RE: URANIUM OXIDE DISPOSAL

Gentlemen:

Attached you will find a plumbing detail covering the proposed structure to be erected for the Advance Technology Laboratories, Mountain View, California as well as a copy of City of Mountain View Ordinance 175.638 which regulates the use of public and private sewers.

It is my understanding that uranium oxide will be disposed of in this proposed sewage disposal system. In the interest of preventing any liquids in our public sewer system that may be injurious to said system or employees, I submit this to you for your comments.

Yours very truly,

H. H. HALBESMA
Chief Building Inspector
