Scott,

Go ahead and use VA Hospital Production Well.

Thanks-again,
Albert

Sorry, I didn't answer your question. I am not tied to using KAFB well names except for KAFB wells. I would prefer to use whatever you think is the best name for the VA well.

Scott,

Are you using the nomenclature KAFB is using for its wells in your modeling report?

KAFB uses VA Hospital Production Well in its reports.

Thanks,
Albert

Subject: VA well question

Mr. Martinez,

I would like to use the most appropriate name in referring to the VA well in the groundwater modeling report I am preparing. Is it better to call it the VA

well, VA hospital well, VA water well, or something else. Please let me know.

Thank you
-Scott Ellinger
