Hi, Bill...My understanding is that before CH2M HILL can begin work on a new site, the Task Order Manager (Donn) would provide the PRP list to Hank Thompson and request that Hank/Mike Pheeny ask us (HILL) to conduct a conflict of interest screen. Once we have completed the screen, we submit the results to Hank/Mike and then, if no conflict is identified, EPA authorizes us to work on the site through a Task Order modification. We cannot begin conducting the screen until we are asked to do so by Hank/Mike and cannot begin work until the screen is complete and EPA modifies the Task Order to include the site. The time the process can take varies, depending on the number of PRPs.

Ok, Lorraine please use this as your get up and go, and send Donn something about starting. Make sure you copy me so I can follow through. I don't want this to get screwed up like the last deal and fall through the cracks.

Thanks,
Bill

Donn,
I need to get CH2MHill to get on board to help me with Wilcox, in Bristow, Oklahoma. The site will

be added to the NPL and I will need a mailing list Adv. (Public Notice) Fact sheets, etc. Please get this started so we don't run out of time. I prefer working with CH, because they know exactly what I need and can get it done in a timely manner. Any questions please give me a shout.
Thanks,
Bill
