Order (TCTO) or a Commercial Service Bulletin (CSB). The material would describe the step-by-step instructions necessary to perform the conversion. The material may include drawings. The material may also include estimates of man-hours required to perform the tasks. My company is willing to pay the costs of reproduction and shipping of the requested material. Also one of his two TAD/TDY in his sanitized DD214 and Naval Personnel File there are two TAD/TDYs and one of the two which is on the USS Coronado when he was apart of but not limited to the 1st Marine Division, 8th Battalion when he did a CARIB Cruise from May 1972-June 1972 . I think that he may have been with the USS Coronado much earlier from March 1st 1971-May 15th 1972. Especially since there was a time that Military Sealift Command was in charge of the USS Coronado coincides with the time he served on the USS Coronado. i think (b) (6) [redacted] should have received an Armed Forces Expeditionary Medal [foreign location redacted] for his time on the USS Coronado. Lastly i am confused about his service when he served 4/69-2/73 but then after leaving the navy for 7 months he returned to the HQ Navy Reserved and signed up again in 9/73 and he never got out of the HQ Navy Reserves.

DON-NAVY-2017-004242	Lisa Winningham		03/08/2017	Closed	Please be advised that the purpose of this FOIA request is to obtain the NCIS investigative file related to that certain incident occurring on or about July 4 -5 of 2016, during which (b)(6) (b)(6) stabbed (b)(6) at the (b) (6) located a (b) (6) . This is request is being made by a law firm retained to represent the interests of the owner of the (b) (6) which is being targeted by (b)(6) as a l kely defendant in a threatened personal injury lawsuit seeking the award of significant monetary damages. As (b)(6) was an activity duty member of the United States Navy at the time of the incident, the NCIS investigated the attack which is the subject of the anticipated and threatened lawsuit. It is believed that the NCIS file contains information related to the stabbing incident including but not limited to the identity of certain witnesses, a timeline of critical events, witness statements, interviews, and other related information which are essential to our client's ability to fully evaluate Mr. (b) (6) claims, and may ultimately lead to the discovery of exculpatory evidence. Therefore, the disclosure of the information contained within the NCIS file is vitally important to our client's ability to investigate and defend the claims raised against it. A refusal to provide the requested documents would result in significant prejudice to the rights of the (b) (6) to investigate and defend itself and thus, there is a clear, compelling and overriding public interest in the disclosure of the requested information. These public interests far outweigh any personal privacy concerns of (b)(6), who, upon information and belief, has admitted to assaulting (b)(6) and who will most certainly be compelled to provide testimony during the anticipated civil litigation initiated by the stabbing victim, (b)(6).

DON-NAVY-2017-004359	(b) (6) [redacted]		03/10/2017	Closed	Reference: David Gecewicz v. Ray Mabus, Secretary, U.S. Department of the Navy EEOC No: 570-2016-00312X Agency No: 15-39721-01706 I request all non-classified emails referencing my name in whole or part between the following individuals from (b) (6) [redacted] (b) (6) [redacted] of NACC (b) (6) [redacted] . I request all non-classified email traffic between these individuals specifically between the dates of February 10th to Present, 09 March 2017. These emails were requested in the past as part of a previous FOIA request and were subject to redaction. Unredacted emails were provided as part of discovery during the above case. Particular gaps existed within the emails provided as part of discovery. The existence of the gaps was attributed to the parties involved stating that they did not keep their emails as they were not instructed to retain them under a Litigation Hold. SPAWAR failed to initiate a litigation hold in violation of DOD record retention policy. It is therefore incumbent upon the Navy FOIA office, specifically SPAWAR Command, to perform a search upon servers and storage devices utilized by the email accounts of the prior named individuals. Through this method the deleted or missing communications between the said parties can be gained and provided. Intentionally withholding requested communications which were requested during Discovery and authorized by a Federal Judge is criminal in nature. I also seek emails between myself and (b) (6) [redacted] , myself and (b) (6) [redacted] (b) (6) [redacted] and (b) (6) [redacted] , and (b) (6) [redacted] including emails between (b) (6) [redacted] at NACC and (b) (6) [redacted] . I thank you in advance for your cooperation and adherence to the rule of law. Please also provide a copy of any request for Discovery the Navy and or SPAWAR FOIA office received in regard to the above styled case. If one was not received please certify to that affect.

Also, if a passenger/troop list exists for this voyage , I request a copy of the page that contains his name from this list. DON-NAVY-2017-004854	(b) (6) [redacted]		03/28/2017	Closed	I am looking for my grandfather's service records. His name is (b)(6), we believe he enlisted in 1956 and served until around 1962 during the Vietnam War. We know he was stationed in Pearl Harbor around 1956. He recently was deceased, and my family realized we have very little information of his life during that time. If we could get information as to where he was stationed, his rank, his job title, and ships and tours he served in that would be very helpful to us. Thank you.

DON-NAVY-2017-004944	Matthew Harvey		03/30/2017	Assignment Determination	Hello Sir/Ma am, I am a UK Royal Air Force Officer looking into the total loss of one of our Griffin (Bell 412) helicopters last year. We are a team of 3, supported by the Defence Accident Investigation Branch, and would like to understand further the main gearbox structure, usage and fatigue considerations of the Bell 212/412. We have been in correspondence with Bell Helicopter Textron, however based on the early development of the Bell 212 with the US military it has been suggested that there may be records kept by yourselves. These may include fatigue studies or similar. Can you tell me if any such records exist at NAVAIR please, and if so whether we would be able to obtain copies? Please can you forward this request to the most appropriate person? Please don't hesitate to contact me if you need any further details. DON-NAVY-2017-005211	alberta r. jones		04/08/2017	Assignment Determination	I am respectfully requesting a copy of the complete investigation of the P3 Orion that crashed in Pago Pago in 1980 The patrol squadron was VP 50. The exact date was 17 April 1980: A squadron P-3C, BuNo. 158213, SG-03, crashed on Pago Pago. After dropping six paratroopers as part of a Samoan Flag Day celebration, the pilot purposely flew the aircraft underneath the well-briefed tramway cable despite being directly told the P-3 was not to be part of the air-show. The cable was too hard to see, the flight path was misjudged at speed, and the aircraft vertical tail was sheared completely off the aircraft before it banked and crashed as it rolled and dove into the parking lot of the Rainmaker Hotel. Six crewmen were killed in the mishap as well as one civilian on the ground at the hotel. It is a fact well documented in the accident report that the PIC (b) (6) boasted of what he was going to do the night before the air-show for a hot-dogging display, and the crash was blamed on pilot error. The CO was subsequently relieved of his command after the results of the accident investigation. These crew members lost their lives: LT(b)(6), LT(b)(6), AW1 (b)(6), AMS1 (b)(6), AD1 (b)(6) and AT2 (b)(6).

DON-NAVY-2017-005232	Alexander MacKay		04/10/2017	Closed	Dear Naval Facilities Engineering Command, I am an academic researcher from Harvard University. I am writing to request information under the Freedom of Information Act. In particular, I would like data and documents related to the Navy's janitorial services contracts. I am interested in the following 4 documents for each contract: (Note that #2 and #3 are likely included as a part of #1). 1. The finalized contract (that which was signed with the vendor) 2. The contract specifications and the scope of the contract. This is variously known as Statement of Work, Performance Work Statement, Solicitation, etc. 3. The pricing schedule 4. Vendor responses the RFP/RFQ, including a summary of responses when ava lable. To make the request easier to fulfill, I am open to receiving data in a database/table/flat-file format, if it exists, in place of the individual contract documents. I am attaching an .csv document with a list of contracts that I am interested in. Along with information about the date the contracts are signed and vendor information, the contract IDs are provided in columns M, N, and O (for solicitation IDs and PIIDs). I have obtained this information from the Federal Procurement Data System (FPDS). All variables included in the document are from the FPDS, with the exception of request_id, which indexes the contract I am seeking. I understand that this is a large quantity of contracts. If some subset of the contracts are more centralized (and easier to find in batch), please let me know. For my academic analysis, I am willing to reduce the scope of my request for a realistic and less burdensome response time. Please email or call me to discuss the scope of this request. Looking forward to you response, Alex

Additionally, I request a copy of all releasable documents associated with any discipline or punishment against Special Warfare Operation 1st Class (b) (6) [redacted], who was removed from training other SEAL candidates as the death of Lovelace is investigated. I also request a copy of all videos associated with these investigations, some of which have been alluded in open-source reporting about the investigations. As a representative of the news media, I am only required to pay for the direct cost of duplication after the first 100 pages. Through this request, I am gathering information about the training of Navy SEALs and a potentially preventable death in a training environment. Release of the information is in the public interest because there is significant interest in SEAL training and because there is the expectation among the American people that no one should die in a training environment. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. All segregable portions of the documents should be redacted and released. I reserve the right to appeal your decision to withhold information or deny a waiver of fees. As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone or email, rather than by post mail, if you have questions regarding this request. I look forward to your reply within 20 business days, as the statute requires. Thank you for your assistance.

DON-NAVY-2017-005322	Alberta R. Jones		04/12/2017	Closed	I am respectfully requesting a copy of the complete investigation of the P3 Orion that crashed in Pago Pago in 1980 The patrol squadron was VP 50. The exact date was 17 April 1980: A squadron P-3C, BuNo. 158213, SG-03, crashed on Pago Pago. After dropping six paratroopers as part of a Samoan Flag Day celebration, the pilot purposely flew the aircraft underneath the well-briefed tramway cable despite being directly told the P-3 was not to be part of the air-show. The cable was too hard to see, the flight path was misjudged at speed, and the aircraft vertical tail was sheared completely off the aircraft before it banked and crashed as it rolled and dove into the parking lot of the Rainmaker Hotel. Six crewmen were killed in the mishap as well as one civilian on the ground at the hotel. It is a fact well documented in the accident report that the PIC (b) (6) boasted of what he was going to do the night before the air-show for a hotdogging display, and the crash was blamed on pilot error. The CO was subsequently relieved of his command after the results of the accident investigation. These crew members lost their lives: LT (b)(6), LT(b)(6), AW1(b)(6), AMS1 (b)(6), AD1 (b)(6) and AT2 (b)(6).

DON-NAVY-2017-005366	(b) (6) [redacted]		04/13/2017	Closed	In August, 1991 I was an enlisted Navy student and assigned TDY for training at Lowery ABF, CO. On or about Saturday, 28 Sep 1991, I attended a private party on or near Lowery AFB, CO and, at approximately 0200, was physically assaulted by an Active Duty Marine (name unknown). As a result of the assault, I received a concussion and was transported by POV to an ER, where I was examined for a head injury, and received stitches in my left eye. I was treated, released, and returned to my barracks that night. I do not recall a lot of the history surrounding this event. I do not know whether the assailant was arrested that night or not, but I do know that a Court Martial was convened at the 29 Palms Marine Corps base, approximately seven-eight months after the assault, because I testified at the Court Martial. My assailant was convicted and sentenced to six months hard labor. All of my government medical records have been lost. I am now attempting to file another disability claim with the Veteran's Administration for ongoing medical problems resulting from this assault. To support my claim, I am requesting a copy of the "Reporter result of trial" from the Court Martial. Please contact me if additional information is required. I have limited access to telephones and the Internet, so you are also authorized to discuss this request and/or release information to my VA Psychologist.(b) (6) [redacted], Ph.D., Lt Col, USAF (ret.). DON-NAVY-2017-005440	David Magee		04/17/2017	Assignment Determination	I am a former Marine sergeant that worked in avionics on the UH-1 helicopter platforms during my time in the service. I am doing a masters of systems engineering program with Steven University and I am hoping to obtain some information for a capstone project. My paper is on the maintainability of the transmissions and starters for the UH-1 Yankee and Zulu platforms as compared to the November and Whisky platforms. I am requesting the failure rates per flight hours of the legacy and upgrade platforms as well as the causes. I do not want any squadron or tail number data as I assume that would be restricted. I realize this information may be getting into the realm of operational availability which could be a problem so please let me know if there are generalized or redacted versions of info that I could have since this is only for school. I am also requesting a waiver of fees since I am a student and low on funds. Thank you for your time and consideration. Address (b) (6)

DON-NAVY-2017-005655	(b) (6) [redacted]	US Department of Veterans Affairs	04/24/2017	Closed	Short Description : I am requesting the investigation(s) completed by the USMC following the death of my brother, 1LT (b) (6) [redacted] 176th Engineer Company; 682 Engineer Battalion, Al Asad Air Base, Iraq APO AE 09333 (AAIQ). His death occurred at approximately 1730 on May 6, 2016. He was found in the Engineers room at the Forward Logistic Element Building on Camp Havoc. This was a marine-controlled facility and the marines in the S-4 (Task Force Al Asad; 1st Marine Expeditionary Force) may have completed an investigation surrounding the events of his death. Additionally, my brother was accused of taking gym equipment from the Iraqi-controlled area of the base, and the marines l kely conducted an investigation of this incident as well. Please advise how I may obtain these reports and how I may find out if there were other investigations conducted by the USMC in relation to my brother's death and 'theft' of the abandoned gym equipment during a scavenging mission for building supplies.
DON-NAVY-2017-005658	Eric D. Water	The Boeing Company	04/24/2017	Closed	I'm working on a project to compile publicly available cost/price data on military jet engines. I'm specifically interested in cost/price data available on the F404-GE-102 and F404-GE-402 engines and the engine modules (afterburner, compressor, fan, high pressure turbine, low pressure turbine and combustor). Through a Google search, I was able to find the attached document which appears to show the 2017 Engine Cost Data for Aviation Mishap Reporting. Are you able to confirm that the prices shown are indeed the price the Navy pays for these items? Any insight that you can provide would be greatly appreciated. Please let me know if you have any questions related to my request.

DON-NAVY-2017-005702	(b) (6)		04/24/2017	Closed	In response to a JCS request, Secretary Robert S. McNamara changed the Unified Command Plan's wording so that CINCLANT no longer bore responsibility for "routine" matters in sub-Saharan Africa but was, instead, respons ble for contingency planning and for commanding any JCS-directed operations. In July 1961 Secretary McNamara apportioned sub-Saharan responsibilities as follows: Military Assistance Program (MAP) to USCINCEUR and the Secretary of the Army, Congo air evacuation to USCINCEUR, and the Congo sea evacuation to CINCLANT.51. DON-NAVY-2017-005722	Miguel Lampon		04/25/2017	Closed	Under the Freedom of Information Act, I am requesting a copy of any unclassified Naval message written by Rear Admiral Wright to the U.S. Naval Fleet regarding Operation Fiery Vigil (the evacuation of U.S. Forces from the Subic Bay area of the Philippines after the eruption of Mt. Pinatubo on June 9, 1991). Rear Admiral Wright's message was dated on or about 15 June 1991 and the designation (COMCARGRU THREE 231010Z Jun 91). I have not personally seen the message since 1991, when I was a US Marine NCO stationed at the MCAS Futenma. If this is the message I am remembering - it names me specifically for my role in the alerting Marine units at Marine Air Logistics Squadron 36 (Okinawa) to the events that led to the evacuation of Marine Air Units at Subic Bay. It is possible that this message number is not the one of which I was referenced in. However, in the search for that specific message it should begin here. I received the message number from documents obtained in a previous FOIA request from Marine Corps HQ Quantico (DON-USMC-2016-007026) (June 2016). Should privacy requirements entail the need to black out personal information, feel free to do so. However, if I am listed in the message, I request that my name not be redacted.

DON-NAVY-2017-005870	Wendy Halloran	12 News	04/28/2017	Closed	I am requesting the Navy's investigative records on former Commander Dr. (b)(6). He served as a Navy Medical Examiner/Medical Officer. According to records I obtained from Virginia's medical board, in 2011 (b) (6) was a Navy Medical Examiner working at the Portsmouth Naval Medical Center and was on active duty at the time he took a deceased Marine Corp sergeants brain home with him to Virginia Beach for his children to handle while his wife took photographs. (b)(6) had gone to Camp Lejeune, North Carolina to retrieve the brain from the naval hospital and was supposed to transport it to the Portsmouth Naval Medical Center. Dr. (b)(6) wrote that his hospital privileges were suspended at Naval Medical Center Portsmouth during an investigation in 2012 and that the Surgeon General of the Navy ultimately decided he should retain his privileges but he left the Navy before reinstatement. An attached document shows he received a written reprimand for failing to obtain permission to engage in off-duty employment, for dereliction of duty by failing to maintain control of evidence in an ongoing death investigation and for false official statements about his off-duty employment. A peer review panel resulted in adverse action against his privileges. But the final outcome is unclear. That is why I need all of the records. In this FOIA request I would like all records allowed. I would l ke all photographs as well and any audio/video recordings you may have. I also requested (b) (6) official Navy photo from LT (b)(6) but she indicated it has his social security number on it and I would have to file a FOIA request. I asked if it could be expedited and she said something to the effect that it might be possible but the FOIA request must be filed first. Can you please coordinate with her so I can get his official Navy photo before next Wednesday. Thank you for your time and consideration. Wendy Halloran

DON-NAVY-2017-005900	Colin T. Atagi	The Desert Sun	04/28/2017	Closed	I'm a reporter with The Desert Sun newspaper in Palm Springs. I'm requesting information regarding arrests involving Twentynine Palms Marines dating back to 2007. We've written about incidents as they occur, but we are looking closely into this matter in response to two recent incidents: Former Marine (b) (6) was convicted last year of murder and current Marine (b) (6) is a suspect in a double homicide. We would like to know how many Marines have been arrested in the past decade and the types of crimes involved in each incident. Details, including dates and locations, also would be useful, but we understand a response may be prolonged if we ask for too much information. So if those specifics aren't readily available, the number and types of arrests will suffice. Additionally, we would like details on the base's procedure when it comes to handling Marine arrests. We'd like to know: What actions you take to discourage arrestable behavior, your approach immediately following an arrest and your response if a Marine is convicted of a crime. Furthermore, at what point do you feel it's appropriate for a Marine to be discharged following an arrest? And how many Marines have been discharged?
DON-NAVY-2017-005901	(b) (6)	USN	04/28/2017	Closed	FBI has description of larceny. CID responded to MCX accusation in 2012. This was investigated and no further action was taken. Currently applying for Global Entry Access and DHS stated there is a statement I was arrested and no final disposition in system. I was not arrested, I made a statement voluntarily and NFA was taken. I need the documents to request to have this updated or removed. Thankyou.

DON-NAVY-2017-005948	Joanne J. Nesbitt		05/01/2017	Closed	I have exhausted all resources to gain access to the Deck Logs for the USS Lynde McCormick (DDG-8). The Deck Logs for 1969 for the USS Lynde McCormick are all “missing” per the National Archives and the Historic Naval Society. I have attempted several times to find them, but the only information I can get is that they are “Classified” and will not be released. The VA will not accept anything except the Deck Logs (or coordinates) which prove the ship (USS Lynde McCormick DDG-8) entered “brown water while in Viet Nam. I am therefore requesting the ship’s coordinates for the following dates as taken from the 1650 Report: 1. February 8, 1969 through March 14, 1969. 2. March 21, 1969 through April 4, 1969 3. June 11, 1969 through June 21, 1969 Since the VA will not put the ship on the “List of Ship’s Exposed to Agent Orange” without this information, I am counting on you to provide the coordinates I am requesting as soon as possible. Thank you for all the men still alive on the McCormick and suffering from the effects of Agent Orange.

To the best of my knowledge, the investigation began somewhere early March 2017 and concluded mid to late April 2017. Through this FOIA, I seek the complete investigative file, including, but not limited to, the report of investigation and any and all statements submitted by anyone questioned, including, but not limited to Ms. (b) (6) , Ms. (b) (6) , and Ms. (b) (6) . The original email from the National Academies requesting a FOIA exemption is provided directly below this message. We have reviewed the document and have determined that government interests will be harmed by the release of this information to the public. Specifically, release of this information to the public would harm government interests by detailing future plans and processes and would provide the private sector with substantial resources to make investment decisions. On these grounds, we request an exemption from the FOIA requirement. We are standing by for further information on and assistance with the addition of FOIA exemption numbers as required. Any assistance/education you can provide regarding appropriate exemption numbers for this document would be greatly appreciated. Thank you. DON-NAVY-2017-006178	John Mannle		05/05/2017	Assignment Determination	This request is submitted under the Freedom of Information Act (FOIA). The following general Category 1 and Category 2 information is provided. This request is for a copy of the Secretary of the Navy (SECNAV) retirement grade determination letter (probably with an SSI Code of 1920, and probably dated mid-late 2010) in the matter of Colonel (b) (6) [redacted] USMC. In/about 2010, then-Col (b) (6) [redacted] accepted and received non-judicial punishment (NJP) administered by the Commanding General, U.S. Marine Corps Forces Pacific (CG, MARFORPAC). The NJP was centered on misconduct (e.g., adultery, fraternization, and associated conduct unbecoming) by Col (b) (6) [redacted] while he was the Commanding Officer, Marine Corps Helicopter Squadron 1 (HMX-1), as well as an order violation (e.g., contacting a subordinate witness). Subsequent to the NJP, and in lieu of a board of inquiry, Col (b) (6) [redacted] submitted a retirement request to SECNAV, via the CG, MARFORPAC and Deputy Commandant, Manpower and Reserve Affairs (DC, M&RA). CG, MARFORPAC recommended retirement in the inferior grade of O-5/Lieutenant Colonel. As stated above, I believe that SECNAV would have made the retirement grade determination in mid-late 2010. Thank you in advance for the time and assistance in processing this request. -John A. Mannle

We are producing a returning series for the US Channel, Investigation Discovery. For this series we are currently researching the death of Kimberley D. DON-NAVY-2017-006280	Yoko Nagasaka Myers	Nichimy Corporation	05/08/2017	Closed	Dear Sir/Madam, My name is Yoko Nagasaka Myers from Nichimy Corporation USA office. Currently, we are doing research on 2 helicopter (CH-46) crashes in Okinawa. One was on August 2nd, 1973 and another one is on June 24th, 1975. We are looking for information about the crash site or map or helicopter log book and other documents. Does your archive have any materials about the crash? At National Archives, we went through US Marine materials including Command chronologies: 1st Marine Wing, 36th Marine Air Group, and 164th Marine Medium Helicopter Squadron and other materials. Some documents mentioned about these crashes, but they described each crash with only one sentence. Then, I asked about those 2 incidents at Archives Branch, USMC History Division. The archivist told me that I had to require a FOIA request to gain access. I attached articles related to these 2 crashes from "Star and Stripes". Thank you very much for your time and assistance. Sincerely, Yoko Nagasaka Myers Nichimy Corporation

DON-NAVY-2017-006386	Joseph B. Wiegand		05/10/2017	Closed	Freedom of Information Act Request: Request information regarding the disposition of “SWIMS” computer hard drives held in inventory by a Direct Support Element onboard USS MIAMI (SSN 755) during the year 2005. Specific information requested: were these computer hard drives discovered on or about 2014 (or during any year before or after 2014) at a Direct Support Element storage area? Background: These computer hard drives were originally reported as “missing” during a JAGMAN investigation that took place at SUBGRU TWO, Groton, CT in 2006-2007. Subsequent to this investigation, it has come to my attention that these computer hard drives were located in 2014 in a Direct Support Element storage area, most l kely at the National Security Agency location in the Washington DC metro area. Impact: Information regarding the potential change in characterization of the status of these computer hard drives from “missing” to “held in inventory” is of vital importance, since this information may be favorable in updating Navy military personnel and non-judicial punishment records of officers that served under me during my tour of duty as Commanding Officer, USS MIAMI (SSN 755). The assistance of you and your staff in this matter is greatly appreciated. Sincerely, Joseph B. Wiegand Former Commanding Officer, USS MIAMI (SSN 755) Telephone: (b) (6) [redacted]

My Board for Corrections case just completed, Docket 3907-16 and was denied based on insufficient evidence. I was discharged in 2006 for misconduct and in 2014, the board upgraded me to Honorable Secretarial Authority. I recently requested my records to reflect 4 years of service based on being discharged for misconduct that was reverted in 2014. The board states in its own words and I quote " The board concluded that there was sufficient evidence of misconduct in your record such that you had not been wrongfully discharged" end quote. I have looked through my OMPF in great detail and cannot find this sufficient evidence but just the one NJP which was suspended. I am respectfully requesting to receive any documentation that supports "sufficient evidence of misconduct" as my OMPF does not support the claim the board denied me of. Thank you for your time and service.

The employee now faces a disciplinary hearing on Thursday and they still have not been able to receive a copy of the investigation into the instructors actions in the classroom. Attached is a more detailed explanation of the situation and the union is requesting that no disciplinary hearing be held until they are able to find out if the Navy appropriately investigated the actions of the instructor and provide that evidence to the employee. DON-NAVY-2017-006866	Claude Morita		05/25/2017	Closed	Theodore Roosevelt and Franklin Delano Roosevelt were separately Assistant Secretary of the Navy. The war plan against Japan was influenced by eugenics theories popular during the period and only reinforced racism against Japan and Japanese residents in the US and the Western Hemisphere. Assistant Secretary of the Navy Theodore Roosevelt,1897–1898, and Assistant Secretary of the Navy Franklin Delano Roosevelt, 1913 -1920, helped in the development of War Plan Orange against Japan. It was an offensive plan for restraining a nation behaving in an unbecoming way for a minority people. War planning was centered on naval power since it was the primary force used by military forces in the Pacific area. Unfortunately, Theodore Roosevelt and, to a lesser degree, Franklin Roosevelt, also were supporters of eugenics theories. So much so that the US racist beliefs were adopted by the Nazi regime in Germany. US immigration policies during the period reflected increasing restrictions on Asian races with their total exclusion in 1924. Nothing similar was placed on the majority racial groups. As early as August 10, 1936, Franklin Delano Roosevelt, as President, had secretly ordered the preparation of concentration camps for Americans of Japanese ancestry in the United States. This fact had been uncovered by reporter Mike Feinsilber and revealed in a Honolulu Star-Bulletin newspaper article, on February 10, 1983. He reported that the “Military Kept AJA (Americans of Japanese Ancestry) Internee List Even Before 1936.” Concentration camps normally are a corollary of wars. He had harbored enmity of uncommon persistence. Later, after the Pearl Harbor attack, on 19 February 1942, President Roosevelt issued Executive Order 9066. This order authorized the Secretary of War to prescribe certain areas as military zones, clearing the way for the internment of Japanese-Americans, German Americans, and Italian Americans into concentration camps in the United States.

As a representative of the news media, I am only required to pay for the direct cost of duplication after the first 100 pages. This information is sought on behalf of Military.com for dissemination to the general public. Release of the information is in the public interest because it concerns a public figure who represents the President of the United States and also continues to represent the Navy. (http://www.ita.doc.gov/ooms/ChinaTradeActRCS.pdf " Presently, these functions are delegated to the Acting Registrar located in the Asia-Africa Division of the Office of Country Marketing. "). Hence the Office of the Secretary as well as the ITA (if succcessor to the " Asia-Africa Division of the Office of Country Marketing") may have responsive records. This FOIA requests records relating to the legal determination that 15 USC 142(b) is restricted to Hong Kong and Taiwan since 1950. Mongolia was an independent country and than became part of the USSR, which might explain why the Departments of Commerce and State ruled that Mongolia was not within "China" under Section 142(b). Hence DOC and DOS Office of Mongolian Affairs may have records regarding the China Trade Act. In the 1950s the US recognized the right of Tibet to autonomy (see Foreign Relations of the US), but considered Tibet legally under the suzerainty of the Republic of China (government-in-exile, located on Formosa, with its Mongolian and Tibetan Affairs Commission). Yet, Tibet in Section 142(b) could refer to the people and not any boundary geographic, of "Tibet", and thus apply to the Government in Exile of Tibet at Dharamsala and its people of Tibet. Records thus may exist within the State Department or Commerce, in the abovementioned offices, or the Office of the Historian for the Foreign Relations of the US Series. US bases on Formosa could constitute Section 142(b) "any territory leased by China to any foreign government", if

DON-NAVY-2017-007151	Reese Dunklin	The Associated Press	06/02/2017	Closed	I understand the Navy CID tracks criminal incidents reported to it and collects that into one or more datasets shared with other offices for annual reports (like this in 2013), submissions to data distributions like the Defense Incident-Based Reporting System (known as DIBRS), among other things. I'm writing to try to figure out how I would go about requesting a copy of appropriate dataset that contains all reports of felony-level crimes made to Navy CID on Navy or Marine installations, no matter who the accused subject or alleged victim is (a service member, a service members' spouse or dependent, a DOD civilian or a DOD contractor, or an ordinary civilian such as myself). This type of dataset appears to be the basis for many of the charts in the 2013 annual crime report, for instance.

DON-NAVY-2017-007399	Mark Olinger		06/11/2017	Closed	Request that US Navy N-4 provide a report concerning the claims made by former Secretary of the Navy Ray Mabus, the costs transitioning to alternative energy sources. Specifically, in 2012 when he proposed a demonstration of his "Great Green Fleet" proposal, in which ships would sail during a major exercise, Rim of the Pacific, using alternative biofuels. The batch of algae-based biofuel purchased by the Navy for the exercise cost $12 million for 450,000 gallons, working out to $26 per gallon, much more than traditional fuel costs. He claimed in media interviews earlier this year he would realize his vision this year, when the John C. Stennis carrier strike group deployed using a beef tallow-based drop-in alternative fuel blend for just over $2 per gallon. It is my understanding that the destroyer USS Mason was filled with biofuel that included 5.5 percent palm oil and cost $1.99 per gallon. The Navy has characterized that as a success, but was this a one off acquisition or can U.S. suppliers meet the existing biofuel requirements? Or are they included in RFPs as a goal?
DON-NAVY-2017-007400	Mark Olinger		06/11/2017	Assignment Determination	As the original classification authority request that approve the release of the records of Observation Squadron Sixty-Seven (VO-67) for the period Feb 1967 - July 1968. was a clandestine United States Navy military intelligence aircraft squadron based in Thailand during the Vietnam War. Created in February 1967, the unit was deactivated in July 1968. During its period of activity, the squadron mainly flew missions over the Ho Chi Minh trail in Vietnam and Laos under the MUSCLE SHOALS mission known as Operation Igloo White, deploying electronic sensory devices from their aircraft. The squadron flew combat missions for nine months and sustained a 25 percent loss rate. It was disestablished in July 1968, and the Air Force took over the mission until 1972.
DON-NAVY-2017-007401	Mark Olinger		06/11/2017	Assignment Determination	Will I receive a formal notification of my request? Or is the interim response that received going to be all the information I am going to receive? As the original classification authority request that records for Heavy Attack Squadron (VAH-21) for the period 1 September 1968-16 June 1969, be released. VAH-21, nicknamed the Roadrunners, was a short-lived Heavy Attack Squadron of the U.S. Navy, based at Naval Station Sangley Point, Philippines. The squadron flew the specialized AP-2H version of the Lockheed P-2 Neptune aircraft, of which four examples were converted from standard SP-2H airframes. The Dictionary of American Naval Aviation Squadrons only has one page on this squadrons history.
DON-NAVY-2017-007402	Mark Olinger		06/11/2017	Closed	As the original classification authority request that the records for Cruiser Scouting Squadron Seven (VCS-7) for the period 1940 - 1946, be released. During the Second World War, the skies over France and Germany were the responsibility of Britain's Royal Air Force and the United States Army Air Forces. US Naval aviation had only limited opportunities to engage Hitler's armed forces. Although no fast carrier task force was present to support the landings at Normandy on 6 June 1944, Naval Aviators did, in fact, participate in this greatest amphibious invasion in history. If the records have been previously released, and or transferred to NARA II, that NHHC conduct a crosswalk to verify the records are the same.

Mr. (b)(6) spent decades as a high school teacher making claims to have been a decorated Navy Seal (or possibly UDT), Vietnam war combat veteran, purple heart recipient, and sole survivor of a dangerous mission (to name a few). He showed his medals and his wounds to his students on a regular basis. I was able to verify that there is no record of him as a Navy Seal or UDT. I'm a Marine Corps veteran and former student of his, and I'd like his records to help support the evidence I've already gathered in exposing this case of stolen valor. DON-NAVY-2017-007727	(b) (6) [redacted]		06/20/2017	Assignment Determination	I would like to request via FOIA, the housing contract between "Patrician Management LLC/New Orleans Navy Housing" and the dept of the Navy/ dept of defense. Patrician Management LLC is based out of Baton Rouge louisiana . Patrician Management LLC (PM LLC) currently hold the housing contract for "Base housing" aboard "NASJRB," located in Belle Chasse louisiana. My Family has lived in base housing for two years, and have asked for help with housing issues from the base CO (We did follow chain of command first). After months of dealing with the base , we have been told "the base cannot help us because the house isn't owned by the navy." I have been called a "racist" by our housing manager after complaining about the poor and unsafe maintenance done by PM LLC.I was RECORDED by maintenance and another contractor in my home with two small children. I cannot call in work orders, and the last time I had to go into the management office, I was forced to conduct business on the PORCH of the building, with my two small children. I cannot even go into the building anymore! Recently I found the contractors housing has used at my home for mold remediation, plumbing, electrical and general carpentry, are not licensed contractors, plumbers or mold remediators, nor are they licensed by the state. These are the same contractors that recorded me at home while "inspecting" a moldy wall. I am now curious what the housing contract between PM LLC and the Navy states. This is not for commercial use. Feel free to contact me at (b) (6) [redacted] (b) (6) [redacted] Or (b) (6) [redacted] Thank you . (b) (6) [redacted] (b) (6) [redacted]

DON-NAVY-2017-007993	Geoff Ziezulewicz	Military Times	06/28/2017	Closed	Pursuant to the Freedom of Information Act, I am requesting: Any and all records pertaining to any successful ransomware attacks on any and all U.S. Navy networks from Jan. 1, 2014, to present, to include any and all investigations, reports and supplementary material. For your reference, I am only seeking instances where a user sat down at their computer terminal and were greeted with a message informing them the contents of their computer would be off limits until a ransom was paid. Usually such payments are made via Bitcoin. As you know, FOIA law requires the release of all responsive records. As such, please refrain from withholding documents en masse. Instead, redact the exempt material and provide the responsive record. I request expedited processing because I am a journalist who is primarily engaged in disseminating information and my request concerns a matter of compelling need on a story of interest to the general public. This information is being sought on behalf of Navy Times for dissemination to the general public. My preference is to receive corresponding records in an electronic format via email to (b) (6) [redacted] As members of the news media and publishers of the primary news publication serving the men and women of the U.S. military, we at Sightline Media Group consider this information to have significant public interest and therefore request that you waive the processing fees. If not waived, I agree to pay any reasonable copying and postage fees of not more than $20. If the cost would be greater than this amount, please notify me prior to incurring the expense. As provided by the open records law, I w ll expect your response within (10) business days, as the statute requires for expedited requests, but since this is a breaking news story I'd ask for a more prompt turnaround if at all practical.

DON-NAVY-2017-008444	Reese Dunklin	The Associated Press	07/13/2017	Closed	Dear Marines Corp FOIA staff: Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request on behalf of the Associated Press news service the following information: The Report of Investigation from the Marines CID unit assigned to MCB Camp Lejeune, N.C., in which a juvenile subject was accused of sexually assaulting one or more juveniles (18 USC 2243) on or about March 17, 2017. On March 20, Marines CID referred this case onto NCIS for further investigation and process; if this helps for the purposes of identifying responsive records, the NCIS control number is 20MAR17-CALE-0310-8BNA/C. I agree in advance that fields of information that contain personally identifying information such as name, DOB, SSN or contact information will be withheld. I would like to receive responsive records in electronic format. I am making this request as a reporter with The Associated Press and this request is made as part of newsgathering and not for commercial use. I ask that you waive any and all applicable fees associated with this request. I also ask that you provide expedited review of this request. Delaying release of the information harms the public interest in knowing basic facts about an issue that has a matter of high public interest and has been a focus of the Department of Defense for several years: sexual assault, in this case, of servicemember dependents. As I am making this request as a journalist and the information is of timely value, I would appreciate your communicating with me by telephone at (b) (6) or e-mail at (b) (6) rather than by mail, if you have questions regarding this request. Thank you for reading this far, Reese Dunklin, the Associated Press.

DON-NAVY-2017-008472	Reese Dunklin	The Associated Press	07/13/2017	Closed	Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request on behalf of the Associated Press news service the following information: closed Reports of Investigation in which the offender and victim are under age 18; the allegation involves a sex crime (such as but not limited to acts colloquially referred to as rape, aggravated sexual assault, sodomy, abusive sexual contact, etc.); the date is Jan. 1, 2007 through the present; and the incident occurred at or was investigated by personnel with your office at Camp Lejeune and New River, Cherry Point MCAS or Camp Pendleton. I agree in advance that fields of information that contain personally identifying information such as name, DOB, SSN or contact information will be withheld. I would like to receive responsive records in electronic format. I am making this request as a reporter with The Associated Press and this request is made as part of newsgathering and not for commercial use. I ask that you waive any and all applicable fees associated with this request. I also ask that you provide expedited review of this request. Delaying release of the information harms the public interest in knowing basic facts about an issue that has a matter of high public interest and has been a focus of the Department of Defense for several years: sexual assault, in this case, of servicemember dependents. As I am making this request as a journalist and the information is of timely value, I would appreciate your communicating with me by telephone at (b) (6) or e-mail at (b) (6) , rather than by mail, if you have questions regarding this request. Thank you for reading this far, Reese Dunklin, the Associated Press.

DON-NAVY-2017-008574	Hope Seck		07/17/2017	Assignment Determination	Hello, Pursuant to the federal Freedom of Information Act, 5 U.S.C.§ 552, I request the following information: Navy internal memos and emails from personnel within CHINFO; from the office of the Chief of Naval Operations; the office of the Vice Chief of Naval Operations; or the office of the Chief of Naval Personnel pertaining to Reserve public affairs officer Sean Spicer from Aug. 1, 2016 to present day. As a representative of the news media, I am only required to pay for the direct cost of duplication after the first 100 pages. Through this request, I am gathering information to understand and illustrate how Spicer's Navy duties and responsibilities coincide with his duties first as a member of the Trump campaign and then as White House press secretary. This information is sought on behalf of Military.com for dissemination to the general public. Release of the information is in the public interest because it concerns a public figure who represents the President of the United States and also continues to represent the Navy. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I reserve the right to appeal your decision to withhold information or deny a waiver of fees. As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone, rather than by mail, if you have questions regarding this request. I look forward to your reply within 20 business days, as the statute requires. Thank you, (b)(6)

DON-NAVY-2017-008737	Jon Mitchell		07/22/2017	Closed	To Whom It May Concern, This is a request under the Freedom of Information Act. I hereby request the following records: A copy of all documents released under the FOIA request number 2012F071371 related to toxic chemicals and hazardous materials used during the battle of Okinawa. I am making this request as a representative of the media, Okinawa Times. I refer to my media accreditation in support that my request receive expedited processing and fee waiver. I believe my request meets the above requirements for the waiver of fees. I am a member of the news media - correspondent for the daily newspaper, Okinawa Times, editor at Asia-Pacific Journal and contributor for The Japan Times. The information I am seeking will clearly add to public understanding in the U.S. and Japan of the environmental impact of military installations on Okinawa. Previous articles which I have written related to this issue have been the focus of intense public debate. The documents we are now requesting will form the basis of a series of newspaper articles and they will be shared with public officials, policy-makers and, if deemed appropriate, made available online. My previous research has been featured in reports by the U.S. Congressional Research Service and the Japanese national parliament. I believe this supports my assertion that I am able to disseminate this information widely. There is "urgency to inform the public concerning actual or alleged Federal Government activity." 5 U.S.C. § 552. I believe there is widespread and exceptional media interest in which there exist possible questions about the government's integrity affecting public confidence. Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires. Sincerely, Jon Mitchell

DON-NAVY-2017-008741	(b) (6) [redacted]		07/22/2017	Closed	I am requesting a report regarding a 1993 Assault case in Okinawa Japan against myself. I was downtown Naha with my friend and his wife and a group of young men began verbally assaulting her. I asked them to stop talking to her that way and was attacked by the entire group. I was taken to a Japanese hospital and treated there for head injuries including bruising, lacerations, concussion and broken nose. A few days later NCIS contacted me at Camp Hansen and took down my version of the incident. The detective told me this was an ongoing problem that summer of 1993 and they were investigating many assault cases in that area of Naha. I never received a report regarding my assault case in May/June timeframe 1993.

DON-NAVY-2017-008855	(b) (6) [redacted]		07/26/2017	Assignment Determination	I am writing to express my sincerest hope that you will reconsider my debarment at Camp Lemonnier. It is very important that I continue my contract with the USO and clear my name of the alleged allegations. I can only imagine the distress and awkwardness of my absence has created for my team and the soldiers that depended on us. This has been a complete misrepresentation of my character as a person and employee. To address the allegations of that day (7/5/2017) I would like to state that (b) (6) [redacted] was not a formal acquaintance nor friend of mine but merely an opportunity for me to explore the city of Djibouti being that the use of the USO vehicle is for USO events only. I had been so eager to see the city of Djibouti and taste the food of the local cuisine or the local Kepinksy in which I heard so much about since my arrival to Camp Lemonnier in January. I guess I must have talked about it too much because my friend suggested to me that Mr. (b) (6) would be going out into the city and that he would take me out with him. I immediately jumped at the opportunity, informed my supervisor that I would be going out and who I would be going out with according to our protocol, unbeknownst to me as to the why Mr. (b) (6) was going out into the city. I was completely blindsided by this event. What I viewed as a simple opportunity to explore the city of Djibouti, to see the culture, and get some food besides the food opportunities on base resulted a detrimental stain to my character and my reputation as a vital and morale contributor to the USO and my place at Camp Lemonnier. I had absolutely no involvement in the alleged terms of my debarment but was merely in the wrong place at the wrong time and thus fallen under the false perception of guilty by association. I would appreciate the opportunity to remain at Camp Lemonnier and complete the goals that have been set before me as a figure of pleasantries and morale. Please review the attached supporting evidence of my chara

DON-NAVY-2017-008881	Skye Perryman	Democracy Forward Foundation	07/27/2017	Closed	On July 27, 2017, President Trump announced "[a]fter consultation with my generals and military experts, please be advised that the United States government will not accept or allow transgender individuals to serve in any capacity in the U.S. military." Following this announcement, the Pentagon sent out a statement announcing that it would be providing guidance "in the near future" to the military. Pentagon Spokesman Captain Jeff Davis specifically referred to the policy as "new guidance." Previously on June 30, 2017, Secretary of Defense Mattis delayed by six months a deadline to complete a study on allowing transgender individuals to enlist in the military. All correspondence referencing, referring to, and/or involving in any respect the the July 26,2017 announcement on transgender individuals in the military by President Trump. 2. DON-NAVY-2017-008938	Zachary J. Jacobson	Dr.	07/28/2017	Closed	I am a Cold War historian. I was wondering if you might know where I could locate the records for the orders to distribute literature to US military personnel by high officials (in this case Pres. John F. Kennedy, "The Guns of August" by Barbara Tuchman, 1962/63.) During the Cuban Missile Crisis, Kennedy was enamored with Tuchman's history of the first month of World War I as a clue for how to confront the Soviets in Cuba. In most any thorough biography of JFK, historians recall how the president insisted time and again that his aides and the officers around him read the book. He went further: he wanted to "send a copy of that book to every Navy officer on every ship right now." He told the Secretary of the Army, Cyrus Vance, to ship Tuchman's best-seller to "every U.S. military base in the world." These stories are repeated time and again, but there is no evidence yet, one way or other, if they were ever carried out, if soldiers and marines, pilots and sailors, as they readied for Cuba (and Vietnam) read of the misery and heroism of World War I amidst their own travails. Could you point me in the direction of how I might figure this out? Sincerely, Zachary Jonathan Jacobson, PhD

DON-NAVY-2017-008955	Austin Evers	America Oversight	07/28/2017	Closed	Pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. § 552 et seq. and the implementing regulations of the Department of Defense (DOD), 32 C.F.R. Part 286, American Oversight makes the following request for records. On Wednesday, July 26, 2017, President Trump announced over the course of three tweets that transgender persons are no longer permitted to serve "in any capacity" in the U.S. military. Reports promptly emerged that the decision was politically motivated. First, DOD officials said they were unaware of the president's announcement until they saw his tweets, further evidenced by DOD's transgender non-discrimination policy still being on the agency's website. Second, and more directly, administration sources indicated that the announcement was politically motivated to target Democratic politicians in the Rust Belt. American Oversight submits this FOIA request to shed light on whether and to what extent DOD officials were involved in this change in DOD personnel policy.

DON-NAVY-2017-008987	(b) (6) [redacted]		07/31/2017	Closed	My name is (b) (6) [redacted] . I need an arrest record from 9/29/2002. We are in the process of an international adoption, and when we ran our fingerprints for the FBI Clearance my report came back showing an arrest from the year 2002. I was in the Marine Corps and stationed at MCAS Miramar at the time, a LCpl at the time of the arrest. Our home study agency (that the FBI Clearance report was submitted to), said that the record showed I was arrested for drunk and disorderly conduct, and destruction of government property. Here is a description of the event, if it helps you locate my record: On 9/29/2002, a bunch of us Marines were hanging out at the barracks after work, and the fire alarm went off. The protocol was that if the fire alarm goes off you go down to the parking lot and form up, so that's what everyone did (about 15 people that lived in that building). The military police showed up and took everyone down to the station and held us all there for about four or five hours. Finally, one Marine admitted that he had kicked the fire alarm, and later on he was demoted for drunk and disorderly conduct and destruction of government property. If I remember correctly, he was a Sergeant at the time. His name was (b) (6) [redacted] . Clearly, there was no actual "arrest", and I had no idea that I was given a record at the same time, and only learned of it a couple weeks ago after our FBI Clearance report came back for the adoption. Our adoption agency needs a copy of this record to disclose to immigration, since they are under obligation to offer all information regarding adoptive parents. If we don't have the record, immigration may think that we are trying to hide something and decide that we can never adopt internationally.

I am making this request as a researcher, for personal use. I'm interested in World War II era information pertaining to the USS Duluth (CL-87). Specifically, for the period May 1, 1945 through February 28, 1947: - Ship's logs showing the itinerary, coordinates, and ports-of-call and associated dates - Communications records (transcripts of radio, ship-to-shore, morse code, orders, inter-ship communiques, etc) - Captain's logs, notes, and personal records (Captain (b) (6) [redacted] and Captain (b) (6) [redacted]) - Roster of ship personnel, including name, rank, and position I don't know how the Navy might have filed or recorded this information, but please call or email me if I can provide further detail about my request, or if I can help narrow down your search. Also, please contact me if you anticipate that the fee will be more than $200, because I have some leeway on cost. Thank you again. Sincerely, Sybil Hatch (b)(6)(b)(6)(b)(6)

DON-NAVY-2017-009079	Robert H. Downie		08/02/2017	Assignment Determination	On 1 December 1971, the submarine USS Bowfin (SS-287), then a reserve trainer in Seattle, Washington, was stricken from the Navy list. Plans were to scrap the submarine, but the City of Seattle requested Bowfin for a planned marine museum. Bowfin was towed to Bremerton on 23 December 1971 to await a decision on her fate. In early 1972, ADM Bernard A. Clarey and RADM Paul L. Lacey approached the Secretary of the Navy about acquiring Bowfin as a memorial to the U.S. Submarine Force at Pearl Harbor. With the assistance of Hawaii's Senator Daniel Inouye, this acquisition was approved. I wish to know: (1.) The date (day/month/year) the acquisition of Bowfin as a memorial was approved. (2) By whom the acquisition was approved. (3) What arrangements were made to tow Bowfin to Pearl Harbor. (4) When this tow occurred, and from where it originated, if other than Bremerton. Copies of supporting correspondence would be appreciated. Thank you. Robert H. Downie

DON-NAVY-2017-009146	Douglas Mackenzie		08/03/2017	Closed	Dear U.S. Department of the Navy: I request copies of records under the Freedom of Information Act (5 U.S.C. 552) containing data that refers to and/or describes the dispersal of materials in the atmosphere vis ble over Monterey County, California on August 3, 2017, including but not limited to, the composition(s) of the materials dispersed and the quantities of each material dispersed. On information and observation, I have probable cause to suspect that the materials dispersed include at least Welsbach and Welsbach-like materials (such as the oxides of metals), coal ash, and materials characterized by frequency-dependent emissivity. In my considered opinion, a search of your electronic files using the names of these materials as search terms will likely result in records responsive to my request. On further information and observation, I have probable cause to suspect that at least some of the materials dispersed in the atmosphere are dispersed from aircraft flying to and from Fort Hunter Liggett in southern Monterey County. The attached photo was taken this morning at 7:38 a.m. PDT. In order to help you determine my status for the purpose of assessing fees, you should know that I am an individual acting on my own behalf and on behalf of Spirit and Life on Earth and I have no intention of using the information commercially. I request a waiver of fees for this request because disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to the public understanding of the operations or activities of U.S. Department of the Navy and is not primarily in my commercial interest. DON-NAVY-2017-009149	Richard W. Kulesh	1973	08/03/2017	Assignment Determination	The Major Caliber Lightweight Gun (MCLWG) program was the 8"/55 caliber Mark 71 major caliber lightweight, single-barrel naval gun prototype. I am seeking information regarding the design differences between the non-lightweight versions, and more importantly, the reasons for program cancellation. The 8"/55 was a successful design that was in service for 50 years. It is very unusual that a known successful design was labeled as "Inaccurate and unsuitable" by Naval Surface Warfare Center Dahlgren Division (NSWC) and Operational Test and Evaluation Force (OTEF). The reason for cancellation was cited that the existing 5"/54 gun system equipped with Rocket Assisted Projectiles (RAP) was equally effective. The RAP projectiles were later defunded and cancelled. Additionally, a gun system with a 50 year track history being labeled as "Inaccurate and Unsuitable" appears unexpected, and I believe that the fact that the system was tested on a small ship with only a 45 foot beam (USS Hull) contributed significantly to those findings, and the selection of a narrow vessel was an inappropriate test platform. With the heavily flawed 155mm Advanced Gun System on the DDG-1000 class vessels, suitable replacements should be sought, and the long track record of the 8"/55 should be considered. I am seeking information regarding the design differences between the non-lightweight versions, and more importantly, the report recommending for program cancellation.

DON-NAVY-2017-009319	(b) (6)	Self	08/08/2017	Closed	My name is (b) (6) . (former Navy STG2). I am seeking all records associated with 1)the attempt on my life by STGSN (b) (6) onboard USSKnox FF1052 in October 1984 and 2) All records pertaining to NIS agent (b) (6) and his assignment aboard USS Knox FF1052 in October of 1984. I got out of the service shortly after the assault by asking my chief(STGC (b) (6) (b) (6))for an early out. I was the target of an attempted murder by one of my own men (STGSN (b) (6)) onboard USS Knox FF1052 in the early fall (Sept - Octocter)1984 in Yokosuka, Japan. Seaman (b) (6) had been brought up on charges for smuggling marijuana. He hid these drugs in one of my work lockers. MAA force fingerprinted the bag and only Seaman (b) (6) finger prints were on the bag. The following day at Quarters, in front of AS Division Officer Ens (b) (6) (b) (6) and the entire AS division, threatened to kill me" if I ever did something like that again." The following day he attempted to kill me by throwing a 10lbs bolt from the top of the Mack, missing me by inches, while I walked topside security watch. The second incident I am seeking records for is the assignment of NIS agent (b) (6) , aka STG2 (b) (6) onboard USS Knox FF1052 in Yokosuka, Japan in October of 1984 . As STG2 (b) (6) , he reported aboard, just as I was entering the quarterdeck. I recognized him from FLEASWTRCENPAC in San Diego. He immediately told the POOW that I was working for NIS. Within an hour, I was persona non grata. The crew would not speak to me, except one guy, STG3 (b) (6) , the CO and the XO. He they beat him for talking to me. I got the usual blanket party stomp downs for weeks. The trauma that event caused was not documented. While labeled a narc, nobody acknowledged my existence except the CO (Cdr. (b) (6))and the XO. Who would document any accusation by a "narc"? I know the job that (b) (6) did was his duty, as was mine to be the patsy. I hold no grudg

DON-NAVY-2017-009636	Morgan C. Seag	University of Cambridge	08/16/2017	Submitted	I am an American citizen pursuing a PhD degree at the University of Cambridge, United Kingdom. I am requesting an FOIA in order to access records that are crucial to my doctoral research. My research examines Antarctic history during mid- to late-20th century, focusing on the integration of women into the US Antarctic Program (USAP). The records I am requesting will help answer question such as: how did American women come to participate in Antarctic science and science support? Why were women excluded from USAP until 1969? What were the roles of the US Navy (generally understood to have opposed women's integration into USAP) and the National Science Foundation (NSF; believed to have fought for women's integration into USAP)? Military support has played an important role in American science, especially in the polar regions; my research on women in Antarctica will shed new light on the sometimes tense relations that characterized the collaboration between the Navy and NSF, as well as the story of how these tensions were overcome in order to achieve progress for women. I am therefore submitting a FOIA in the hopes of accessing the records held at Naval History and Heritage Command, titled "CNO – Oceanographer of the Navy on Operation Deep Freeze COLL/451", which deal with the relationship between the US Navy and the NSF in Antarctica. The most important folders for my research are titled as follows on the NHHC finding aid: Box 2, #11 (Navy and NSF, 1974-1991); Box 2, #12 (Navy Interests in Antarctica, 1974-1975); Box 4, #41 (Navy and NSF-Folder 1, 1974-1984); Box 5, #42 (Navy and NSF-Folder 2, 1985-1989); Box 5, #44 (Transfer of Navy Antarctic Authority, 1974-1992). Thank you in advance for your assistance.

(b) (6) who was a friend of mine and who is now deceased, told me his Navy story many times. I know details of his career from 1929-1959. I know he earned a Purple Heart at Pearl Harbor. He never said anything about going to flight school, being a pilot, or earning the prestigious DFC in WWII, which is how he presented himself late in life. He was an enlisted Carpenter's Mate, became a warrant officer and diver, then a commissioned officer. (b) (6) was the grand marshal in local parades, where he wore uniform items and medals I believe he never earned; I suspect a case of stolen valor (See photo on Together We Served; attached) We fellow, senior Navy officers have an obligation in these matters and set the historical record straight. Thank you. Kyle

She was on assignment at the time of her death. I represented Ms. (b) (6) with respect to a Military Claims Act claim prior to her death. The claim alleged that Ms. (b) (6) treating medical providers at U.S. Naval Hospital, Yokosuka, Japan, failed to timely diagnose and treat her breast cancer. I now represent her Estate with respect to that claim. I recently requested that NCIS provide me with information regarding Ms. (b) (6) income to facilitate my negotiation of a settlement with the Department of the Air Force, which has single-service claims responsibility for the adjudication of MCA claims arising in Japan. More specifically, I requested the following information: (1) Ms. (b) (6) length of federal service, including her length of service as a NCIS Agent; (2) Ms. (b) (6) annual gross salary at the time of her death in March 2016; and (3) whether there is a mandatory retirement age for NCIS agents. The NCIS Human Resources Directorate refused to provide this information absent formal discovery or a FOIA request. Formal discovery is not an option since there is no right to sue under the Military Claims Act and, therefore, there is no mechanism for conducting discovery. Accordingly, I am submitting this FOIA request to obtain the requested information. Attached is a copy of Ms. (b) (6) certificate of death, documents reflecting the appointment of her sister, (b) (6), as administrator of (b) (6) Estate, and a copy of my retainer agreement with (b)(6). DON-NAVY-2017-009974	Mark Olinger		08/24/2017	Closed	The Great Green Fleet (GGF) was a year-long, Department of the Navy (DON) initiative that demonstrated the sea service's efforts to transform its energy use. As one of the Secretary of the Navy's key energy goals, its was to make America's sailors and marines better warfighters, able to go farther, stay longer and deliver more firepower. The centerpiece of the GGF was the John C. Stennis Strike Group (CSG) that was deployed on alternative fuels, including nuclear power for the carrier and a blend of advanced biofuel made from beef fat and traditional petroleum for its escort ships. These biofuels had been procured by DON at prices that are on par with conventional fuels, as required by law, and are certified as "drop-in" replacements that require no engine modifications or changes to operational procedures. The strike group is comprised of John C. Stennis with Carrier Air Wing (CVW) 9 and Destroyer Squadron (DESRON) 21 embarked, guided-missile destroyers Chung-Hoon, Stockdale, W lliam P. Lawrence and guided-missile cruiser Mobile Bay. CVW-9 consists of Helicopter Maritime Strike Squadron (HSM) 71; Helicopter Sea Combat Squadron (HSC) 14; Airborne Early Warning Squadron (VAW) 112; Electronic Attack Squadron (VAQ) 133; Fleet Logistics Combat Support Squadron (VRC) 30, Detachment 4 and Strike Fighter Squadrons (VFA) 151, 97, 41 and 14. Throughout 2016, other DON platforms including ships, aircraft, amphibious and expeditionary forces, as well as shore installations, participated in the GGF by using energy efficient systems, operational procedures, and/or alternative fuel during the course of planned mission functions worldwide. Request that both the procurement costs for the various biofuels procured by type and the annual fuel costs by organization in the strike group be provided, that includes the specific type of drop in fuel and the cost per gallon.
DON-NAVY-2017-009975	Mark Olinger		08/24/2017	Assignment Determination	Sailing the Great Green Fleet (GGF) in 2016 was one of the five energy goals former Secretary of the Navy (SECNAV) Ray Mabus set in 2009 for the Navy and Marine Corps. Request that the prepared testimony and speeches of the former SECNAV concerning the GGF. Additionally, ask that press releases concerning the GGF be provided.
DON-NAVY-2017-009977	Robert J. O'Dowd	Salem-News.com	08/24/2017	Assignment Determination	This is a Freedom of Information Act (FOIA) request for PDF copies of soil sample laboratory reports detecting Dioxin 2,3,7,8 TCDD for six sites at former Marine Corps Air Station El Toro, CA. I am a representative of the news media affiliated with www.Salem-News.com (Salem, Oregon) and this request is made as part of a news gathering effort and not for commercial use. Patricia Hannon, PG, Engineering Geologist, Land Disposal and DoD Section, California Regional Water Quality Control Board, Santa Ana Region provided information that supported Dioxin 2,3,7,8 TCDD was detected at the following El Toro sites OU-2B - IRP-17 COMMUNICATIONS STATION LANDFILL OU-2C - IRP-3 ORIGINAL LANDFILL OU-2C - IRP-5 PERIMETER ROAD LANDFILL OU-3 - IRP-12 SLUDGE DRYING BEDS OU-3 - IRP-9 CRASH CREW PIT NO. OU-2C - ANOMALY AREA 3 LANDFILL Inhalation would be the route of exposure for those downwind of the landfills where burning was employed to decrease volume and the crash crew pits where crash crews and fireman conducted training. At El Toro, there were four main drainage channels that flowed through or adjacent to the base. Three of these drainages were continuations of natural washes that originated in the Santa Ana Mountains. Surface drainage from the hills and upgradient irrigated farmland combined with runoff generated from extensive paved surfaces on the station. The on-station storm sewer system discharged into the drainage channels, which then flowed into San Diego Creek. San Diego Creek discharged into Upper Newport Bay, about 7 miles downstream from its intersection with Marshburn Channel. The channels were mostly lined and culverted through the base. The risk of dioxin exposure to those on the base from run-off should not have been a factor. However, dioxin in the dry sludge beds supports contamination in the wastewater, probably from base wells.

I request expedited processing because I am a journalist who is primarily engaged in disseminating information and my request concerns a matter of compelling need on a story of interest to the general public. This information is being sought on behalf of Navy Times for dissemination to the general public. My preference is to receive corresponding records in an electronic format via email to geoffz@militarytimes.com. As members of the news media and publishers of the primary news publication serving the men and women of the U.S. military, we at Sightline Media Group consider this information to have significant public interest and therefore request that you waive the processing fees. As provided by the open records law, I will expect your response within (10) business days, as the statute requires for expedited requests, but since this is a breaking news story I'd ask for a more prompt turnaround if at all practical. DON-NAVY-2017-010207	Bill Streifer		08/30/2017	Assignment Determination	The skipper of the USS Pueblo on January 23, 1968 was Lloyd "Pete" M. Bucher. At the rear of Bucher's book, "Bucher: My Story," is a 2-page track chart of the USS Pueblo. The map is labeled "East Coast of Korea with Adjacent Coasts if Siberia and Honshu." According to the map, it was created from Japanese surveys to 1931 and Russian surveys to 1925. Soundings in fathoms, heights in feet. It appears to be a Navy chart of the North Korean coast. It appears that someone later added: "Wonsan," "Op. Area Mars," "Op. Area Venus," "Op. Area Venus," and "Track of U.S.S. Pueblo." Who drew the track chart and when does not appear on this map. I am requesting a high-resolution scan of this track chart and/or the map it was created from. I am also request all documentation and/or orders that might explain who was ordered to draw the Pueblo's track chart, who issued the order, and when. I have a scan of Bucher's USS Pueblo track chart but it failed to load. Can I send it to you via e-mail later? If so, my e-mail is (b) (6) [redacted]
