Attachments: Drainage Inlets at Toe of Pond D.pdf

Jeff,

To clarify the drainage inlets are shown on the attached drawing. I'm 95% sure they drain to S107 but thought I should ask to be sure.

Thanks,

John

Jeff,

Please confirm the Drainage Inlets at the toe of the Pond D Embankment drain to Outfall S107, per the attached SWPPP excerpt.

Thanks,

John

Ok. that's great. Tyler and I just had a brief conversation. If we feel like we need confirmation, it would be best to send the drain location along with the stormwater map probably to Jeff Marcell and have him confirm that those drains go to S107. Whatever we need to do to feel confident we know where those drains are going.

Thanks,

Believe this is Outfall S107. Per attached excerpt.

Thanks,

John

Lets discuss,

I believe the inlets we are draining to are connected to the Pond D Embankment toe drain, owned by Dominion.

Thanks,

John

That's fine. As long as we know they actually go to the PWCSA and are not just VDOT culverts that discharge to whatever the receiving water body is on the other side of the road…

The road connecting access road for ABC drains into storm inlets running under Possum Point Road, which I was thinking qualified as being part of the MS4.

Tyler,

Just one quick question on the registration statement – do we expect to discharge stormwater via the MS4 (Question 7) ?

I'm about to look at the SWPPP as well.

Thanks,

Amelia,

I have attached the registration statement and the main SWPPP document. I will be putting together a binder for the SWPPP to include the document that I have attached as well as all the necessary attachments (site plan, inspection form, etc.)

Thanks, John.

Tyler – when you are finalizing the SWPPP will you add space for one more SWPPP coordinator on the cover page. Spoke to Jeff Marcell and we'd like to have Jeff, Whitey, and Brian Hall all as delegated authorities. Also, I assume you are, but as you are preparing the drawings with required information, you are showing the entire project not just the revised area, correct?

Thanks,

Amelia,

I spoke to Tyler and she will have the Registration Statement and SWPPP to you today or tomorrow morning.

We will have the $2467.08 check for the Site Development Permit and Construction General Permit on Friday.

I attached the permit workflow diagram for the we are using. Hopefully the last two steps won't take too long, when we hand in the signed registration statement to PWC after the preconstruction meeting we will ask who will be processing the CGP through DEQ and if it is possible to get an accelerated review.

Thanks,
