Tanya I will submit this to eDiscovery with you as the second person on the request. After that, based on current practice, I expect – unless I hear otherwise – that this is OTAQ FOIA that I will not be involved in. If you need further help please let me know.

Sabrina can you both include this email in FOIAonline for record purposes, start the clock, and remove me as the lead?

Hi Mr. Weinstock,

I consent to the modifications as listed. Thank you.

Best,
Ben

We will search for emails with "ford.com" in the to, from, cc, bcc that contain any of the following terms:
"Emission(s) testing"
"Emission(s) certification"
"Ranger"
"road load"
"whistleblower"

We will search for emails dated January 1st, 2018 until the date the search request is submitted to EPA's eDiscovery services.

Please confirm our agreement so we can begin the search, if you have any changes you wish to make or if I misunderstood our agreement please don't hesitate to make changes to any of the proposed search conditions. Please be aware that we will not start the FOIA clock or conduct any search until a final agreement is reached.

Thank you for your cooperation,
