March 11, 1960

Mr. A. M. McKinnon
Director of Public Works
City of Mountain View
Mountain View, California

Dear Sir:

I have examined your proposed City ordinance regulating the discharge of wastes in the City's sanitary sewers and the letter from the County Health Department with their proposed changes. I have no comments, but I wish you would clarify certain points.

Referring to Section 9, Paragraph G, it is difficult for us to determine what effect, if any, wastes might have on the sewer treatment process without more specific information about the process. Also, to a certain extent, this same comment applies to Paragraph H.

Section 16 has reference to "Standard Methods for the Examination of Water and Sewage". Is it possible for us to obtain a copy of these standards so that we can have some means of controlling our own waste?

Other than the above, the proposed ordinance is well within the normal practices.

Very truly yours,

FAIRCHILD SEMICONDUCTOR CORPORATION
