Op. 786

August 3, 1984

POLREP 1 - IMMEDIATE Removal - Envirochem Site, Zionsville, Indiana

A. Pollution - Actions for cleaning / disposal of tanks and cooling water pond

B. Action - Mobilization of U.S. EPA sub-contractor Petro Chem initiated on August 1 by ERCS. Initial activity will involve excavation ~~of~~ and stockpiling of sludge from the cooling pond and backfilling with on-site clay. Major portion of work will include cleaning or disposal of 55 bulk tanks partially filled with hazardous substances. U.S. Army Corps of Engineers and TAT are serving as On-site representatives of the OSC.

C. ~~Future~~ Expenditures - A total ~~extramur~~ funding ceiling of $685,301 has been authorized.

D. Future Action - Excavate and backfill pond; sample water and sludge; select disposal facilities for water and cooling pond sludge

front Norman Nudergang
On-Scene Coordinator
