Hi Tony,

Quick follow up: for the EPA information repository for the CFAC site, today I am sending you a dvd and some hard copy files via UPS. You should receive those later in the week or early next.

The DVD will have the following resources:

- Remedial Investigation/Feasibility Study Progress Reports (8 reports - starting Nov. 2015)
- Administrative Settlement Agreement and Order on Consent for Remedial Investigation/Feasibility Study (36 pp)
- Remedial Investigation/Feasibility Study Work Plan (511 pp)
- Phase I Site Characterization Sampling and Analysis Plan (244 pp)
- Site Reassessment for CFAC Aluminum Smelter Facility (273 pp)
- Support Document for the Revised National Priorities List Final Rule (617 pp)

I am also sending you hardcopies of the following documents in binders:

- 8 Remedial Investigation/Feasibility Study Progress Reports
- Administrative Settlement Agreement and Order on Consent for Remedial Investigation/Feasibility Study (36 pp)
- Support Document for the Revised National Priorities List Final Rule (617 pp)
- Site Reassessment for CFAC Aluminum Smelter Facility (273 pp)

Steve Wright, who is in Columbia Falls, will also provide you with hardcopies of these documents:

- Remedial Investigation/Feasibility Study Work Plan (511 pp)

- Phase I Site Characterization Sampling and Analysis Plan (244 pp)

Please let me know when you receive these documents. I really appreciate your help in making these resources available to the public. Let me know if there is anything else I can do from my end. Thanks Tony!

Hi Tony,

I think we met as well. A few weeks ago I was in your library (with my family) and we spoke about adding documents to the CFAC Superfund information repository. Like Mike said, we are compiling a set of documents to be delivered to you. I will send those via mail on a dvd and I will include hardcopies of a few of the key resources as well. You should receive those next week. I had wanted to hand deliver these, but I probably will not make it back to Columbia Falls for a few weeks. I hope mailing these to you will be fine in the short term. I should be up again before the end of the year or soon thereafter.

I am CC'ing Steve Wright from CFAC on this email as well. We will work together to ensure we build the information repository to meet community information needs moving forward. Any feedback you may receive from interested people along the way will be warmly appreciated.

Most of these resources can also be found on our website http://www.epa.gov/superfund/columbia-falls. Let me know if you have any questions. Thanks for following up!

Hello Tony,

I am copying Robert Molee our Community Involvement Coordinator. He is working on getting these documents together. You can work with him on this.

Thanks for your note and assistance

Mike

what you have and when you may be able to get them to us. I've been keeping track of interested parties and will notify them when we have the documents in question.

Thanks Mike!
