Just fyi – it is my understanding that EPA folks have had input in the past on the federal part of the permit. The current LDEQ permit writer has explained that she simply "carried forward" the federal portions of the permit (i.e., no changes from existing) in this draft permit.

Please look at this ASAP and see if we have an enforcement problems with this – LDEQ drafted the Draft 'joint' permit and it will be the one we need to enforcement for federal waters. Note we have to provide feedback by Monday! I'm hoping you've already seen it.

Carol/Paulette,

FYI – in case you have not seen this already. Attached is the Louisiana Offshore Oil Port draft permit for the mega crude oil deep port, inland storage & pipeline facility. LDEQ & EPA R6 (Isaac Chen) are joint permitting authorities since the facility discharges into State and Federal waters.

Isaac has put together some concerns and we plan to provide LDEQ with "input" NO LATER than Monday, 3/31/14.
