Hi all,

I spoke with Robert and verified how much of a revision is required to conclude the CIP plan for CFAC site. I think around 50 additional hours should be sufficient to finalize the project. Please go ahead and continue your work on the project. Let me know if you have any further questions.

Thanks,

Hi Sisay,

We could do 12:30 MT – would that still work?

Thanks,
Sarah

Hi Sarah and Sisay,

Does 2pm MT/4pm ET work for you both? I look forward to speaking with you.

Subject: R8 CFAC Budget Update

Good afternoon Sisay,

We wanted to touch base with you about the resources estimated for the R8 Columbia Falls Aluminum Company site TD.

Our CIP work for the CFAC site has surpassed what we would have anticipated in terms of rounds of text, infographics and layout revisions as well as the volume of information synthesized from the interviews. Because of that increased LOE, we anticipate needing more

resources to carry this project through to completion. We wanted to let you know as soon as the situation became clear.

If you or anyone else would like to discuss resources, we'd be happy to have a call. Please let us know if you have any questions and how we should proceed. We're thankful for the opportunity to work with the Region and site team on this project, and we look forward to continuing to support these efforts.

Thanks,

Sarah
