TO: Karen Flournoy

FROM: Jim Dow, Litton ACD

DATE: 5-3-82

TIME:

SUBJECT: Litton ACD Sludge - EP Toxicity

SUMMARY OF COMMUNICATION

Mr. Dow called to say that they rec'd. the EP Toxicity test results (samples sent to Bruce Williams, Joplin & General Testing Lab. K.C.).

All EP Toxicity constituents except for chrome & lead tested at less than 1 ppm. Cyanide less than 100 ppm. They also had an analysis of organics - results not in yet.

He asked what they should do & I told him:

1. send us a copy of the data
2. develop delisting petition & send to HQ because this is a listed waste — contact Myles Morse & gave him phone no.

He wanted to know if he would have to do any additional testing. I told him that I could not tell him anything on that now. He's contacting MDNR.
