---

Jen:
Attached is the CPG's proposed agenda for the modeling meeting between the Region 2 and CPG teams which is in response to your request that the CPG review and comment on the proposed agenda that you provided on May 4. The agenda has been modified to focus on the ST, OC and CFT components and has somewhat reordered the topics proposed by the Region. The CPG has suggested that a separate meeting be scheduled for the bioaccumulation modeling comments and that Jonathan Clough and John Toll both attend in-person.

Please contact me if you wish to discuss.

Thank you.

Rob,

For next Thursday's meeting I have reserved a conference room at our 290 Broadway office. HDR did not have any conference rooms available in their Mahwah office. I have the room booked from 10 am to the end of the day.

Could you please provide me a list of the attendees and their email addresses. Once I have that information, I will send along the email necessary for visitors to enter our building. The following people will be participating on behalf of EPA: myself, Ray, Eugenia, James Wands, Ed Garland, and Scott Kirchner. We may have one additional attendee from the CDM team and Alice may attend as well.

Attached is an agenda for the meeting. Please let me know if there are additional topics you would like to cover during the meeting.

Thanks,
Jen
