Subject: Reminder for today's 3pm call with USFS, EPA, and the Corps RE: Next Steps on the Deferral of the Referral Period - Deliberative - pre-decisional

We'll use the same call in number Personal Matters / Ex. 6

The focus of the call is the question of further extending the referral period which officially ends on January 7th and has currently been extended indefinitely by mutual agreement between the USFS and EPA.

Agreement was reached on our last interagency call that the characterization of impacts in the FEIS is adequate.

Informing this call are the preliminary views of the agencies regarding mitigation:

[redacted]

The Corps believes the FS has made every attempt to address all impacts of the proposed mine and we do not believe there are any insufficiencies. The Corps has worked diligently, as a cooperating agency, with the FS to identify the significant issues and impacts resulting from this proposed project.
