REDACTED VERSION

ROC (b) (6) [redacted] 08272013
FROM: Bartolome J Canellas (6SF-RL)
TO: Site File
DATE: 08/27/2013
SITE: Wilcox Refinery
SUBJECT: Returned phone call forwarded by Brenda Cook, ref call from (b) (6) [redacted], a property owner in (b) (6) [redacted], telephone number (b) (6) [redacted].

1. State contact - ODEQ Todd Downham, 405-702-5136, Todd.downham@deq.ok.gov
2. Returned (b) (6) [redacted] call at 2:14 PM, left voice message that I was returning his call.
3. Called back 2:49 pm.
4. He asked about status of the site and who told the nearby Church that they needed to be out of the property by September ?????
5. Informed him that I was not aware of any decision of EPA informing the Church that they needed to be out by a certain date. That this could be something of their own decision (the Church) to relocate.
6. Explained the site has been proposed to the Superfund NPL list, there was a public comment period, as far as I know no public comments were received, EPA will likely add to the NPL list in a near future. EPA normally adds sites to the list in groups of several sites, usually twice a year, this site may likely show up in the list in the next update at the end of this year or early next year 2014.
7. Explained that in the meantime EPA is currently looking to identify responsible parties that could be responsible/liable for the investigation and remediation of the site if needed.
8. Clarified pay for investigation and remediation if needed, not necessarily buying his property.
9. He knows the state contact Mr. Todd Downham.
10. Informed EPA is likely to create a site mailing list and prepare future site fact sheets. Offered to add his name to the site mailing list that is likely to be created in the future.

Required action:

11. **Please add to the list.** (b) (6) [redacted]
