Yes. Bill and I met with Scott and Elliot Vega and reached an agreement that we would spend 6 months to try and resolve the issue.

The talks were delayed due to flooding in Baton Rouge

Rich,

If you get a chance to collide with Stacey, can you please see if she recalls whether or not the contents of LDEQ's "Declaration of Emergency and Administrative Orders" (i.e., discharges authorized outside of the CWA) were discussed when she & Bill traveled to LDEQ on June 14, 2016?

(Bill could not recall off the top of his head & I didn't want him to have to dig up his old notes since he is so busy these days ☺.)

As we follow-up with LDEQ on the proposed reissuance of the Short-Term and Emergency General Permit (due Monday, Jan. 30), it would be helpful to know if EPA management has previously expressed concerns regarding LDEQ's "Declaration of Emergency and Administrative Orders." (We won't necessarily cite a specific discussion, but any available information would be helpful in formulating the tone for the letter that EPA HQs is recommending.

Thanks so much,

K

Scott and Jonathan,

Below are potential agenda topics for our meeting scheduled for June 14th. We are checking the airline flights, so I will have more information on the arrival time hopefully by the end of the week. Feel free to add additional topics to our list.

Thanks,

Stacey B. Dwyer, P.E.

Associate Director

NPDES Permits & TMDL Branch

US EPA Region 6

214-665-6729 phone
