Subject: Ratiation-Standard Precision AR#62623

---

Good Afternoon Megan,

Can you take a look at the following doc ids and let me know which one's you would like to keep in the Administrative Record and which one's can be removed because a few appear to be duplicates.

30030852 & 30030848 - appear to be duplicates, keep 30030848

40314543 & 40314544 & 40314579 - all three are ok...three different documents...three different analyses were performed, one doc for each analysis type

40348534 & 40348531 - I can't find these documents in SDMS for Standard Precision

40350651 & 40350650 - both ok...two different documents...one for CECO company and one for the living trust

30246794 & 30246795 - both ok...the first is the response and the second is additional material they sent a couple days later that they forgot in the first response

30246808 & 30246062 - same document, but one Randy did for Products and I did for Precision, keep 30246062

Thank You

Pamela Houston

Good Afternoon Megan,

Can you take a look at the following doc ids and let me know which one's you would like to keep in the Administrative Record and which one's can be removed because a few appear to be duplicates.

30030852 & 30030848

40314543 & 40314544 & 40314579

40348534 & 40348531

40350651 & 40350650

30246794 & 30246795

30246808 & 30246062

Thank You

Good Morning,

The above AR has been created. Go into SDMS and click on extended search, and in

Tracking Type: - enter **AR** and click the binoculars
select R07: AR# (ADMIN RECORD #)
click OK
Tracking Number: - enter **62624** and click the binoculars
select R07: 62624:
click OK

Then click Search

The documents that are included in this AR will display after the search is completed.

In addition, attached below is the Superfund Acknowledgement Form - please print this form, sign off (if the AR is ok) and then pass it on to the attorney

**If you have corrections, additional documents you want to add please just let me know. (Please read the introduction page and make sure it is OK)**

Subject: Standard Precision- Standard Products AR

---

Jolleen: For redacted doc. copy also needs to go into Standard Products.

Randy and Megan: Contents of your AR's need to match as much as possible except for site specific investigations and 104(e)'s sent out for only specific parties. For ex: I don't have file in office any more but think Cessna 104(e) only belonged in one site- you can tell by looking at "re" on each 104(e). I would put NCR's 104(e) and all their responses and letters in both. Guidance doc's, technical doc on risks for radium need to be same.

**Re: 650 E. Gilbert St., Wichita, Kansas ("East Gilbert Street Site")**
**4105-4219 W. Pawnee, Wichita, Kansas ("West Pawnee Street Site")**

Dear Ms. Roberts:

I represent NCR Corporation (NCR) with respect to a number of environmental matters. David Traster, Esq., who also represents NCR, informed me that he spoke to you briefly by telephone recently about the two sites referenced above (Sites). As a follow up to that conversation, I am writing to bring to your attention some pertinent information regarding the history of these Sites.

The Kansas Department of Health and Environment (KDHE) has asserted that the Sites are contaminated with radium as the result of actions of Electronic Communications, Inc. (ECI) or its subsidiaries or predecessors beginning in the 1950s.

The following facts are derived from contemporaneous documents that we have provided to KDHE and will share with you at an appropriate time:

In the 1950s, a company called Standard Products, Inc. was in the business of painting aircraft dials with a radioactive luminous compound. The painting was done at the East Gilbert Street Site.

In 1962, Standard Products, Inc. moved its radium operations from the East Gilbert Street Site to the West Pawnee Street Site. By this time, Standard Products, Inc. had become a subsidiary of ECI. The next year, Standard Products, Inc. changed its name to Standard Precision, Inc.

40348531
[redacted]
Superfund

At least by 1965, Standard Precision, Inc. had stopped painting radium dials but may have continued to strip radium from used dials. That same year, ECI, Standard Precision, Inc.'s sole shareholder, dissolved Standard Precision, Inc. ECI continued to operate the Standard Precision businesses under the name "Standard Precision Division." All radium stripping operations ceased by 1969 or before.

In September 1968, NCR acquired approximately 97% of the stock in ECI in a stock-for-stock transaction. In 1971, NCR acquired ECI's remaining outstanding shares, making it a wholly owned, but still fully separate subsidiary.

In July 1976, NCR entered into an agreement to sell all of ECI's stock to E-Systems, Inc. The sale agreement was consummated and on September 1, 1976, ECI was merged into its new owner, E-Systems, Inc. During the period between 1968, when NCR initially purchased the stock of ECI, and 1976, when NCR's sold all of ECI's stock to E-Systems, Inc., NCR always maintained ECI as a separate corporation and never merged it into NCR.

In 1995, Raytheon Corporation acquired E-Systems, Inc. and then in 2001, Raytheon and E-Systems were merged. Any liability created by radium-related operations at both of these Sites thus flows in a direct and unbroken chain to Raytheon.

Under basic principles of corporate law, NCR is not responsible for the liabilities of ECI, its former subsidiary. "It is a general principle of corporate law deeply ingrained in our economic and legal systems that a parent corporation (so-called because of control through ownership of another corporation's stock) is not liable for the acts of its subsidiaries." *ColtTech, LLC v. JLL Partners, Inc.*, 538 F. Supp.2d 1355, 1358 (D. Kan. 2008), *quoting United States v. Bestfoods,* 524 U.S. 51, 61, but applying Kansas law. *See also*, *Damman v. Southern Kansas Stage Lines Co.,* 143 Kan. 642, 56 P.2d 71 (1936) and *Comstock v. Great Lakes Distrib. Co.,* 209 Kan. 306, 496 P.2d 1308 (1972). Raytheon, on the other hand, stands squarely in the shoes of ECI as its successor by merger, and is fully responsible for any liability of ECI at the Sites.

Although Raytheon is indisputably ECI's successor, and received notice from KDHE with regard to requested response actions at the Sites, Raytheon declined to cooperate with KDHE, leading, as we understand it, to the referral to EPA. In contrast, NCR met with KDHE and offered its cooperation even though we believe NCR has a complete defense to any liability claims at both Sites.

As we were with KDHE, NCR is willing to discuss this matter with EPA and other PRPs in an attempt to resolve the public health issues at these Sites. We look forward to an opportunity to meet with you. Additionally, I want to let you know that in the next several days, NCR technical staff will reach out to EPA's designated contact persons for the Sites to learn more about the anticipated response actions.

Sincerely,
**Langsam Stevens & Silver LLP**

Hi Pam,

I do not have a copy of figures 11 and 12. Someone else sent this document down to the records center - this document was already in SDMS when I was assigned the site.

Megan

Hi Pam,

I do have this CD. I will bring it to you at the RO tomorrow. Sorry about that.

Megan Schuette to: Pamela Houston 09/06/2012 03:31 PM

Hi Pam,

Sorry I'm just getting back with you now. I'm on travel all week and haven't gotten a chance to get into SDMS. I've never done it remotely before but I'm assuming I should be able to and will try tonight. I may not have the answer to the CD question until I take a look at my desk. Please let me know if there is anything else you need.
