Dear Mr. Pedigo,

Thank you for your letter of September 21, 2011. The status of the Federal On-Scene Coordinator 's (FOSC) decision not to utilize Bioremediation Agents in response to the Deep Water Horizon oil spill has not changed. The Region 6 Response Team has also not received a request for pre-approval to be issued to FOSCs for use of OSE II from an Area Committee. We therefore have no additional comments in regard to your requests, beyond those provided to you in my letter of August 24, 2011.

Thank you for your continued interest in the National Response System, and in particular, the Region 6 Response Team. If you would like to discuss these matters further, I urge you to contact me at 214-665-2270, or Jim Staves at 214-665-2277 so we can identify a potential meeting opportunity.

Sincerely,

Ragan Broyles, P.E.
Co-Chair, Region 6 Response Team
