Subject: Revised NMP talking points documents - clean and markup
Attachments: **Deliberative Process / Ex. 5**

Adding Carol Ann to the string.

Attached is a clean version and a version that incorporates edits and answers outstanding comments/questions (via responses in bubbles).

I think I've removed all the hightlighting and caught the typos,etc in the clean version, but let me know if you spot anything I missed. There was a lot of toggling between screens/documents, so I might have missed one :)

No worries, just trying to plan accordingly.
I think it may be easier at this point to send to Dianne, Lisa Garcia (OEJ) and OCR simultaneously.
Will just need confirmation whether OGC should also send Helena's timeline on adversity paper or whatever else you all already reviewed, and the complainant's paper. I already have a comment on Helena's timeline on adversity paper, hoping to complete review of that by 4:30.
I am seeing Lisa Garcia at 4:30 and can tell her these things are in the works.

Okay, thanks -- Tony and I were waiting until all of our OGC comments were settled to send a courtesy copy to OEJ. Not sure about status of sharing with OCR or whether OCR has shared theirs with OEJ.

I'll loop in this version, but then let's say after 5pm. Sorry to miss your window.

I am going to be in meeting from 4:30 – 5:00. Sorry if this is confusing things – here are some of my comments back to CRFLO, and clarification of questions for CCILO. If you all will be gone by 5, need to know the status of Helena's documents (do I need to package them all up? Its fine, just need to know; do I need to review? Has OEJ or OCR seen ours? If not, will send to them at the same time I send to Dianne).

Hi,

I have the pen and am incorporating all the comments just now. Should have something to you within the next 20 minutes.

Not nudging, oh OK, yes I am, can you all give me an ETA for comments on this document, and/or whether there will be any? Just trying to plan, so I know whether between 4 and 4:30 I will be looking, we should speak; and/or that will occur after 5:00, and the status of the remainder of the package for Diane. Thank you.
