Subject: agremax

Ruth Santiago called Claudia today to request that the author of the ord ash report meet with senator tirade, who is the chair of the natural resources committee in the PR Senate. Claudia explained that an in person meeting is not likely. We would like to set up a video conference or conference call with the senator and the ord author. I will ask Claudia to help with the logistics. Let her know if you or your designee would like to be included in the informational call.
