Good afternoon Mr. Yu. My name is Stephen Davis and I represent a client that has been impacted by the Dillenberger Farms holdings and I was wondering if you would have some time to discuss where USEPA currently is regarding the Information Request letter sent on February 23, 2016 to Dillenberger Farms Inc. The reference on the letter is "Unauthorized discharge of fill material into Moredock Lake."

I attempted to reach out to Tinka Hyde who I worked with several years ago doing Superfund work while I worked for the Illinois EPA. I was unable to reach Ms. Hyde, so I am attempting to reach out to you based on the contact information in the last paragraph of the above mentioned letter. I called you late last week and again today (leaving a message) with hopes of talking with you briefly about this project.

I won't take a great deal of your time, just attempting to figure out where this matter currently stands with USEPA. I can provide more background when we have a chance to talk. You can reach me at 217-638-5815.

Thank you in advance for your consideration on this matter.

Very best regards,

Steve
