Edwina,

No problem☺ ….you may have been thinking about LOOP (Louisiana Offshore Oil Port).

Isaac Chen is the "EPA Permit Writer" and made the recommendations to LDEQ re: State Outfalls (i.e., WET biomonitoring @ Outfall 004 – which has been the hold-up for >3 yrs!) My role is Louisiana Coordinator.

When/if it comes time for LOOP here's the folks that I can think of off the top of my head:

Isaac Chen, Brent Larsen, Stacey Dwyer, Silvia Bogdan (WET), Kay Schwab, Taim Shaikh, Rich Wooster…. And "Actings": Angela Restivo & Mark Hayes (I don't think anything really happened on LOOP while Brad Crawford was here.)

And historically when LOOP 1st arrived in 2014: Claudia Hosch, Paul Kaspar, Paul Juarez (WET) & some HQ's folks re: (WET) …and of course Bill Honker & Sam Coleman for upper mgmt….maybe more…I will keep thinking. No EPA atty yet that I know of.

Back on May 5, 2017, I copied everything I had at that time in R: for LOOP to H: (i.e., not screened for "internal-draft discussions") + there are more emails in Outlook.

H:\6wq\6WQ-PO\Louisiana DRAFT Permit Reviews

Thanks

K

Edwina,

I am not involved in OCS…just Isaac, Brent, & Stacey, I think??

Thanks

As I've set up an Administrative Record for OCS, I need to know the location of your docs in this matter.

I've done a "global search" and found no records.

Thank you!

Edwina
