Kent,

Anyway we could do the conference call this week?

Thanks,

Gary Miller

Subject: ftp site with data

Gary,

I am currently uploading the data sets to an ftp site. I apologize that I don't have explanations for each data file at this point, but at least the COE can look at the data to see what is useful to them. We will be sure to schedule a conference call with Jason when he gets back to explain each file.

Here is the ftp site with the data. It is best to open this ftp site by right clicking on Window Explorer on your start button and then typing in the address.

ftp://ftpext.usgs.gov/pub/cr/tx/fort.worth/

File name Xsection_data_Jason

Please let me know if you have any questions.

Thanks.
