NRC_REPORT_NOTES

Hose leak on vapor recoery unit; no coordinates or sheen reported

sump failure; no coordinates reported
free water knockut system failure; platform shut in
ROV leak subsea; no facility, sheen, or coordinates reported
Observe for future sheen
no facility or sheen reported
ROV release subsea; no sheen reported
no sheen color reported
leaking fitting on separator
no block reported

carryover from separator; no facility or sheen color reported

pin hole leak in 3 inch line; no facility or sheen reported
pump malfunction; no facility or coordinates reported
pump failure; no facility reported
Line being disconnected; no facility or coordinates reported
ROV release at 5200 feet depth; no sheen reported
no sheen size reported

no block reported
no block reported
no sheen reported; release subsea

release at 44 foot depth; no sheen reported
sump carryover
release at 85 feet depth; no sheen reported

BSEE WQ inspector was on platform Energy XXI SP 49 A @ 9:00 AM and did not see sheen near

sheen color assumed barely discernable
ROV release; no sheen reported

ruptured flow line at night; no sheen or facility reported

no coordinates reported

heat exchanger failure on thruster; no sheen reported

pihole leak in 6-inch line

pinched hose; biosynthetic oil; no sheen

dump valve left open; no facility reported

ROV diamond saw failure; no sheen reported

pipe leak; no facility reported

no facility or sheen reported
Flow cell malfunction
piping leak due to corrosion

release at 90 feet depth; no sheen reported

Related to NRC#1131946 reported as a mystery natural gas leak
no sheen size reported
skid overflow; no facility reported
release below sea level; no sheen reported
no sheen or coordinates reported
sheen width and coordinates not reported

hose burst; no sheen reported
hose no closed; no sheen color reported; offshore supply vessel
hose leak
heavy rains escaped containment; no facility reported
drain pipe cracked; no facility reported
hole in glycol reboiler; no sheen reported; mist only

crane hydraulic line broke
no sheen reported

connection loose; no sheen reported
no sheen reported

ROV investigating; no sheen size reported
pinhole leak in riser; pipeline shut in
carryover from flare scrubber
decommisioning activity
offshore supply vessel engine malfunction
pipeline leak
investigating leak; pipeline shut in
carried over from sump; no coordinates reported; well shut in
no sheen size reported
packing leak; no facility reported

leak while replacing pipe; platform shut in
pump seal failure
gas bubbles; no sheen reported; well shut in

Bubbles

reported by Shell MC807 B Mars TLP

No further sitings

Eventually secured

loose coupling; no facility or sheen reported

excess pipe dope applied to casing; no facility reported
release at 1500 meters depth; no block or sheen reported
residual oil in jumper released; no sheen reported
open drain tank emulsion overflow; no coordinates reported

sheen width not reported

small tank overflow while displacing well; no facility reported

piping leak; no facility reported; shut in system
drain line leak; no facility reported
no block or facility reported

manifold valve leak
oil treater inlet pipe leak; no sheen reported
valve accidently left open
no sheen size reported; Pompano 12" pipeline suspected; line shut in
hose fitting leak; no facility or sheen reported
valve stuck open
heavy rain release from sump
winds tipped tank
drip pan overflow; no sheen reported

mist released through flare PSV test

BSEE flyover spotted sheen; no sheen color or facility reported
no sheen color reported
ROV release at 50 meters depth; no coordinates or sheen reported

leak in gangway system
no sheen size reported

hydraulic liine leak; 50 meter depth; no sheen reported

fitting failed during testing
ROV release at 3800 foot depth; no sheen or facility reported

no sheen reported

pin hole in sump line; no facility reported
ROV release at 3900 feet depth; no sheen reported
subsea manifold release at 5580 feet depth; no sheen reported
service manifold leak at 5621foot depth; no block or sheen reported

washing down skid; no facility reported

process pipe hole
repairing riser
subsea pipeline valve flushing at 4,000 feet depth; no sheen reported

undersea hammer leak at 1000 meters depth; no sheen reported
start up sheen; no facility reported; IR readings 33 and 10
pipe on platform

piping leak
oil and water mixture

release at 3,900 foot depth; no sheen reported

thruster failure, release at 5300 foot depth; no sheen reported
Crane on vessel burst

2 drums floating offshore labeled waste oil; no pollution reported; possible hazard to navigatior

Subsea wellhead

Pacific Drilling Rig Santa Ana

cannot calculate, no color reported

sheen and bubbles 500 yds west of platform

release from no. 2 thruster; no sheen reported

rough seas affecting skim pile
bucket dropped; no coordinates or facility reported
large sheen sighted by NOAA

backflow in bad oil tank; no facility reported

release from skim pile; no facility reported

heavy rain
pinhole leak in drain line; no facility reported
discharge from sump; no facility reported

fitting failure; no coordinates or sheen reported
overboard water sheen, no sheen size reported
rainbow rosebud sheen

sump line leak; no facility reported

adjusting chemical; no coordinates reported
overboard line during startup; no facility reported

tank overflow; Florida location

pinhole leak; no facility or block reported

hydraulic line leak
release at 5,100 foot depth, no coordinates or sheen reported
small sheen from bubbles

no sheen or facility reported

no sheen reported
skid pad overflow

leak in line; offshore supply vessel, no sheen reported;

release at 5,200 foot depth; no sheen reported

chemical upset; no coordinates reported
CPI malfunction; no sheen color

Produced water process upset
release from water skimmer

upset while bringing field back on line

no coordinates reported; treatment chemical in produced water

release while changing valve; no sheen color reported

rosebuds from Auger TLP forward port side of E-5 column
drain backed up due to heavy rains

pinhole leak in transfer line
hose burst at 4,200 ft depth; no sheen or coordinates reported
ROV deployed from the M/V Island Enforcer

Lost overboard in heavy wind / seas

corrosion leak near platform; no coordinates reported
oily rags from drum due to heavy seas and high winds; no block or sheen reported
release from wellhead cap; no sheen reported
release from flare boom; no coordinates or facility reported
chemical adjustment in produced water

release at SSV leaking flange

release at 6,000 ft depth; no sheen reported

ROV release at 2177 meters depth; no sheen reported
no sheen description
no sheen or facility reported; "really small amount" discharged when tube fitting leaked

transfer of DF from supply vessel leaked

Assume silvery for calculation

heavy rains overfilled sump; no facility reported
gas bubbles; no sheen reported

5 empty sealed 500 gal totes went overboard due to rough seas; no block or sheen reported
District reported 336 gal, NRC reported100 gal; E100 issued; sump failure; platform shut in
chemical treatment upset

residual deck drainage
no facility reported
NOAA report; no sheen description

release at 160 meters depth; no sheen reported
condensate from deck washdown; no facility reported
release at 7150 foot depth; no sheen or coordinates reported

nonsheen color reported

Wellhead
Releasing at 3 bbls per hour on-going, 22 bbls total per OIR

no sheen color or width
containment late leak

Drip pan overflow; no sheen or facility reported
system upset
Wemco overflow
leak during well shutdown; no facility reported
release while cutting penetrator; no facility reported
sheen on start up; no facility reported
4" bulk line leak
hose break; no sheen reported

flange repair
no sheen description
heavy rain sump overflow; no coordinates

heater treater overflow
no sheen size reported

sump pile release; no sheen reported
floatation cell upset; no facility reported

Wellhead

bringing platform back online
diesel from vent
cap flange on #3 pipeline FSV
flange leak; no coordinates reported
Wemco failure; no facility reported
subsea release, depth unknown, leak in EDPLRP; no sheen reported
diverter failure; no sheen reported

condensate and natural gas from wellhead; no facility or sheen color reported; well shut in
flow back equipment release
Vessel sank; no sheen color or block reported

hose leak; no sheen or facility reported

Wemco pump failure
ROV umbilical leak; no sheen color reported
rain overflow of sump; no coordinates reported
rain overflowed sump; no coordinates reported
construction spill
manifold leak; no facility reported

sump release; no facility reported
no sheen color reported
2 inch flow line leak
release at 6,063 foot depth; no sheen reported
loose piping

suspected BP pipeline; overflight observation; no sheen size reported
no facility reported

pinhole piping leak

non-specific NPDES discharge referred to EPA
clogged drain line; no coordinates or facility reported
o-ring leak; no sheen color reported
bubbling near 16-inch gas pipeline; no sheen reported
crane hose rupture
sump discharge
BOP test leak

chemical pump failure; no facility or sheen reported
winch plug leak

waste drain line corroded; no coordinates reported
oil carryover into float cell; no facility reported
pinhole leak in dump line; no facility reported

discharge from catch tray due to rough seas

tote tank tipped over on boat Jim Morgan during crane lifting; no sheen reported

30 miles west of Dry Tortugas; no sheen width reported
line rupture; no sheen reported

hose ruptured
hose failure; no facility reported
pinhole leak in drum; no sheen size reported
filling hose spill; no sheen or block reported

Cannot evaluate, no description
subsea wellhead decommissioning; no sheen or facility reported; 2200 foot depth
ROV release at 5170 foot depth; no sheen reported
flare boom discharge

ROV hose rupture; no sheen or coordinates reported
no block reported

no sheen description reported

loose fitting; no facility reported
natural gas release; no sheen, coordinates, or block reported
sheen color not reported

probably related to NRC # 1144435; no sheen; bubbles 15 feet x 15 feet
drip from gas cooler
release while adjusting valve; no coordinates reported
no facility reported
no sheen description
could be related to NRC # 1144511
subsea wellhead release; no sheen, coordinates, or facility reported
overflow of pan
spill while filling day tank; no sheen reported
O-ring failure at 250 feet depth; no sheen reported

Cannot calculate, no dimensions given

release from slip joint packer; no sheen color reported
auxiliary pipe racker pie hole misting oil; no sheen size reported
spilled from storage tank on platform, no facility reported
no sheen reported; cruise ship

tubing leak; no facility or sheen size reported
poured into drain; no sheen reported
capped line leaked
hose spilled

no sheen width reported
ROV loose hose; no sheen or facility reported
hose ruptured at 5626 fot depth; no sheen reported
vent line release
no coordinates reported
sheen color assumed barely discernable
wind blew oil out of skid after sump backed up; no facility reported
leaking hose; no coordinates reported

process water carry-over; no coordinates reported

leaking hydraulic fitting; no facility reported
overboard water upset; no facility reported
discharge from day tank vent on supply vessel; no sheen reported; Deferred to USCG
no sheen reported; Deferred to USCG
broken hydraulic hose; no facility or coordinates reported

ROV discharge at 1,175 feet; no sheen reported
no facility or sheen color reported
hose rupture; no sheen reported

drain line plugged and overflowed
Diesel tank overflowed during filling; no facility reported

unknown sheen source on platform
no facility reported
no sheen description
controller malfunction

hydraulic hose rupture; no sheen reported
no sheen reported

Investigated by Houma District, cleanup underway; OIR report done

119 bbls

no coordinates or sheen description reported; may be related to a Shell pipeline.
system upset; no facility or sheen reported
unmanned platform
biodegradable hydraulic oil; no facility reported
absorbant pads went overboard, not recoverable; no sheen reported
hose fitting leak
open valve on sump; no facility reported
operator investigation underway

no block or sheen color reported; NOAA sighting

no block or sheen color reported; NOAA sighting
no block or sheen color reported; NOAA sighting
release whiile washing skid
no block or sheen color reported; NOAA sighting

release while transfering fuel

no sheen description
leak from incoming line; no facility reported
no block or sheen size reported
no sheen width reported
fishing vessel apparently discharging bilge water; no block reported
O-ring broke
Pipe being removed
sheen width not reported

Asbestos solid waste; no coordinates or sheen reported
related to NRC 1148232
Fitting broke on supply vessel; no sheen reported

wind blew overboard

rain overflowed sump

failure of thruster hydraulic oil cooler; no coordinates or sheen reported

no block or sheen color reported; NOAA sighting
no sheen color reported

manifold leak; no sheen reported, release at 7,000 foot depth
no sheen length reported
residue left in suction tube; no sheen reported
paint spilled; no facility reported
pinhole leak in piping

production pump overflowed
spill from skid; no facility reported

no facility reported
condensate through produced water; no facility or sheen reported

release subsea; no sheen or coordinates reported

controller malfunctioned: no block or facility reported
release while transfering oil between tanks; no block reported

seal ruptured while launching ROV; no sheen description
discharge from generator; no sheen size
no coordinates, block, or sheen size reported
no sheen width or color reported; NESDIS sighting

subsea 6900 ft. umbilical termination assembly normal operations; no sheen reported
loose connection
release at 8,000 feet subsurface due to loose fitting; no sheen

no coordinates reported
methanol tank overfillled; no facility or sheen reported; RQ at 40 CFR 302.4 = 758 gal

open valve during fueling operations; no coordinates reported
sheen color not reported

no sheen or facility reported
leak while pressurizing line; no sheen color, block or facility reported
inactive wellhead leak
transfer of fuel; related to NRC # 1149111; no sheen reported
No block, coordinates, or sheen width reported; 3 miles N of Thunderhorse MC 778
no block or sheen color reported; NOAA sighting
corrosion caused wellhead leak; no coordinates reported
flushing shutdown platform pipelines; no facility reported
no sheen color or facility reported
no sheen color or width reported; NOAA observation

no sheen size reported
no coordinates or sheen size reported

assumed barely discernable sheen
tank discovered leaking; no sheen reported
large amount of paint spilled into water; no sheen reported
skimmer release
ROV and wellhead release; no sheen reported
surface safety valve leak; no coordinates reported
4-inch test line leaked
plastic tank dredged up by shrimp net; no block or facility reported; tank recovered

no block reported
overboard water line spill; no facility reported
no sheen reported, bladder leak below surface; RQ = 758 gal

unknown overboard water processing issue; no coordinates reported; corrected
slip joint packer failure; no sheen, facility, or coordinates reported

no coordinates reported

500 gal tote tank fell overboard

ROV 4,140 ft depth; no sheen reported
no sheen reported
Cannot calculate, no color given
no sheen reported

no sheen reported
Likely natural sepage

Probably below action level; monitor; no sheen reported

no sheen reported
ROV UHD84; release at 6399 ft depth; no sheen sighted

Calculates to 63.43 bbls or 2,664 gals

no sheen reported

no sheen reported

Algae??

no sheen reported

no sheen reported

95 miles west of Key West

no sheen reported

Cannot calculate; no sheen reported
no sheen reported

no sheen reported

Loose needle valve on pig trap; no facility reported
pinhole leak in piping

corroded section of pipe

leaking hydraulic hose; no sheen reported
no block or sheen width reported

no sheen color reported

no sheen reported
corrosion of wellhead caused pinhole leak; no facility reported
Oil leak from float cell; no facility reported
chemical rates set wrong; no coordinates reported

sheen while flushing line; no coordinates reported

pipe corrosion; no sheen reported
oil cap blew off engine
release from 2 inch test line

hydraulic hose failure; no sheen reported

no sheen color or width reported
pinhole leak in 6-inch pipe
hole in containment skid; no facility reported
no coordinates reported

behind Texaco Island, TX; no coordinates reported
deck flooded by rain

sheen from exhaust port; no coordinates reported

no coordinates or sheen color reported

No sheen color or width reported

1.19 bbls

no coordinates reported
no sheen description reported

pump failure

discharge from wellhead casing; no facility reported
leaking valve packing; no sheen reported

no facility reported; adjustments made
No sheen color reported
hole in drain pipe; no coordinates reported
no sheen size or block reported
corroded pipe; no facility reported
release at 5599 feet depth; no sheen
no coordinates reported; no sheen description
40 gallons on deck, unkown in water; no coordinates or sheen reported

no coordinates reported
reported as 4.15 gal, sheen much larger
no coordinates or sheen description
float cell malfunction; no coordinates
subsea construction winch; no sheen reported
two inch pipeline

no block reported
drilling brine with processed water; no coordinates reported
from 20 inch pipeline; no segment reported; line shut in
from 3 inch pipeline; no pipeline segment or sheen color reported; line shut in
pump shaft seal failure; no facility or coordinates reported
faulty chemical injection pump; no coordinates reported
rain overflowed sump; no facility reported; divers investigating

natural gas release; no sheen or segment reported
loop marine terminal; no sheen description
flyover observation
leaky hose from sump; no coordinates reported
release during product transfer; no coordinates reported

25 bbls

no sheen description
no coordinates reported
drain line caused skid pan to overflow; no facility reported

hose rupture; no coordinates or sheen reported
no coordinates reported
no sheen color reported
residual in pipe

process upset

level control valve stuck open; no facility reported; platform shut in

reported by passing boat; no facility reported; cleanup attempted
line rupture; no coordinates reported

mist entered water; no facility or sheen color reported
no facility or sheen reported
no coordinates reported
release while removing platform; no sheen width reported

leak while plugging wellhead; no block or coordinates reported
skid overflowed from rain; no coordinates or sheen description
out of service pipeline; no coordinates

plug and abandonment operation
pinhole leak in riser; no facility reported

Leak at a wellhead at 2115 ft depth; discovered by ROV

Sump pump failed

release from flare boom

no coordinates or sheen reported
fitting failure

low level in Wemco; no coordinates reported
relief valve discharge
pipeline abandonment leak

pinhole leak

bilge accidently pumped overboard
Chemical injection pump malfunction; block not reported

color assumed
possible pipeline leak
pinhole leak in 6-inch pipeline; no sheen color reported
compressor cooling tube leak; no coordinates reported
hose ruptured
no block or sheen color reported

no sheen reported
pinhole leak in pipeline on platform

discharge while opening wellhead; no coordinates reported
blossums of oil on surface above pipeline; no sheen size, coordinates, or pipeline segment repo
valve malfunction; no facility or sheen reported

casing overflow; no sheen reported
no block or sheen color reported
leaking connection: no sheen reported
leak on hydraulic power unit; no sheen color reported
release from flare; no facility or sheen color reported

heavy rain sump overflow
seal failure; no sheen description
system upset
slip joint packer failure; no sheen reported
release from vent boom; no coordinates reported

wellhead choke change operations; no sheen reported
no sheen width reported
may be related to NRC # 1156731; wellhead; no sheen
wellhead choking operations; no sheen reported
no coordinates; or facility reported
welhead choke changing operations; no sheen reported
subsea leak; no sheen reported; 0.5 gallons per hour
no sheen color reported

no coordinates reported

no sheen color reported
release while washing platform; no facility or sheen reported

equipment shut in; flowback operation
bubble on surface; overflight observation; no sheen reported

thruster leak; 1 qt per day; no sheen reported
pipeline leak; no facility or sheen description
no facility reported; incident under investigation by operator
multiple rosebud sheens
no sheen width reported

sheen color not reported
no sheen width reported
no sheen color reported
no sheen color reported; from leaking storage tank
release when lifting BOP; no coordinates or sheen reported

sheen color not reported
no coordinates reported
test separator leak; no facility reported
hose rupture; no coordinates or sheen reported
no coordinates reported

sheen description incomplete
no sheen color reported

1157465 related?

water clarifier pump failure
discharge at 4685 foot depth; no sheen reported

no coordinates reported
pipeline leak; no segment or facility reported

hydraulic hose fitting leak; no sheen reported
release at 25 meters depth, no sheen reported

NESDIS report; no sheen color reported; appears to originate from facility
NESDIS report; no sheen color reported
no sheen color reported
release from exhaust; no coordinates reported
release at 5,230 foot depth; no sheen or block reported

release during pigging operations; no facility reported
no sheen description
no coordinates reported

no sheen size reported
release while decommissioning pipeline; no segment or facility reported
no block or sheen description
release at 300 meters depth; no sheen reported
release at 4,700 feet; no sheen reported

valve leak
bubbles observed during flyover; no sheen, segment or facility reported

release from lubricator; no facility reported

Contacted Fieldwood about volume discrepancy. The NRC report has the wrong dimensions rep

engine generator pipe failure; no sheen description
pinhole leak in riser pipe

no sheen color reported
no sheen color reported
source unknown, subsurface
pipeline leak on deck, no facility reported
lube oil from sump rain overflow
release while bringing system on-line; no facility reported
release while bringing platform on-line
pinhole leak on accumulator pump
hydraulic hose failure on deck and moon pool
no coordinates reported
hot stab connection leak; no sheen or coordinates
release at 1350 foot depth when disconnecting hot stab, no sheen or coordinates reported

leak from subsea wellhead; no location or sheen reported

related to NRC 1157342, but not same release; remediation work

oil bucket discharge line plugged; no facility or coordinates reported
investigations underway
crane hydraulic line burst; no sheen reported
hose broke at 500 foot depth; no sheen reported
no sheen description or block reported
oil and water release; platform shut in
valve leak; no sheen reported
No sheen color
transfer line failure
related to NRC 1159546; Wemco unit failure on unmanned platform; no sheen or facility descri
release at 7,049 foot depth; couplers failed; no sheen or facility reported

Pipeline segment 18700. Recorded as ethanol but know it is methanol as NOLA District investiga

Ankor reported unknown sheen but suspects it is from a Fieldwood pipeline

ROV

hose failure

no coordinates reported
leak from inspection tool at 4,500 foot depth; no sheen reported
pipeline above water surface; no facility or coordinates reported

DATE_SECURED

NRC_REPORT_NOTES
hose rupture; no coordinates or sheen reported

no coordinates reported
no sheen color reported
residual in pipe
process upset

level control valve stuck open; no facility reported; platform shut in

reported by passing boat; no facility reported; cleanup attempted

no coordinates or sheen color reported

No sheen color or width reported

1.19 bbls

no coordinates reported
no sheen description reported

pump failure

discharge from wellhead casing; no facility reported
leaking valve packing; no sheen reported

no facility reported; adjustments made
No sheen color reported
hole in drain pipe; no coordinates reported
no sheen size or block reported
corroded pipe; no facility reported
release at 5599 feet depth; no sheen
no coordinates reported; no sheen description
40 gallons on deck, unkown in water; no coordinates or sheen reported
no coordinates reported
reported as 4.15 gal, sheen much larger
no coordinates or sheen description
float cell malfunction; no coordinates
subsea construction winch; no sheen reported
two inch pipeline

no block reported
drilling brine with processed water; no coordinates reported
from 20 inch pipeline; no segment reported; line shut in
from 3 inch pipeline; no pipeline segment or sheen color reported; line shut in
pump shaft seal failure; no facility or coordinates reported
faulty chemical injection pump; no coordinates reported

rain overflowed sump; no facility reported; divers investigating

natural gas release; no sheen or segment reported
loop marine terminal; no sheen description
flyover observation
leaky hose from sump; no coordinates reported
release during product transfer; no coordinates reported

25 bbls

no sheen description
no coordinates reported
drain line caused skid pan to overflow; no facility reported

line rupture; no coordinates reported

mist entered water; no facility or sheen color reported
no facility or sheen reported
no coordinates reported
release while removing platform; no sheen width reported

leak while plugging wellhead; no block or coordinates reported
skid overflowed from rain; no coordinates or sheen description
out of service pipeline; no coordinates

plug and abandonment operation
pinhole leak in riser; no facility reported

Leak at a wellhead at 2115 ft depth; discovered by ROV

Sump pump failed

release from flare boom

no coordinates or sheen reported
fitting failure

low level in Wemco; no coordinates reported
relief valve discharge
pipeline abandonment leak

pinhole leak

bilge accidently pumped overboard
Chemical injection pump malfunction; block not reported

color assumed
possible pipeline leak
pinhole leak in 6-inch pipeline; no sheen color reported
compressor cooling tube leak; no coordinates reported
hose ruptured
no block or sheen color reported

no sheen reported
pinhole leak in pipeline on platform

discharge while opening wellhead; no coordinates reported
blossums of oil on surface above pipeline; no sheen size, coordinates, or pipeline segment repo
valve malfunction; no facility or sheen reported

casing overflow; no sheen reported
no block or sheen color reported
leaking connection: no sheen reported
leak on hydraulic power unit; no sheen color reported
release from flare; no facility or sheen color reported

heavy rain sump overflow
seal failure; no sheen description
system upset
slip joint packer failure; no sheen reported
release from vent boom; no coordinates reported

wellhead choke change operations; no sheen reported
no sheen width reported
may be related to NRC # 1156731; wellhead; no sheen
wellhead choking operations; no sheen reported
no coordinates; or facility reported
welhead choke changing operations; no sheen reported
subsea leak; no sheen reported; 0.5 gallons per hour
no sheen color reported

no coordinates reported

no sheen color reported

release while washing platform; no facility or sheen reported

equipment shut in; flowback operation
bubble on surface; overflight observation; no sheen reported

thruster leak; 1 qt per day; no sheen reported
pipeline leak; no facility or sheen description
no facility reported; incident under investigation by operator
multiple rosebud sheens
no sheen width reported

sheen color not reported
no sheen width reported
no sheen color reported
no sheen color reported; from leaking storage tank
release when lifting BOP; no coordinates or sheen reported

sheen color not reported
no coordinates reported
test separator leak; no facility reported
hose rupture; no coordinates or sheen reported
no coordinates reported

sheen description incomplete
no sheen color reported

1157465 related?

water clarifier pump failure
discharge at 4685 foot depth; no sheen reported

no coordinates reported

pipeline leak; no segment or facility reported

hydraulic hose fitting leak; no sheen reported
release at 25 meters depth, no sheen reported

NESDIS report; no sheen color reported; appears to originate from facility
NESDIS report; no sheen color reported
no sheen color reported
release from exhaust; no coordinates reported
release at 5,230 foot depth; no sheen or block reported

release during pigging operations; no facility reported
no sheen description
no coordinates reported

no sheen size reported
release while decommissioning pipeline; no segment or facility reported
no block or sheen description
release at 300 meters depth; no sheen reported
release at 4,700 feet; no sheen reported

valve leak
bubbles observed during flyover; no sheen, segment or facility reported
release from lubricator; no facility reported

Contacted Fieldwood about volume discrepancy. The NRC report has the wrong dimensions rep

engine generator pipe failure; no sheen description
pinhole leak in riser pipe

no sheen color reported
no sheen color reported
source unknown, subsurface
pipeline leak on deck, no facility reported
lube oil from sump rain overflow
release while bringing system on-line; no facility reported
release while bringing platform on-line
pinhole leak on accumulator pump
hydraulic hose failure on deck and moon pool
no coordinates reported
hot stab connection leak; no sheen or coordinates
release at 1350 foot depth when disconnecting hot stab, no sheen or coordinates reported

leak from subsea wellhead; no location or sheen reported
related to NRC 1157342, but not same release; remediation work

oil bucket discharge line plugged; no facility or coordinates reported
investigations underway
crane hydraulic line burst; no sheen reported
hose broke at 500 foot depth; no sheen reported
no sheen description or block reported
oil and water release; platform shut in
valve leak; no sheen reported
No sheen color
transfer line failure
related to NRC 1159546; Wemco unit failure on unmanned platform; no sheen or facility descri
release at 7,049 foot depth; couplers failed; no sheen or facility reported

Pipeline segment 18700. Recorded as ethanol but know it is methanol as NOLA District investig

Ankor reported unknown sheen but suspects it is from a Fieldwood pipeline

ROV

hose failure

no coordinates reported
leak from inspection tool at 4,500 foot depth; no sheen reported
pipeline above water surface; no facility or coordinates reported
