Importance: High

Bill:

I just learned that the Federal Register publication date for NPL proposal for Wilcox Oil Co., with be this Friday, May 24, 2013. It will be Proposed Rule #58, and will be one of nine sites proposed to the NPL. The public comment period will end on July 23, 2013.

We will need your comments to the attached draft Public Notice, and your approval of placing the Public Notice in the Bristow News/Record and/or the Tulsa World newspapers as soon as possible. As discussed on the attached advertising information, The Bristow News/Record is the newspaper of record for the residents in the site area, and is the recommended publication for this Public Notice. They are extending a discounted price of $75 per insertion to EPA. The newspaper is published twice a week, on Wednesday and Friday. If you choose to run it twice, the cost will be $150.00.

Since EPA will be off this Friday and Monday, the earliest possible insertion date in the Bristow News/Record will be Friday, May 31. The newspaper's deadline for May 31 is Wednesday, May 29, at noon. I will not be in the office on Wednesday, so I can place the notice in the newspaper on Tuesday, May 28, or someone else from Toeroek's staff can place it on Wednesday morning, for publication on May 31.

Thank you.

Bill, here is the DRAFT Public Notice. Please review and let me know if you have any changes or additions. Also, please note that we will need the dates surrounding the public comment period--presumably May 23 through July 22?

Also attached is information regarding the papers that service Bristow. Please advise as to which paper you would prefer.

Thank you.

Best regards,

Kim Shultz
