**Subject:** Letter from the American Chemistry Council to A/A Wheeler on trade and regulatory cooperation
**Attachments:** Letter to Andrew Wheeler from Cal Dooley 10-19-18.pdf

Dear Chad,

Last week we sent the attached letter from our President and CEO, Cal Dooley, to Acting Administrator Wheeler on the importance of EPA assigning resources to international regulatory cooperation efforts for chemicals, particularly in the context of new U.S. trade negotiations with the EU, Japan, and the UK.

We would be more than happy to meet in person to discuss trade and regulatory cooperation with EPA staff in greater detail. In the meantime, please let us know if you have any questions regarding the letter and its contents.

Best regards,

Ed
