Subject: LST-1166 (USS Washtenaw County) EE/CA

Hi Steve,

I enjoyed visiting with you today about the LST-1166 and the Engineering Evaluation/Cost Analysis (EE/CA) that needs to be conducted so we the options and costs for final disposal of the vessel. As I mentioned before, until I get approval from my management, I cannot write a TDD for Techlaw to work specifically on the project, but Sharon has informed me that there may be a technical TDD that could be accessed for a few hours for an initial, brief review, and getting me a rough cost estimate. I am therefore attaching both a USCG powerpoint presentation (data is a bit out of date, but gives you a good feel for what was there) and an EPA presentation with up-to-date photos, a Briefing document, and a link to get you familiar with the vessel and project. The briefing document is good for history and recent timeline.

Again, thanks in advance for your help,
