Subject: Re: Coming To NOLA

It's right under the blue dot at Lowerline and Olive. A tan conex box office. START will have the keys. A security guard will be there.

START should be able to crank up the generator and fuel it, etc.. Remind them to refuel.

Hi Greg and George,

Thank you very much for the information! We will plan our wardrobe accordingly ☺

In what area will the office trailer be located?

Sandra

I was able to get the office trailer and generator to be there that week. With security.

The AC can get too cold even in the hottest part of the day.

Good afternoon folks! As you planning on your trip to NOLA, keep in mind it will be hot and humid each day, along with some rain.

You're welcome to wear your EPA clothing or whatever you're comfortable in.

I'll be driving down on Monday June 10 and will see you later that day.

Just like Amarillo, if you need anything, please email, call or text.
