Subject: Informal staff-to-staff discussion on LOOP Outfall 004 ... and next steps for completion

Hi Jenniffer and Sonja,

We believe that it would be helpful to have a brief informal staff update/discussion with y'all to ensure that EPA will be able to adequately address all of LDEQ's concerns in an upcoming "formal" discussion for our respective Managements. I suspect that Laura Thompson may still be out of the office, but feel free to invite Blake or another toxicity person, if appropriate.

The focus will be on Outfall 004, but perhaps we should touch on any other outstanding issues (the modifications requested by LOOP from Aug. 2015, status of consultation with National Marine Fisheries Service, if applicable, etc.) …and perhaps brainstorm on a time-line for completion (??)

Please let us know of your availability for the week of March 6 -10, 2017.

Thanks so much,

K
