SITE Ford Motor Co. - Wixom Assembly Plant

CONTACT Gary Fisher PHONE (313) 594-3063

Ford Motor Co.

SUBJECT I returned Mr. Fisher's call. He said that when Mr. Sussman asked for our letter, he didn't know that Mr. Fisher had a copy. Mr. Fisher said we didn't need to send another. I said I thought that it was too late, that the U.S.E.P.A probably had sent the letter already, and the new one would have the new inspection date and that we wouldn't do any sampling. He said fine.

I asked if we would need a secrecy agreement and a hold-harmless statement. He stated that we probably wouldn't need the secrecy agreement, but didn't know what a hold-harmless agreement was. After explaining,

he said that no, we probably wouldn't need one. I said I would bring one anyway.

I asked if he would be at the site, and he said probably not. I should ask for Darryl Inyard, the Plant Engineer. I said we'd be there ~ 9 a.m. on Feb. 10th, 1984.
