We, the undersigned employees of Hi-Mill Manufacturing Company, support EPA's Proposal Plan for Remediation of the Hi-Mill Manufacturing Company site. Our Company has spent a great deal of money on the Superfund investigation during the last five (5) years and the Hi-Mill employees have suffered as a result. We want to see the Superfund case concluded to protect our jobs, so we favor EPA's Alternative 1: No Action with Groundwater Monitoring and Institutional Controls.** Preferred Alternative.**
