Subject: FW: ACTION Items Due on 4/18/17 for the week of 4/24-28/2017

Sorry for delay. I was at offsite training yesterday.

Hi Brent,

Louisiana Offshore Oil Port (LOOP), LLC, Deepwater Port Complex, (joint venture of Marathon Pipe Line LLC, Valero Terminal and Distribution Company, and Shell Oil Company) (LPDES Permit No. LA0049492, AI No. 4634) - State Permit Review and EPA Permit Issuance

The existing wastewater permit which was jointly issued by EPA & LDEQ expired September 30, 2013. EPA and LDEQ are continuing to work together on the proposed reissuance of the permit regarding appropriate permit requirements for brine discharges. This situation is similar to the Strategic Petroleum Reserves (SPR) under the U.S. Department of Energy, (Big Hill Oil Storage, TX0092827, and Bryan Mound Oil Storage, TX0074012).EPA reissued these permits in November 2014. Next steps for LOOP will likely include conference calls between EPA, LDEQ and LOOP. The joint LDEQ/EPA permit will be reissued ASAP. R6 upper management briefing is planned pending receipt of LDEQ's proposal regarding a possible alternate approach.

City of Vidalia, Wastewater Treatment Plant (LPDES Permit No. LA0032794, AI No. 30293) - State Permit Review

This facility is a 1.5 MGD "major" Publicly Owned Treatment Works (POTW) which appears to have no controversial issues. Upon further review of the proposed permit, EPA will determine the appropriate response for issuance to LDEQ by the regulatory deadline of April 26, 2017.
