9/15/2010 [redacted]

Dear, Mrs.Ericka Farrell

I'm writing to you and the EPA Office Of Civil Rights. The whole community is suffering. I'm speaking for the ones which are not on the lawsuit, public school children, daycares and churches in this area. I [redacted]) and others would like to file a complaint against The North Baton Rouge Sewage Treatment Plant and The City Of Baton Rouge.

My sister ([redacted]) and I ([redacted] have lived here for many years at [redacted] . She [redacted]) is on the lawsuit and rightfully so, and I should be, but I ([redacted]) am not on a lawsuit against the City Of Baton Rouge . However, my complaints and our complaints are identical to the complaints filed in EPA File No.09R-09-R6. the plant makes us all ill, on a lawsuit (or) not on a lawsuit. This is governmental crime, Environmental Racism. The North Baton Rouge Sewage Treatment Plant continues to violate the citizens of this community on a daily basis. I have read your complainant consent / release form and I consent.

Thanks,

[redacted]

The Concerned Citizens Of University Place Subdivision
