Re: SPPP Annual Report and Certification
Bayway Refinery Complex
IAOC C1 Ground Water and Soil Remediation Project
NJPDES Permit No.: NJ0297755
Program Interest No.: 811880

To Whom It May Concern:

Per the requirements of New Jersey Pollutant Discharge Elimination System (NJPDES) Individual Industrial Stormwater Permit No. NJ0297755 and N.J.A.C. 7:14A-24.9, this letter shall serve as the Annual Report for the Stormwater Pollution Prevention Plan (SPPP) developed for the above-referenced remediation project. The SPPP, originally certified on February 6, 2020, was prepared on behalf of ExxonMobil Environmental and Property Solutions Company (ExxonMobil) by Kleinfelder, Inc. (Kleinfelder). Since its implementation, Kleinfelder has maintained the SPPP and verified its effectiveness throughout the ongoing remedial construction activities.

Routine inspections of the facility's procedures, control measures and best management practices (BMPs) are generally conducted on a weekly basis, with additional inspections completed as-needed (e.g., before and after storm events). Routine inspections are documented on forms maintained in the project records. An annual inspection was completed by Kleinfelder on January 26, 2022, during which it was verified that the facility is in compliance with applicable permit conditions and the SPPP. Enclosed is a copy of the SPPP Annual Inspection Form and signed Annual Certification Form.

Please contact Matt Kuchta of Kleinfelder at mkuchta@kleinfelder.com or (609) 631-1831 if you have any questions.

Sincerely,

Maureen Forlenza
Bayway Team Lead Project Manager
