Location Administrator's Office

Show Time As Busy

Topic: opportunities for regulatory innovation and improvement; very active with the rest of the business community and with municipal government on ways EPA programs could become more efficient and closely aligned with statutory goals; hoping we can be a resource for the Administrator, particularly in terms of ideas for ways to meet his goal of facilitating progress in working through the Superfund pipeline, sustaining some essential research and educational functions for RCRA, and improving the roll-out of recently promulgated air standards for municipal landfills; this would be a policy discussion about some key EPA programs

Subject Meeting with National Alliance of Forest Owners
Location Alm Room
Show Time As Busy
Today's Date: April 3, 2017

Meeting Date: April 5, 2017

Meeting Time: 3:50 pm

Requested Location (if offsite, please list address, parking instructions, etc.): EPA, Administrator's Office

Requestor: The National Alliance of Forest Owners is an advocacy association of 48 companies and 29 forestry associations representing over 80 million acres of private forestland throughout the country. Nationwide, private forests constitute 70% of the nation's forests and support 2.4 million jobs and $99 billion in annual payroll.

Purpose of the Meeting: To introduce the National Alliance of Forest Owners to the Administrator and discuss how forest owners and EPA can work together on water and air policies that will support jobs in the forestry sector and the rural economy overall.

Background on the Meeting: NAFO has two significant policy matters pending before EPA:

1. Regulation of Biomass Carbon Emissions
* Forest biomass is a plentiful renewable energy resource that is typically the product of forest management or mill operations.
* Producing energy from this low value product provides mills with an efficient power supply, supports jobs in rural communities and provides a better economic return for forest owners, many of whom continue to struggle to find markets for their wood following the Great Recession.
* For many years, EPA policy treated biomass as carbon neutral, in line with the rest of the world, meaning that any carbon emitted from combustion of biomass is recaptured by growing forests as part of the natural carbon cycle.
* In 2010, without public notice or scientific basis, EPA's "Tailoring Rule" reversed that policy and regulated greenhouse gas emissions from biomass without regard for the natural carbon cycle.
* Since 2010 EPA has repeatedly committed to revise and clarify its biomass policy but failed to do so. The resulting uncertainty has stalled investment in biomass energy at mills and stand-alone facilities.

We are seeking to work with EPA to remove uncertainty about biomass in EPA policy through amendments to the Tailoring Rule that are pending at OMB. Clarity on biomass will correct EPA's policy on biomass, restore the natural forest carbon cycle as the underpinning for biomass energy policy, and support job-sustaining investment.

2. Waters of the US (WOTUS) Regulations
* Forest management activities are generally consider nonpoint sources except for stormwater control ditches and herbicide applications.
* Courts have required NPDES permits for herbicide applications in forests, but EPA has elected not to regulate ditches as point sources.
* However, the expansion of WOTUS under the new definition will create confusion about where else the permits are required and what additional requirements are imposed if the ditches are now WOTUS.
* Features that EPA declared to be WOTUS in the revised definition that are of concern to NAFO members include ephemeral and intermittent streams, ditches, and isolated wetlands.

Requesting Office: Office of Policy

Title of the Meeting: Meet and Greet of State Commissioners on EPA Lean Action Board

Purpose: Introduce the state members of Lean Action Board (LAB), a group of senior EPA and state officials working collaboratively to eliminate waste and increase productivity in our environmental programs, to the Administrator. The LAB consists of 7 EPA SES members and the directors of two state (AZ, KS) environmental agencies. State LAB members will provide an overview of Lean activities and results at EPA and with its state partners, and describe how Lean is making a difference in how EPA manages our people and programs.

Role of the Administrator: This would be a quick meet and greet before or at the end of his stay at ECOS. It would not require a room and could be done in a discrete location of the lobby.

Background: Commissioned in 2015, the LAB brings together EPA and state environmental leaders to advance the practice of Lean and to foster a continuous improvement culture within EPA and states. During 2016 the LAB focused on identifying Lean projects with transferable solutions and is working with EPA and state partners to share successful results with other states and regions with similar processes in need of improvement.

Last possible date for the meeting: The state members of the LAB would appreciate the opportunity to meet with the Administrator at the Mayflower before or after his Keynote at the ECOS on April 7, 2017. The state members are Misael Cabrera (AZ) and John Mitchell (KS), who both are attending the ECOS meeting.
