---

Alan,

Thanks for filling me in on your role and history with forestry issues in Oregon. We'll focus the conversation on this Riparian Rule making process.

I am fine if Josh joins us – I've worked with him quite a bit while I've been here, and he participates on a review team for the RipStream study. I look forward to hearing back from you about Teresa and Peter.

Thanks,

Terry

Terry,

An update on the Riparian Rule making process would be great. The dates you suggested work for me. I am checking with Peter and Teresa and will get back with you hopefully later today. Would you mind if Josh Seeds joins us? As you know, he is heavily involved with the state forestry issues for DEQ.

Regarding my role, I have been part of EPA's Forestry Team and involved with forestry issues for quite awhile. (b) (6) (b) (6) Part of my "forestry" role focuses on CZARA and the OR FPA rule making process. As you know those issues are closely linked.

I hope this helps. Please feel free to call me if you have any questions.

Again, thanks.

Alan,

Thanks for getting back to on this, and for including Peter and Teresa in this.

Meeting sometime between April 16-18 (possibly the week of April 21) would be good for us. I'm imagining a staff-level conversation wherein we bring you up to speed on this Riparian

Rule Process (history, what work has been completed, the process, where we are, etc.) and address questions as they arise – does this fit with what you were thinking of? If something different, please let me know. I don't have a good understanding of where you fit into EPA's part in this process, so let me know if you think Peter and Teresa should also be there. I'll invite Jeremy Groom from our end (he's been involved in this process longer than I have), and maybe others depending both on what information you would like in the conversation, and if you have any requests of who should be there.

Thanks,

Terry

Terry, I may take you up on the opportunity to meet with you, possibly some time in mid-April, if that works for you. (b) (6)

I would also like to add Peter Leinenbach and Teresa Kubo to the doodle poll. Both are heavily involved in forestry issues in Oregon.

Thanks Terry. I look forward to working with you on the ODF Riparian Rule making process.

**Subject:** review of ODF Riparian Rule write-up

Folks,

Jeremy is working on the write-up of the model he is using to develop and test riparian rule prescriptions for ODF. Our intention is to get you this write-up the week of April 28th, and meet with you soon afterwards to address any initial comments and questions on the write up, while giving you some time after this meeting to pull your input together. Please complete the attached doodle poll by this Friday to get this meeting on the calendar.

Thanks,

Terry

PS – Alan, I had heard that you were taking over from Dave Powers about forestry issues in Oregon. I'd be happy to bring you up to speed with this process if more info than what was presented at our

January meeting would be helpful – just let me know. Also, if there are other people from EPA that should be included in this, please let me know.
