Subject: FW: Location of LOOP Materials
LOOP permit modification Outfall 029 letter dated 081015.pdf
Honker mtg w LOOP 090517.pdf

Hi Denise,

Per your requesting ,forwarding the old email which is "posted" by the hard-copy items I compiled related to LOOP (across from Maria) – which is NOT everything!

I have not been involved in LOOP (LA coordination) much since the meeting held in Dallas on 9/5/17 (attached),because everything has been elevated to a management/attorney level.

Also, as you try to gather all of the LOOP materials, here are some of folks who have been involved:

Chen, Bogdan, Lawrence, all Acting Section Chiefs Crawford, Restivo, Hayes, Shaikh, and of course Larsen & Wooster in their various capacities (Acting or being themselves ☺), Gillespie, and other EPA attys?...probably others. Edwina has "Records" that folks send her …not sure what all is there, but likely not complete at this time.

Brent,

See attached permit Mod. request from 2015.

<<<<<

Here is a link to LDEQ's EDMS (Search: "Surface Waters" "Permit" for AI No. 4634). You can get EVERYTHING that is in EDMS for LOOP by just entering the AI No. 4634. Tip: run during off-peak (early, lunch, late) to get quicker downloads.
http://edms.deq.louisiana.gov/app/doc/queryresults.aspx

Good Luck,

K

Subject: Location of LOOP Materials

Hi Angela,

Per your request, I have "organized" the hard-copy stack-of-LOOP materials that I have collected over time. They are somewhat in chronological order. I placed them in a centralized location for use by all -- on top of the glass-front bookcase across from Maria & Isaac.

(Also, Silvia still has some materials including the "old" studies performed by LOOP sent to us by LDEQ/LOOP, etc. at her cube.)

Also, I have copied all e-files that I have stored on my R: to H: at --

H:\6wq\6WQ-PO\Louisiana DRAFT Permit Reviews\LA0049492 LOOP Deepwater Port Complex_LDEQ and EPA copermittees

(There are many emails that have come & gone which are NOT included in the "stack" or the e-files.)

Let me know if additional info is needed.

Thanks

K
