Thanks Jim
I know that BPA provided a significant amount of money for mitigation to the Tribe a couple years ago. Perhaps this is the part of the work that was funded.

Dave/Helen: thanks for our meeting this morning. Attached is a copy of the ACOE News Release from April 2013 which describes a water temperature study which the Kalispel Tribe and the ACOE are conducting at Albeni Falls Dam. I wasn't sure if EPA was aware of this study or results and any implications for the Pend Oreille River Temperature TMDL. Apparently, there is also an MOU between the Kalispel Tribe, the ACOE, BuRec and BPA which is referenced at the bottom of this news release.
