I got a new member and a person that just registered for the oil spill conference. I had a meeting with Daniel (that was to happen several months ago but was blizzard out) on Tuesday evening. They are doing a lot of work on oil remediation and have been working with several companies. I suggested the conference and must have done a good job of selling it because he joined SETAC, the local chapter and is coming to the conference. A guess I get a triple play.

I will introduce you to him next week.

Bill

Bill,

I wanted to thank you for the enjoyable meeting and information. I think that 3 Tier could provide EA a nice targeted product line for specialty business. I also reviewed the previous email about the meeting next week and I will attend though not as a exhibitor. I think that it will be better to attend the conference as a whole and network while I better learn the industry.

I completed my membership this morning for the national and Southeastern Chapter and will submit my registration for the event later today. Should I do anything to notify that you were the member that directed us to the association? Either way I believe it is going to be a great resource for us in developing this class of business.

Again, thanks for everything and hopefully we can find a quick opportunity for a cold one during your time in my fair state.
