Mr. Nixon,

The Cedar Chemical 104(e) Information Request, dated January 14th, 2013 was not addressed to anyone in particular so it took a while for it to finally get forwarded to BP Legal. Mr. Benton gave us an extension on the Response deadline till March 12, 2013 based on that situation. To conduct and complete our document record search and compile our Response is taking longer than anticipated. I have tried to phone both you and Mr. Benton and left voice messages.

We are requesting an additional 30 days till Friday, April 12, 2013 to submit our Response as completely and comprehensively as possible.

Thank you for your assistance.
