Hi Elly,

I would like if you and I could have a conversation with Tasya Gray, the consultant for Container Properties, about the source control determination that EPA will need to make for the former Rhone-Poulenc facility I know you don't have all the answers yet but Tasya and I would like to hear what you think the questions might be for determining whether source control is met, what's being done at Ecology, what are the concerns that we might need to address, what's next, etc ? We are at a point where we are thinking a lot about this and I thought we should talk
