I'll be there around 4:00 PM.

Hi George,

We will not be able to make it at 1300. Scott and I have flights that arrive just about that time.

Good late morning and glad everyone is set on rooms.

Just got off the phone with Eric from Weston. For Monday June 10, let's meet on-site at 1300 for the LV folks to get a walk-through and get a briefing of what has been done with the site. From that walk-through, we'll then determine the work schedule for the rest of the week. According to Eric, there's a tropical depression on its way and we need to keep that in mind as we're working.

Let me know if this works with everyone. Thanks!

Good Monday afternoon! I'm happily unpacking six crates in my new cube in my new building. Such a joy!

Greg Fife and I discussed hours of operation and let's plan our workdays to begin at 0700 and end between 1700 and 1800. We'll take an hour for lunch before starting back up.

I'll see folks on-site late on Monday due to travel.

Let me know how this works. Thanks and take care!
